TALKED OF MISSIONS

Prominent Members of Methodist

Mission Board at First Church.

A platform missionary meeting was

held at the First Methodist Church last

night, and a large audience listened

to the eloquent addresses of some of

the leading men of Methodism in Can-

ada. Dr. Eccles was chairman and de-

livered an address on the great oppor-

tunities that lay open to the Christian

Church.

Rev. Dr. Henderson gave an abstract

of the spiritual report presented to the

general board. He reviewed the differ-

ent fields of missionary activity, and

showed that the cause of missions was

advancing very rapidly. From Japan,

China, the Indian, and the nations of

domestic missions came most encour-

aging reports of the work being done.

The work in Japan was especially en-

couraging.

Mr. N. W. Rowell, K. C., followed

with a very scholarly address on the

subject, "First Things First." He gave

a historical resume of the nations and

the cause of their fall. Those nations

that neglected their spiritual welfare

were doomed to decay. He sounded a

note of warning to Canada that in our

prosperity, in the floodtide of immigra-

tion, in the different moral standards

of the nations coming to our shores, we

should not become materialistic and

forget the duty we owed to God.

Rev. Dr. Sutcliffe followed with a

masterly address on "The Present Em-

ergency in Missions." He reviewed the

causes leading up to the present crisis,

and declared that the nations of the

centuries was given to Christianity.

The work to be done was great.

They must, he said, do more educa-

tional and hospital work than hereto-

fore. The eastern nations were hun-

gering for western ideas and ideals. It

was our duty to take it to them.

Missionary addresses were given in

all the Methodist churches yesterday

by members of the general mission

board.

STEAMSHIP ARRIVALS.

Oct. 7-8—At New York—Moltke, from

cerned in the attempted burglary. The way in which they worked was an indication that they were thoroughly familiar with the place. By means of a skeleton key the men opened a back door, and then opened other doors and removed bars to get into the shipping department adjoining the factory.

It was apparently the intention of the men to take the booty away in a rig, which they had removed the 26,000 cigars close to the door they opened. It is not known just what scared the thieves, but had they had an opportunity to get away with the stuff it is probable they would have done so. The 100,000 cigars, as there was a very large stock in the shipping department.

The police are at work on the case.

"HEALER" SHERMAN CAUSED RUN ON THE OLD, SHELF-WORN GOODS

Told People of Creditor to Wear
Broad-Toed Shoes and Copper
Insoles—Against Corsets.

A member of the Toronto Star staff paid a recent visit to Crediton, where "Healer" Sherman raked in the dollars at a rapid rate, and this is what he says of the long-haired chap.

Although Sherman the Healer left this village four days ago, the spell of his presence continues in an increased briskness of trade in certain articles of commerce which have long burdened the shelves of the general storekeeper.

For instance, broad-toed shoes, which were a drug on the market until a week ago, have since gone off like hot cakes. With Crediton in the mind that it is now a consignment of Dutch sabots, the Healer made his appearance. The Healer does not wrap himself in reserve like other mystics less confident of their divine commission. He does not claim to be an Elijah or a John the Baptist, or anybody's avatar for that matter, but he does claim that the spirit of the Lord works through him to make the sick better. He has his little mysteries, to
