

The Game With Everett

Visiting Baseball Team Win By a Score of Ten to Five.

Shock's Pitching a Revelation But Victoria Makes a Good Fight.

Everett's By ten to five. Shock, the Everett pitcher was a revelation of speed, and, judging from the happy grin that never left his face, he seemed to take more genuine sport out of the game than anyone on the field. He fairly revelled in the opportunity of displaying his giant strength, and the smile that made his eyes sparkle with constant merriment, was born of the confidence he felt in the superiority of his colossal propelling powers. In Shock's eyes the game was a snap, for besides his strong pitching arm, he had a team of malleable fielders and sluggers to help him along to victory. The local aggregation was clearly outclassed, but when everything is said, there is no reason to abate one jot of pride in our local players. They are all amateurs, who play gill-oblige ball, and if Victoria has been obliged to dip its colors to Thoron's invincible aggregation, why, there are others, and there is the satisfaction of having made a better showing than Vancouver. The visitors of yesterday shut out the Spokane professionals, and the work of the home club can be better appreciated when it is taken into consideration that five tallies crossed the plate of which two were earned. Everett seemed to take kindly to Holmes' balls from the jump, and the roots expressed their wonted shouts of jubilation when their sad gaze rested on Roarkie and Harrison maddly scrambling across their two-base ways.

Shock's name, the big, husky Everett, didn't have all the people know the old man's flower gardens. It is a squandered enclosure, and from it until late years nothing could be seen but the chimneys and roofs of the most of the place. The old soldiers, however, seem almost as disordered as the place. The old soldiers, however, seem almost as disordered as the place. The old soldiers, however, seem almost as disordered as the place.

Some of the spectators were disposed to feel gloom over Victoria's defeat, but it should be remembered that Everett's team numbers ex-professionals, and that they have this season been playing three games to every one figured in by Victoria. They have met and vanquished the best teams of the North West, and there is no reason to be so downcast as such an aggregation by a bare margin of five runs.

The attendance yesterday was the largest of the season, notwithstanding that it was a week after the opening of the popular game of baseball is growing, and this keen interest will speedily result in giving Victoria one of the best teams on the coast. There are many players, and some of them who will soon be coming to the front.

SPORTING NOTES. On Sunday afternoon a match was shot by the Capital Gun Club at their grounds at the head of the Arm, for the prize presented by the Dominion Cartridge Co.

STRIKES ENDING. Mechanists Going Back to Work—Stationary Firemen Trouble Ended.

Wikebaers, Pa., July 22.—The striking machinists employed at the Dickson works, this city, and the shops of the Lehigh Valley railroad, at Coxtown, Pa., have returned to work.

FRONTIER TROUBLES.

Belgrade, July 20.—Official despatches from the frontier report serious conflicts between Servians and Albanians. Servians, these despatches say, is desolated, the inhabitants having taken refuge in the hills. Albanians, under the leadership of Fetih Bey, are terrorizing and depopulating Mitrovitza and vicinity.

TO KILL THE KING.

Plot Discovered to Murder Victor Emmanuel III.

London, July 20.—A special despatch from Rome says a man named Nardone Motti has been arrested on a charge of being concerned in an anarchist plot to kill King Victor Emmanuel III. He was betrayed by a letter to his wife, in which he was breaking off their engagement of marriage on the score that he had received an order from the King from a society of which he was a member.

THE EVENING OF THEIR DAYS

Pathetic Record of the Old Pensioners' Gardens at Chelsea.

From London Daily Magazine. When, at the end of the Sirdar's long journey, British soldiers and British garrisons stood once more in Khartoum, one of the first things that W. G. Steevens drew a picture of the Sirdar's palace where Gordon lived and died, and which, even in its desolation, showed traces of the Englishman's love for his garden.

That love survives in the quaintest, most pathetic way in the old men's gardens at Chelsea Hospital. Nearly everybody is familiar with the aspect of the hospital, and the old soldiers in their scarlet coats sit with their backs to the walls and watch the quadrangle creep over the lawns of the old men's flower gardens.

It is a squandered enclosure, and from it until late years nothing could be seen but the chimneys and roofs of the most of the place. The old soldiers, however, seem almost as disordered as the place. The old soldiers, however, seem almost as disordered as the place.

The Rate of Taxation

By-Law Passed Fixing Total Levy for 1901 at 21 Mills.

Spring Ridge Will be Rid of the Obnoxious Alexander Dairy.

The regular meeting of the city council last night was attended by His Worship the Mayor and all the aldermen. The principal items of business transacted were the passing of the Taxation by-law, fixing the total rate for 1901 at 21 mills, just one mill higher than 1900, and the final disposition of the Spring Ridge dairy question, which has long vexed the residents of the Ridge. The Dairy by-law is to be strictly enforced, and every milkman will have to take out a license. The everlastingly Craigflower road question again occupied the attention, and was laid over for a week.

COMMUNICATIONS.

The following communications were received from the department of public works, Ottawa, July 16th, 1901.

To the Mayor.—Sir, With reference to your telegram of the 14th inst., regarding the proposed extension of the water supply to the east of the city, I have the honor to inform you that the Department has obtained a report from the resident engineer at Victoria upon the matter, in which he has recommended that the extension be made under the conditions under which the permission for the extension can be granted by the governing authority.

The granting of foreshore rights, however, is a matter which is within the province of the Department of Marine and Public Works, and the report of your chief engineer was sent to that department for their examination and for any action which may be deemed advisable to be taken in the premises. Upon the receipt of your telegram I have placed the matter under the consideration of the Department, with a view of presenting a matter to a speedy conclusion.

The Mayor.—Sir, With reference to your telegram of the 14th inst., regarding the proposed extension of the water supply to the east of the city, I have the honor to inform you that the Department has obtained a report from the resident engineer at Victoria upon the matter, in which he has recommended that the extension be made under the conditions under which the permission for the extension can be granted by the governing authority.

required, your committee having instructed as possible in the Septic Tank system, which has been successfully in operation since the opening of the city. The committee, accompanied by the mayor and Mr. Topp, visited the city of Vancouver, B.C., to examine the system in operation, and had samples of water taken from the tanks, which proved to be clear water, without any perceptible smell and free from all elements of sewerage. We are of opinion that the septic tank system would suit the requirements of this city, and that the system is outside of the present sewerage system, and would not require any additional work to be done.

The report was adopted. The Mayor asked the meaning of the statement in the report that the main sewer was overtaxed at certain seasons. Ald. Brydon explained that the main sewer was overtaxed at certain seasons, and that the water was sometimes overtaxed by surface water, which caused an overflow.

CURRENT ACCOUNTS. The finance committee recommended payment of several accounts, also an appropriation of \$10,000 for the purchase of James Bay flats, which were confirmed.

THE TAXATION BY-LAW. Council went into committee on the taxation by-law, 1901. The general rate of taxation is 2 1/2 mills, and the rate for schools is 2 1/2 mills. The rate for the city is 2 1/2 mills, and the rate for the school is 2 1/2 mills.

THE ALEXANDER OASE. The Mayor's application for a license to allow the use of the Alexander Oase in the city limits was then considered. It was not right that 15 cows should be kept in the city, and it was not a question of whether the cows should be kept or not, but one of the spirit of the by-law was to be preserved.

THE WATER COMMISSIONER. The water commissioner recommended that the water supply be extended to the east of the city. The water commissioner recommended that the water supply be extended to the east of the city.

THE MUNICIPAL CONVENTION. The following letter was received from the Mayor of Toronto: Dear Sir.—Pursuant to letters from and conferences with several mayors of other cities, the municipal convention of the city of Toronto is hereby called for the purpose of discussing the proposed extension of the water supply to the east of the city.

AN OUTSIDE OPINION. From Portland Oregon. Lord Rosebery's manifesto on the divisions of the Liberal party takes a gloomy view of its future. No wonder he despairs of his party, who are in a state of confusion, and who are in a state of confusion.

REPORT ON SEWERS. The special committee on sewers presented a report to His Worship the Mayor and Board of Aldermen. The report was considered and passed.

REPORT ON SEWERS. The special committee on sewers presented a report to His Worship the Mayor and Board of Aldermen. The report was considered and passed.

ROBERTS' OBJECTS.

Robert's Ambition Captured Last Night. Paris, July 20.—An official communication received from the Emperor's secretaries states that the publication of the correspondence of the Emperor, Mr. Robert's former president of the Orange Free State, was captured near Lindley on July 11th. The communication states that Mr. Robert's correspondence was captured near Lindley on July 11th.

Count Von Larisch Here on His Way to San Francisco. Was Exiled From Germany For Engaging in a Duel.

Among the names on the register of the Dominion hotel last evening was that of Count Edmund von Larisch. This interesting German nobleman has been traveling by easy stages across the Dominion, stopping here and there to enjoy the beauties of the country and to rest, for he is a man who is past the three score period, and although a count, his path through life has not been strewn with roses, in fact, it has been a path of sorrow.
