What the Trades and Labor Council Say of Warden Massie.

The Legislative Committee's report at the Trades and Labor Council last night dealt with Secretary O'Donoghue's bugbear, the importation of criminal and pauper immigrants. Warden Massie's utterances at the recent meeting of the Charity Commissioners to the effect that Dr. Barnardo and Miss McPherson's homes were doing a good work came in for censure. That gentleman's remarks endorsing these institution. might be placed on the same plane as Sir Charles Tupper's on the same questions Both were drawing large salaries for their good opinions, and were accordingly prejudiced. There was no exaggeration, however, in the High Commissioner's statement as to the large exodus of working people from Canada. The report approved of Hon. Colonel Baker's bill in the British Columbia Legislature to create a Board of Conciliation and Arbitration in trade disputes.

A communcation received by the secretary from Hon. Andrew Garran of New South Wales enclosed the report for '91 of the Royal Commission on Strikes in that land. According to the report the Legislature had passed an act in 1892 in accordance with the recommendations of the commission that a Board of Conciliators and Arbitrators be appointed. Since the act had been in force 16 conciliators had been appointed, eight by the employers and eight by the trades unions, of which board Hon. Andrew Garran was president. On account of the novelty of the institution Mr. Garran said that the two industrial classes showed an unwillingness to trust their disputes to it.

The report was adopted as read. It was decided that a deputation from the Toronto Advancement Association be heard at the next meeting of the council.

UNITY IN FACT AS IN NAME.

Canadian Oddfellows Discuss the Question of Amalgamation.

As a result of the conference yesterday afternoon in the Walker House regarding the amalgamation of the various branches of the order of Oddfellows in Ontario and Quebec that happy event is a possibility of the near future. The matters of difference between Manchester Unity and the Canadian Order of Oddfellows are that the former has only sick and funeral benefits, while the latter has in addition an insurance scheme in which Marchester Unity is desirous to share.

At the conference yesterday these were present: Messrs. C. J. Williams, district secretary; John Taylor, D.P.G.M., and J. E. Burritt, P.G.M. of Montreal, representing the Manchester Unity Grand Lodge of the Province of Quebec; Owen Meade, P.C.S.; W. C. Schunk, D.G.M., and John Willmott, P.G.M., of Toronto, representing the Toronto District Lodge of Manchester Unity; Harry Collins, chairman; R. Fleming, grand secretary; Henry Richards, P.G.M., George Boxall, grand treasurer of Toronto, and A. S. Warner, D.G.M. of Inwood, Ont., representing the Canadian Order of Oddfellows.

After considerable debate the Montreal delegation fell into line, and will report endorsing the amalgamation to the meeting of their district in Montreal.

The Toronto district of the Canadian order are still at variance with reference to some minor matters in their special constitution. A committee consisting of members from the other orders and the Executive Committee of the Canadian order was appointed to revise the bylaws with special reference to the present difficulty.

This committee will report at a meeting to-day at the Walker House, when it is thought an amicable agreement will be reached.

A MEAN SCOUNDREL.

Swindling the Children's Aid Society By Fraudulently Soliciting Subscriptions

The Board of Management of the Toronto Children's Aid Society have just learned that a man carrying a copy of their annual report has been imposing upon the public under the pretence of collecting for the society. To serve his purpose more fully he is said to have falsely entered, as subscribers, the names of well-known friends of unfortunate children in the book he uses, with fictitious amounts opposite them. The society have no collectors.

The Electric Spark.

The regular meeting of the Mathematical and Physical Society of Toronto University was held in room 16, University College, on Friday, March 3. An interesting paper dealing with the various modifications of the electric spark was read by Mr. J. C. McLennan, B.A., assistant demonstrator in physics. The actions of bodies positively and negatively charged were explained and illustrated by means of pith balls and the gold-leaf electroscope; the modifications of the discharge as given by the Holtz machine were shown. Some very beautiful forms of the paths taken by the discharge in its passage from one electrode to another were exhibited by the aid of tubes from which the air had been,in some cases, partially and, in other cases, almost completely exhausted. The next meeting will be held on March 17, when an interesting program will be presented.

The Davies Estates.

Mr. James Davies, who died last June, was worth $45,484.88, divided as follows: $41,255.36 interest in the business of William Davies & Co., $3000 in money secured by life insurance, $1062 in stocks, $177.52 in produce. After donating $500 to the Baptist Foreign Mission Board, $500 to the Ontario Mission Board and $500 to a Quebec Baptist mission, Mr. Davies willed the income of the rest of his estate to his mother, and that of $25,000 to his brother Arthur and, after them, to his father, brothers and sisters equally. William Davies, the younger, a brother of the preceding, who died last September, left an estate worth $61,679.16. The estate is given to the widow and children.

Important to Stock Brokers.

That favorite security, Dominion Bank stock, reached its highest figure, 286, yesterday. A Worldling saw Mr. Bethune and asked him if there was any truth in what some of the brokers were saying regarding the bank's intention to pay a 15 per cent. dividend. "I don't know anything about it. The messenger might tell you. Or," said he, "perhaps the elevator boy knows."

Markham Conservatives.

The Markham Township Liberal-Conservative Association has elected these officers for 1893: Honorary president, Hon. Mr. Foster; president, William Smith; vice-president, William Padget, jr.; secretary-treasurer, George H. Neville; chairmen of sub-divisions, Stewart Wilcox 1, Frank Marsh 2, John Padget 3, Thomas Frisby 4, Adam Hood 5, Alexander Pingle 6, George Angus 7, John A. Mitchell 8, William Armstrong 9, John Turner 10.

Help your children to grow strong and robust by counteracting anything that causes ill-health. One great cause of disease in children is worms. Remove them with Mother Graves' Worm Exterminator. It never fails.

Alleged Sheeplifters Committed.

James Spring, Kenyon Spring and George Wilson were committed for trial by Justice Wingfield yesterday on a charge of sheep-stealing. John Stewart, a farmer of Whitchurch, is the complainant, having lost three ewes and four ewe lambs a week ago Friday night.

CHARLES GURNEY DEAD.

A Founder of the Great Gurney Stove Business Passes Away.

HAMILTON, March 3.—Charles Gurney, one of the founders of the stove manufacturing concern now known as the E. & C. Gurney Co., died at his residence in this city this afternoon after a long illness.

Mr. Gurney has been confined to his house since October last, suffering from organic troubles, and his recovery was not looked for.

In December, 1842, he and his brother Edward came to this city as young men, and in the following year—just half a century ago—they went into partnership in the stove business, the firm being known as E. & C. Gurney.

Charles Gurney was highly esteemed for personal integrity and for those qualities which go to make a man. He took a deep interest in the welfare of the city. Of late years he has lived quietly. He had reached the age of 74. A widow and two sons, Messrs. Charles and George Gurney of this city, survive him.

Naval Life in China and Japan.

Great crowds of people are viewing with interest the Chinese and Japanese junks and sampans on exhibition in the window of the C.P.R. ticket office, corner Yonge and King-streets. The Chinese junk is particularly interesting. It is a perfect model of the regular trading and war vessels of the Chinese merchant trader and his historic foe the pirate.

These ships are usually of about 400 tons capacity, and with them the entire trade of China is done. Forty of these same ships were used by the pirates who took the "P. & O." steamer off Hong Kong, two years ago, and after killing the captain ran the steamer near an island. They then unloaded her into the junks and sailed away with about $65,000 worth of goods and over $200,000 worth of gold. Seventeen pirates were captured a month later and executed at Kowloon. The sampan is the exact model of the Japanese row boat. Upon the arrival of the C.P.R. steamers at Yokohama thousands of these picturesque craft, manned by women and boys, crowd about the ship and await the pleasure of passengers whom they hope will employ them to row them ashore. There are over 30,000 sampans at Yokohama, and as many more at Kobe.

Both these ships are built upon the models that were used by the peoples of the Orient 3000 years ago, and are of great interest to students of the East. It is a remarkable fact that until the C.P.R. placed their magnificent line of steamships on the Pacific connecting Canada with the Orient but little was known in this country or England about the habits, customs or peculiarities of the natives of the East. The C.P.R. have made every endeavor, not only to advertise Canada in foreign countries, but have also afforded striking opportunities to Europeans to gather valuable information regarding the people, who boast a civilization long antedating the Christian religion. This season, it is said, there will be a great many Japanese and Chinese who will visit Canada. They have already engaged passage on the Empresses. They will be as much astonished at the customs and manners of this country as our people are of their lands.

No one should miss seeing the junk and sampan on exhibition in the window of the C.P.R. offices, 1 King-street east.

Bishop O'Mahoney's Estate.

Right Rev. Bishop O'Mahoney, who died last September, left an estate worth $10,550, of which $10,000 is in money secured by mortgage. He willed $2000 to the House of Providence, $1000 to the Sunnyside Orphanage, $1000 to the Sisters of the Good Shepherd, Parkdale, $1000 to the Sisters of the Precious Blood, $1000 to St. Michael's Hospital, $500 each to the St. Vincent de Paul Society, to the Fund for Sick Priests, to the Macroom Convent, Ireland, to the Convent of Mercy, Bridgegate, England. His library was given to St. Michael's College.

Encouraging Manufactories.

Ald. Bell's committee for the encouragement of manufactories in Toronto met yesterday and considered the minutes of the Advancement Association, which were submitted. Ex-Mayor Howland and Secretary Blake of the association, who were present, addressed the committee.

The Stratton Carriage Company of Buffalo will establish a branch factory in Toronto if sufficient encouragement is offered.

The 91 Assembly.

Next Friday evening, the 10th of March, at Victoria Hall, Queen-street east, will be the scene of great merriment, it being the annual ball of No. 91 Assembly, held under the auspices of Toronto Typographical Union. The committee who have charge of the arrangements are all energetic and industriously inclined young men, and they are sparing no efforts to make the affair a decided success.

Struck from the Rolls.

Mr. Justice MacMahon yesterday made an order to strike John Butterfield, solicitor, L'Orignal, off the rolls for non-compliance with an order to pay over clients' moneys. The order is not to issue for two weeks.

"August Flower"

Perhaps you do not believe these statements concerning Green's August Flower. Well, we can't make you. We can't force conviction into your head or medicine into your throat. We don't want to. The money is yours, and the misery is yours; and until you are willing to believe, and spend the one for the relief of the other, they will stay so. John H. Foster, 1122 Brown Street, Philadelphia, says: "My wife is a little Scotch woman, thirty years of age and of a naturally delicate disposition. For five or six years past she has been suffering from Dyspepsia. She became so bad at last that she could not sit down to a meal but she had to vomit it as soon as she had eaten it. Two bottles of your August Flower have cured her, after many doctors failed. She can now eat anything, and enjoy it; and as for Dyspepsia, she does not know that she ever had it."

GRATEFUL—COMFORTING
EPPS'S COCOA
BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*
