Cable Ship Arrives in Port.

To Land a Wounded Man—A Fearful Night at Sea.

The Cable ship Mackey-Bennett Capt. Lander, entered the narrows yesterday afternoon to land Mr. Neyreneuf, a French expert, who was superintending repairs to the cable at St. Pierre. The ship then went to sea and operated in the vicinity of Cape Race.

At ten o'clock this morning she steamed into port again to get coal and water supplies and to land a member of her crew, who was seriously injured and who is now in the General Hospital in a precarious state. Capt. Lander reports that last night's gale was perhaps the worst and roughest in his thirty years of seafaring experience. Shortly after nine o'clock last night the wind raged from the eastward. As the night advanced the wind blew with hurricane force, accompanied by a mountainous sea running. It was useless to attempt to do any cable repairing work. The ship received a bad drubbing and sustained slight damage. About 11 o'clock the storm was in its element and the cable boat, shipped several huge "combers," washing away every thing moveable on deck. One unusually heavy sea boarded the ship on the starboard side removing the clocks from the lifeboats and smashed a quantity of woodwork. At this juncture Henry Nairn, a seaman, who was engaged nearby fastening some ropes, was struck by the sea and dashed against a winch. He lay on the deck for several minutes unconscious, after which he was brought to the cabin and every attention given him by the Captain and officers until the ship reached port when the patient was placed in the ambulance and conveyed to Hospital.

Nairn is seriously injured and it is doubtful if he will recover. He has a leg and an arm broken, his head crushed, his body badly bruised, while his face is literally disfigured. Nairn is forty four years old and belongs to Cape Breton.

The Mackey-Bennett has moved over to Bowlings Soutside premises to be coaled and expect to get away to sea again to-night.

Settlement Had Close Call.

With a gale of wind blowing from the N.W., the residence of John Clarke, of Paradise, a settlement off the Topsail Road, took fire at 10 o'clock last night and the whole place had a narrow escape from being wiped out. The stove pipe running through the roof of the house becoming overheated fired the shingles and in a moment the roof was ablaze. The people assembled and formed a bucket Brigade and after a stiff fight, quenched the blaze. The roof was badly damaged and had not the fire been discovered so quickly and quenched so promptly, the whole settlement would have been razed. Mr. Clarke's barn at the rear, with 2 tons of hay in it caught fire, but the people quickly quenched it.

Fought Police to The Death.

SAFE BLOWER IS SHOT.

Memphis, Tenn., Dec. 10.—In a police raid on a house in the outskirts of Memphis to-day, "Kinney" Bergen, believed to be a widely known safe blow or, was killed by city detectives. Frank Hollaway, known to the police authorities of the middle west and south-west as a robber and swindler, and two other men and a woman were arrested.

Bergen was killed after he had made a spectacular escape. The detectives, heavily armed, surrounded the house and captured other members of the party without trouble. But Bergen, vowing he would not be taken alive, directed a steady fire at the police, drove them back a few feet, then leaped from a garret window. Surviving the 35-foot jump without apparent injury, he got away. A short time afterward, however, he returned to the house. Detectives on guard surrounded him, and in the pistol duel that followed, Bergen was killed.

Made Fake Confession.

Hollaway who is credited with being the leader of the "gang," was arrested in Chicago a few months ago, and at that time made an alleged confession implicating himself in the robbery of the New Westminster, B.C. bank, when a sum in excess of \$300,000 was stolen. He confessed, it was said, to avoid being sent to Texas, where he was wanted for safe blowing. Hollaway, however, was returned to Rusk, Texas, and sentenced to seven years in the penitentiary. After his conviction he pleaded illness and while on his way to a hospital jumped from a fast moving train and escaped.

WONDERFULLY ENTHUSIASTIC MEETINGS & DEMONSTRATIONS AT CATALINA — MASS MEETING AT PORT REXTON TO-NIGHT — STONE GOES TO LA SCIE FOR COAKER.

Special to the Evening Telegram.

CATALINA, To-Day.

Great Union meeting here last night.

The President, Capt. James Jones, D.

Devine, Candidates Jennings, Winsor,

Yates and Stone addressed the meeting.

There was wonderful enthusiasm. A band was in attendance. The

meeting closed at midnight. The

Prospero arrived this morning at

daylight, unexpected, causing great

indignation amongst the people, as

Prospero laid up many nights not as

stormy as last night. People were

awakened by the steamer's whistle.

Crowds soon gathered at wharf with

guns. Flags were hoisted and the

delegates had a grand send off when

steamer left. Cheers after cheers were

given for Coaker, the F.P.U. candidates,

Jack Stone and delegates, which were

responded to by the 60 delegates who

embarked on Prospero. Volleys of musketry continually kept

up made things lively. The Tories on

board were dumbfounded. The President

decided last night to give up

trip north, owing to delay of Prospero

and lateness of season and business

demands at St. John's, and appointed

J. G. Stone to proceed to La-

Scie. President Coaker leaves for

Port Rexton at 1 o'clock by sleigh

and will be met by Port Rexton

sleigh at halfway house. A mass

meeting will be held at Port Rexton

to-night addressed by the President.

After the meeting the President will

take the train en route for St. John's

and will be due there by to-morrow's

express. The Catalina Council paraded

the town headed by the Orange Band.

Joy guns were fired all along the

route of the procession. He bid

adieu to the people about one mile

from the place of starting and as he

drove away the ovation given him

was such as Catalina never before

witnessed. What a difference between

Coaker's reception and the way Watson

was received last Summer who was

compelled to get a number to

escort him in order to protect him

from the indignation of the people.

Catalina will sink or swim with

Coaker, and McGrath will get his toe

in a mug before he knows it, if he

does not stop his abuse of Coaker and

the Union.

Walking

Averts Disease.

Walking, if properly and regularly

followed, says Health, would be-

come not only a restorer of health to

many who at the present time are on

the road to disease, but also a

source of pleasure. Let the arms

swing if you feel like it, and the

limbs too; open the nostrils and fill

the lungs, and the movements will

send a gentle electric vibration thro'

the entire body, the result of which

is the awakening of new life. Never

take the lazy gait, as it soon makes

one tired, and produces languor. Per-

haps the best time to walk is in the

early morning. The air is then most

thickly charged with the life-giving

oxygen, and freest from the dust and

smoke which rise later in the day.

At this time, also, the mind is liable

to be free from worry and anxiety,

hence in the best condition to drink

in the blessings of freshness for us

on every hand.

FIRE ALARM.—About two o'clock

this morning an alarm of fire was sent

in from box 15, bringing the central

and eastern fire companies to the

shipping office at the entrance to the

King's Wharf. The fire was slight and

no damage was done.

Marooned on Navy Island.

Niagara Falls, Ont., Dec. 11.—After one of the most spectacular and hazardous rescues ever witnessed in this vicinity, George Durham and John Symmes, of this city, who left Chippewa on a duck-hunting expedition, and who were reported as having been carried over the Horse Shoe Falls, Monday night, were yesterday afternoon rescued from Navy Island, where they had been compelled to spend the night in the open. The rescue was effected by the crew of the steam tug Elk, of the International Paper Company.

Lashed by a 55-mile-an-hour gale, the river was the roughest in years. The stream is more than two miles wide at the point, and the waves were piling up five feet high when the steamer bearing the rescue party left the dock. The boat had a rough passage and narrowly escaped capsizing several times. Captain Swift, the only man on the river who could be induced to attempt the trip, guided the boat along the channel between Navy and Buckhorn Islands.

It was found impossible to effect a landing and the fireman and a deck hand volunteered to take a lifeboat and search the island. Suffering from cold and hunger the men were located and taken aboard the boat. The occupants of the lifeboat were drenched and exhausted.

According to the story of Durham and his companion they did not realize that there was any danger until they attempted to turn their boat yesterday. It would not respond, and after many narrow escapes from capsizing they reached Navy Island. In landing their boat's bottom was crushed, making it useless. They had neither food nor fire.

\$12,000 Damages

Awarded Montrealer injured in Street Car Collision.

Montreal, Dec. 13.—Because his foot was crushed when two street cars collided, Roch Normandin, sued the Montreal Tramways Co. He satisfied the court that his injuries were permanent, and that as a result he would be obliged to use the street cars every time he wished to travel, so the jury gave him \$12,000, the largest amount of damages awarded in a local court in many years.

two by Riband of Paris, Mary Garden

and Camia. Both these odors have

that exquisite distinctive something

which characterizes the creations of

high-class French Perfumes, a quality

which though imitation, is often

attempted, can never, it seems, be

equalled by any other makers. This

peculiar, lingering sweetness is

possessed to the full by both these

new importations, and both are likely
