#### Supreme Court.

Before Chief Justice Emerson.  
James A. W. McNelly vs. Charles R. Thompson et al.

Mr. A. J. Herder for plaintiff; the Attorney General for the Minister of Mines, Sir J. S. Winter, K.C., for Mr. Charles R. Thompson.

Mr. A. J. Herder states the plaintiff's case and calls Thomas J. Thorburn, whom he examines. The plaintiff on September last applied for a license to search for minerals over Thompson's Island at Parsons' Pond. Previously the deft. Thompson had applied for a submarine area on Parsons' Pond which included the Island and a license to search over the submarine and Thompson Island was granted to him. Owing to the grant of license to Thompson of the said Island a grant license was refused to plaintiff. Hence the proceedings, the plaintiff contending that the deft. had no right under a submarine application to get a license for the Island—that he being first applicant for the Island alone should receive the license. Sir J.S. Winter, K.C., for deft. Thompson, objected that as the property had been assigned the parties to whom assignment was made, viz. Newfoundland Oil Development Co., and the Newfoundland Oilfields Ltd should be made parties. Mr. A. J. Herder for the deft. to add the parties. C.A.V.

#### May Lose Right Hand.

"HERALD" EMPLOYEE SERIOUSLY HURT.

This morning at the office of the Evening Herald an employee named William Adams was seriously hurt, and as a result may lose his right hand. He was employed running the machine used for cutting cardboard for the manufacture of boxes, when, it is thought, a piece of the material he was using slipped down and he put his hand down to get it out and was caught in the machinery. The hand was badly mutilated and the arm also badly cut. A lad named Dyer, who worked near him, gave the alarm and the man's hand was extricated. Dr. Chaplin who was called was promptly on the scene, bound up the wound and he was sent to Hospital in the ambulance. The doctors fear that the young man may lose his hand.

#### Rumoree That Guards Will Disband

A rumor went the rounds of the city to-day that the Methodist Guards had disbanded or were about to do so; but those in authority, to whom the Telegram applied for information on the matter, however denied any knowledge of such a course. A meeting of those in charge of the organization was held yesterday afternoon and certain important matters were discussed, but no further action was taken as regards the appearance of the Guards in the Coronation parade. It is not unlikely that the Guards will parade to a special service in one of the Methodist churches on Coronation Day.

#### A Strange Story.

A man named Henry A. Smith arrived here by the express yesterday and during the afternoon called on Inspector General Sullivan at his office and made the following statement: He said he belonged to Boston, that he was a mechanical engineer and became acquainted at Boston with a man named Rice, who induced him to come to Newfoundland with him to fit up a pulp mill. He also alleged that Rice paid his passage from Boston, and on his way across country, before the train reached the city, he (Smith) fell asleep in the smoking room and when he awoke at the station here Rice had disappeared, as also his wallet and \$150 in cash. He said that he searched for Rice but could not find him, and he then determined to invoke the aid of the police. Mr. Sullivan then sent his men with Smith to search for Rice, but could get no trace of him. The train hands informed the police that they saw no companion with him on the cars between Port aux Basques and St. John's, and the belief of the officers is that Rice is a myth and that Smith is a fakir. He brought no tools or luggage except a little bag of old apparel, and last night he was placed in the S. A. Food Depot by the police. This morning he was repeatedly called from his cell but lay in a stupor, and J. G. Sullivan had Dr. O'Connell sent there to attend him. There was nothing to indicate attempted suicide and the belief of the police is that the man suffers from epilepsy. Up to 2 p.m. he had not recovered. A policeman is still in charge of the man.

**THE BONAVISTA BRANCH.**—There are at present about 400 men on the Bonavista Branch between Shoal Harbor and Bonavista. The track layers to-day are on the 78th mile and are quite near to Catalina. There are now 7 miles left to be finished. The track will be laid to Bonavista by the end of June.

**ROBBERIES AT BADGER.**—Inspector General Sullivan received a telegram from Badger this morning saying that two robberies had been committed there last night. Whether money or goods or what the message does not state. Mr. Sullivan sent word to the officer at Grand Falls to proceed there at once and investigate.

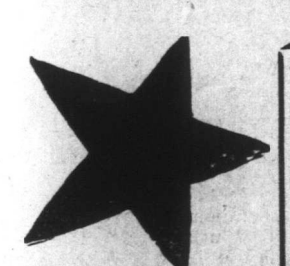

#### Tragedy of Generosity

Gave Large Sums to Charity and Dies in the Workhouse.

A life of vicissitudes has just terminated at Grimsby, G. B., where Robert Day Melhuish, once the principal fish merchant of the town, did a pauper in the workhouse. Beginning at Grimsby as a poor lad, Mr. Melhuish, by hard work and energy, won for himself a firm position in the fishing industry. He created the largest private business in the industry and amassed a great fortune, but he spent money as fast as he made it. His generosity was lavish. He gave large sums to every kind of charity, and often he would send his carts laden with choice fish to the poorer parts of the town, where his men distributed it broadcast. In late years he met with adversity, and ultimately became an inmate of the workhouse. His friends took him from the union and found him a cottage in the country in which to end his days, but fate was too strong for the generous loving old man, and he drifted back to the workhouse, where he died.
