COUNTY COMMISSIONERS.

or Let for Silverthorne Bridge-Other Business Disposed Of. Other Business Disposed Of.

A joint meeting of the Commissioners of York and Peel was held in the County Clerk's office on Saturday afternoon. There were present: Warden Stephenson and Messrs. Pegg and Scott of York, and Warden Hanna and R. B. Henry of Peel.

A claim was presented by S. Wise for damages sustained while teaming a load of furniture last fall to Toronto for Mr. James Boomer. The damage, Wise claims, was sustained by the carelessness of the municipalities while the new bridge was being built on the Etoblocké. He also says that there was no danger signal posted in the road. The load of furniture got upset into the water, and 'the whiffletrees, blankets and whip were lost in the stream. Wise put in a bill of \$32.75 as personal loss, and one of \$100 for damages to the furniture. The matter was not disposed of, as the commissioners wish to get further evidence from the men who were employed on the bridge at the time of the accollent.

A representative of the G. & J. Brown Bridge Co. Believille, the contractors for the Lake Shore bridge on the Etoblocke, presented the company's bill for same, and wished payment in full.

Mr. Henry wished to know from the Engineer McDougall said he had not yet presented a report accepting the bridge, for the reason that the floor beams are not up to the requirements, being only 10½ instead of 22 inches. Otherwise the bridge is a first-leas one, and complies with the agreement. The foreman of the bridge-replied that the beams were not made smaller in order to make money, as the difference would be very ittle. It was a mistake of the German lirm.

Mr. Scott brought in a motion to pay the till amount of \$1608 less \$100 on account of the payment of \$1608 less \$100 on account of the payment of \$1608 less \$100 on account of the payment of \$1608 less \$100 on account of the payment of \$1608 less \$100 on account of the payment of \$1608 less \$100 on account of the payment of \$1608 less \$100 on account of the payment of \$1608 less \$100 on account of the payment of \$1608 less \$100

e difference in the beams, but he did not a seconder. The Engineer said that the company, alough not bound to do so by the agreent, had gone to a good deal of pense in erecting a temporary bridge. The st one was washed away, and the company nilt a second one and had not asked anyting extra for this work.

A motion was finally passed giving the ridge company \$300 on account, the relative company is responsible any damages from accidents claimed to sustained by different parties.

Tenders were then opened for the proposed we bridge at Silverthorne (Somerville) stween York and Peel. Here are the ten—Weddell Bridge and Eagine Works, renton, \$1242.50; G. & J. Brown Company, silderille, \$3300; Cantral Bridge and Engine

Trenton, \$1242.50; G. & J. Brown Company, Belleville, \$1300; Central Bridge and Engine Company, Peterboro, \$1001.44; King Bridge Company, Peterboro, \$1001.44; King Bridge Company, Peterboro, \$1001.44; King Bridge Company, Montreal, \$1224; Dominion Bridge Company, Montreal, \$125; Hamilton Bridge Company, \$1100.

The Peterboro company's figures were the lowest, but they wanted to submit their own specifications, consequently the commissioners did not entertain the tender. The next lowest was the Hamilton company, but as the Dominion company, Montreal, was only \$25 higher, from the plans sent the engineer recommended the Montreal bridge, as there is an overhead truss, which prevents swaying and makes a stronger bridge.

The Dominion Bridge Company, Montreal, was awarded the contract for \$1125.

The engineer was instructed to prepare an agreement and to submit same for the commissioners' approval ataheir next meeting.

THE ESSEX COUNTY MURDER. The Inquest On the Dead Constable-The

COMBER, Ont., May 5.—Yesterday at COMBER, Ont., May 5.—Yesterday at 1 o'clock the inquest on the remains of Lindsay, the murdered constable, was held by Coroners Abott and Ferguson. At the post-mortem examination it was found that the ball had pierced the body in three places and lodged in the hip bone. Owing to the prisoner being unable to attend the inquest was adjourned till Saturday, May 12. Tuskey, who shot himself, is resting easy,

considerable strength left, and if in-nmation does not set in there is a possibility of his recovery. So rapidly does lung irritation spread an eepen that often in a few weeks a simple coug

Schwartz. Dupee & Co. wired Dixon: Whea easier; the weather being favorable, the trade very dull. The demand next to nothing an outside markets dragging. New York reporter only five loads taken. There was no mention of cash business here. Export ctearances made total of about 300,000 bushels. The visible supply prospect was not quite as bullish as of Friday because of some disappointment at Min neapolis. It is expected that the decrease of Monday will be about what it was last Monday. 2,000,000 bushels. That was about what it was last stream of the same week last year—2,770,000. The mark very soon after the opening got under the put and closed at about put price. There was n special feature about to-day's business. The crop prospects are good. Light corn receipted did not prevent a fractional decline. Sample were 14 cent higher. The stock here on Monday will show a decrease of 770,000 bushels. Cable were unchanged. Seaboard clearances were unchanged. Seaboard clearances were unchanged. Seaboard clearances were unchanged at seady. Sold off in sympat.

JAMES MASON. ION. FRANK SMITH.

Henry A. King & Co. special wire from Logar & Co., Chicago: The wheat market has been duil throughout the entire session. Realizing caused a break to 60c. Exports clearances were good, but less; than expected. Rain in the southwest was considered favorable for the winter crop. Reports from the Northwest are too much rain. The weather for the next few weeks will be an important factor in establishing values. At present there is not much in sight to cause any great advance, but the price is so low and the spring crop not yet sown should be in favor of buying it. We have not heard of purchases for shipment. Cables from England steady, from Paris wheat and flour weak.

Provisions—The market is about as it has been for the past month or two. Light speculative trade with a good consumptive demand; 25,000 hogs Monday and 120,000 for next week.

R. Cochran received the following—from Ken-

hogs Monday and 120,000 for next week.

R. Cochran received the following—from Kennett, Hopkins & Co.:

Ohicaco, May 5.—Shorts in wheat had covered so freely yesterday that the market eased off on disappointing cables and lighter exports. The morning papers contained some flattering reports from he Northwest respecting seeding operations, and this probably induced some selling. A large decrease in the visible—perhaps 2,50,000—is expected Monday. The situation still favors the long side, and we advise buying on all good reactions.

Corn and Oats—Market shows the effect of realizing sales. The bull leaders are milking the market, taking profits on the rallies and buying on weak spots, but are apparently confident that prices will go considerably higher. The squeeze in May oats is still troubling shorts and affecting the far options to some extent.

Provisions—Fackers sold moderately at the opening and prices eased off moderately at the opening was dull and featureless.

Canadian Confidential Agency JAS. F. MITCHELL, Gen. Man. Special Reports. Business troubles settled.

Henry A. King & Co. 's special wire from Hubbard, Price & Co. New York: London was inclined to buy a few stocks to-day, a fact that encouraged some operations for builish account. The industrial shares are less active than on previous days, but there is no doubt that the pools in the various specialties endeavored to encourage the short interest, and at the same time they were consident buyers—whenever they had an opportunity to acquire large holdings. The coming week promises to be a very interesting one in Wall-street, and it will be strange indeed if stocks like Reading, Union Pacific are not taken in hand. It is certain that there is very little money, if any, in selling the properties short, and the chances all favor the belief that they will reach a higher level of prices before they react materially from these figures. Conceding all that is claimed and that the "N.E." is bankrupted and the fiproperty-valueless, the terminal facilities over-capitalized and the outlook for "N.E." states as unpromising as prospects could well be, yet there is no reason for selling "N.E." short at these prices. Earnings of Louisville and Nashville for the fourth week of April decreased \$106,002.
