When we come down to the 18th

entury, we find the Seal Fishery a zenith of its glory. In the year 829 558.942 seals were killed and prought in. In the year 1831, there were 686,836, the year 1840 there were 681,375 and the year 1858 there were 507,624. Of course it may be said, and rightly so, that these were exceptional years, but if we take wha may be looked upon as an average and with which I am fortunately pro vided with full particulars, it mus set us thinking that there must be something wrong, and that the seals are not so plentiful as in the days of our great sealing fleet. The following, I think, is a currect account of the number of seals landed and manufactured at the several ports of the Island for the Spring of 1839:-"At St. John's by 98 Outport vessels 150,-576; at St. John's by 76 St. John's vessels 91,749; at Hr. Grace 46,857; Carand would not pass in these days.

AT ITS ZENITH.

said to be at the zenith of its glory, as to the quality and durability of the years or more I have done my very best to preser the names and records of those heroes of our country who had done so much to bring her rescue from oblivion the heroism, enthough hidden for years, aye, for cen- terprise, adventures, escapes, etc., of gross, and she was used in the Newturies, the deeds of a noble people are our early fellow-countrymen, and it bound, sooner or later, and through is needless for me to repeat lists of a passage to England and back she unexpected sources, to come to the the vessels and masters which have made one of the quickest trips on resurface, when the torch light of his- sailed from St. John's, Harbor Grace, torical analysis will be flashed upon Carbonear, Brisus, Bay Roberts and them, and they will be assigned to that other ports; and I was well aware in place to which they legitimately belong so doing that if I were to put it off in the glorious sacrifices their owners for any length of time, no records Empire of which we are all so proud so in the future.
