The Yellow Fever.

GALVESTON, Sept. 1.—Two hundred and forty-one deaths from yellow fever reported last week; also one hundred at Corpus Christi. About half the citizens are sick or dead. Much distress prevails; help is needed.

Mexico.

NEW YORK, August 31.—A Mexican letter says that Prince Salm-Salm has been sentenced to seven years' imprisonment. Santa Anna is to be tried by court-martial.

Careful estimates show that the number of persons executed since 1865, by Maximilian's orders, was 9244. Vera Cruz dates of the 19th ult. say the country is rapidly becoming peaceful. The French and British Ministers have left Mexico with all the members of the Legations.

Santa Anna is imprisoned at Castle San Juan de Ulla. Nothing definite is known regarding his fate.

South America.

LONDON, August 30.—The mail steamer from Rio brings intelligence that the allied army crossed the Upper Parana river into Paraguay. A great battle was hourly expected.

Europe.

LONDON, Aug. 30.—The resolutions of Congress expressing sympathy for the Cretans, created a profound sensation in Constantinople.

It is said the Government of France has given to Prussia assurance of peace.

PARIS, Aug. 30.—Napoleon, in a brief speech at Lille, blamed the directors of the public press for spreading unfounded rumors, and creating general distrust. He himself would do all in his power to restore confidence.

It is reported the French foreign office will soon issue a note pacific in character.

STUTTGART, Aug. 30.—The Gazette of this city denies that the question of a South German bond was discussed or even broached in the recent conference at Salzburg.

COPENHAGEN, September 1.—The journals of Denmark are discussing the reported proposition of the United States to buy the Island of St. Thomas, and generally favor the project and urge the Government to enter into negotiations for the sale of the Island.

PARIS, Sept. 1.—The Minister of Foreign Affairs has addressed a circular dispatch to diplomatic representatives of France at European Courts, in regard to existing relations of the Government with continental Powers; alluding to recent events, particularly the conference at Salzburg, he declares this meeting should be regarded as a fresh pledge for the maintenance of the peace in Europe.

BERLIN, Sept. 1.—The election in this city for members of the North German Parliament resulted in the success of the candidates of the radical party.

NEW YORK, Sept. 1.—European dates to 20th received. The harvest accounts are satisfactory.

The Times Paris correspondent says: It is believed that Moustier's term of office is drawing to a close. Should Drouyn de L'Huis replace him it will be a most warlike indication. There is no doubt warlike preparations are actually being made in France; work is being hurried with great speed; but a sufficient number of Chassepot rifles to equip the army cannot be ready before spring.

The meeting of Napoleon and the King of Prussia at Coblenz is denied. Accounts from Sicily are deplorable, cholera rages in Palermo with violence.

Further liberal concessions in Austria to Protestants are expected.

The insurrectionary Government in Candia has notified Foreign Consuls of their intention to issue letters of marque for the equipment of privateers.

Napoleon has addressed a letter to the Minister of Interior urging internal improvements, and an increase of means of communication and transportation in the Empire.

Paris papers regard the situation of affairs in Spain as extremely serious.

It is stated that the Bavarian Council of Ministers is emphatically opposed to the King of Bavaria's visit to Salzburg.

Eastern States.

AUGUSTA, Aug. 27.—It is said Gen. Pope has ordered the closing of the Georgia University, in consequence of a speech by a student at commencement. The building was to be converted into a barracks, but Gen. Pope allowed the exercises to continue on condition that the newspapers shall not allude to the speech.

It is also stated that Pope has ordered a legislative appropriation of \$8,000 to the University to be withheld. The freedmen in the first and fourth districts have issued addresses on Congressional candidates, claiming that the

right to vote carries with it the right to hold office, and they, having a majority, will not vote for whites.

So much of the jury order as interferes with the present term of the courts, has been revoked.

The rains have seriously damaged the cotton crop in middle and southern Georgia and in Florida.

RICHMOND, Aug. 28.—Official investigation develops the existence of an armed secret negro organization here.

WASHINGTON, Aug. 28.—It is believed by prominent gentlemen that the differences between Grant and the President in reference to the removal of Sheridan and Sickles are reconcilable. The order issued by the President relieving these officers has not been executed. It is said that Grant, in a letter to the President, declines to direct the order to be executed, stating his refusal in strong terms, and virtually denying the right of the President to interfere in the military districts created by Congress, and asserting that the entire control of these districts by virtue of the supplemental reconstruction act is vested in the General of the army alone. He says that he is not at liberty and will not transfer his authority to another. The letter has not been made public, but the above statement is believed to be reliable, and derived from usually well informed sources.

It is generally expected that Johnson will relieve Grant as Secretary of War and appoint some willing tool, but Grant claims that under the last reconstruction bill all orders must pass through the army headquarters. All orders of the President or Secretary relative to military affairs must be issued through the General of the army, and orders issued contrary to this section are null and void, and the officer issuing them guilty of a misdemeanor.

The President has offered to appoint John M. Langdon, a colored orator of Ohio, Commissioner of the Freedmen's Bureau, or any colored person whom the Freedmen agree on. Langdon has urged the retention to Gen. Howard, giving it as his opinion that the real interests of the colored people require it. Johnson replied that he considered Howard an ambitious, corrupt and hypocritical man, and that he did not have the true interests of the freedman at heart. He intended to appoint somebody who was true a friend to the black man, and said he would wait a week for Langdon to accept, and in case the latter will not, it is believed that the President designs putting the Bureau into irrevocable disorder by the appointment of a civilian Commissioner, rendering necessary the resignation of many officers who could not do duty under civilians, or who would refuse to serve under a colored man.

Seward says he is not negotiating for British Columbia!

CHICAGO, Sept. 4.—Seward has officially contradicted the Tribune's story that he is trying to settle the Alabama claims by negotiating for British Columbia.

The California Election.

SAN FRANCISCO, Sept. 4.—About 14,000 votes cast up to four o'clock. Haight will carry the city. McCarthy has been badly scratched. M. Agre reports from the interior give assurance of Gorham's success in the State at large.

Eastern States.

NEW YORK, Sept. 2.—The World's special says that notwithstanding Grant's habitual reticence an officer who has daily intercourse with him says he expresses himself privately against unqualified negro suffrage. Leading radicals corroborate this fact, and declare they won't take him for President unless he comes out square on this question.

Europe.

LONDON, Sept. 2.—The Foreign Office has issued a blue book containing documents filed in the Alabama case, and correspondence between the two Governments for settlement of claims. Later despatches show progress made in controversy and states condition on which England is willing to attempt formal settlement. Lord Stanley informs Minister Bruce that he is willing to submit the American claims to compromise of arbitration; the claims of British subjects for losses during the late war, to be likewise submitted to some commission.

The Porte has addressed a circular note of its Ministers at Foreign Courts, announcing that the Candian war will be brought to a close; a general amnesty is granted to insurgents, and reforms promised in the laws and their administration.

NEW YORK, Sept. 2.—The steamers City of Boston and Manhattan have arrived. The harvest is nearly finished in France. The quality of wheat is good; quantity hardly enough for the year's consumption.

The Austrian Ambassador at Rome has been instructed to energetically demand certain concessions in reference to the concordat.

The Viceroy has gone to Balmoral.

Two hundred Liberals have been expelled from Barcelona.

It is reported from Berlin that the Government is more determined to hold act against demands of Denmark in respect to North Schleswig,

Garibaldi's force estimated at five thousand men.

The British reform league resolved to maintain their organization for the purpose of promoting the election to the next parliament of members pledged in advance to liberal principles. The leading feature of the new programme will be agitation to obtain for voters the protection of the ballot box.

California.

SAN FRANCISCO, Sept. 3.—Last evening the ship Elizabeth, bound for Puget Sound, ran aground near Black Point.
