AYERS PILLS. which load the hearses all over the land. Hence a reliable family physic is of the first importance te the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professions, and Patients, has shown results surgassing anything highertosknown of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Did space permit, we could give many hundred such names. If the Miller Barts whose the Fillis-have-been used, but evidence even more convincing that the certificates of these eminent public men is shown in their effects upon trial.

These Fills, the result of long investigation and stray, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process, in a state of purity and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pillis both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities; by this, cach individual scitue only that is desired for the curative effect is present. All the inert and obsorsious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effect should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending. Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formula by which both, my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be anyone who has not received them, they will be promptly forwarded by mail to bis address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists is their mystery. I have no mysteries.

Their life consists in their mystery. I have no nexteries.

The composition of my preparations is laid open to all men, and all who ere competent to judge on the subject, freely acknowledge their convictions of their intrinsic merits. Sir.—I desire to add my testimony to the value of your Phis, in cares of dropsy.

For nine months I suffered the greatest torture with this distressing complaint; was tapped three times, and finally given up by the doctors; having become apparance as a skeleton, and with no more strength in me than a child just born. It was then that I thought of trying your Pills, and immediately sent for a quantity, and commenced susing them. The result I can scarcely credit even now, although true it After using them for four weeks, I felt much better and by persevering with them, at the expiration of two months, I was completely cured. I have since enjoyed the best of health.
