The Canadian Packing Co. Store Next to Postoffice.

LATEST MARKETS

LOCAL MARKETS.

London, Friday, Dec. 23. There was very little business transacted at the market this forenoon. The rain last night placed the roads in bad shape for hauling heavy loads, consequently the number of loads of hay and oats which usually comprise the offerings this day of the week was not very large. About a dozen loads of hay were on the stand, and sales were brisk at higher prices, viz., \$3 and \$3.50 per ton. As there will be no opportunity for the farmers to bring in hay until next Tuesday, there should be a brisk demand for that day for a considerable number of loads. Several loads of straw sold today at \$5 and \$6 per ton. About half a dozen loads of oats were offered and sales were brisk at 95c per cwt. Owing to Monday being observed as Christmas Day, there will be no shipment of live hogs, which will be made on Tuesday morning.

STOCK MARKETS. Bank of Commerce building received the following by private wire from Bartlett, Frazer & Carrington today: New York, Dec. 23. — Noon. — As might have been expected, today's market was entirely of a holiday character. No pressure to sell was evidenced like the day before, and stocks strengthened early. There seemed to be a disposition among shorts to cover. Stocks are offered only in small volumes, making the covering pretty difficult. The powers of absorption in the market were shown by the easy way in which one pose of ten thousand Steel, common, and three thousand Steel, preferred, just after the opening. The movement in Rock Island was thought to be due to manipulation by insiders, and it is reported that this stock, which has been left alone for some time, is now to be made specially attractive to investors. The market will rally further during the afternoon. Sales to noon, 163,400.
