WEDNESDAY, JANUARY 18, 1893.

The Extra Session. During the past week the unexpected an cement was made that the local legislature had been summoned to meet on the matter of great public interest which the government desires to lay tefore parliament. This is at least six weeks earlier than the chant's Bank of Halfax, last Thursday, from the mines of the Molega Mining Co.

take place for several weeks. Although the object of the present meeting will not be definitely known until the opening of the legislature to-morrow, yet sufficient information has already been given to the press to enable the public to form a delphia. to the press to enable the public to form a pretty accurate conjecture as to what it is. From what has thus far been made public, it would appear that there is on foot a scheme to consolidate all the coal mines in the island of Cape Breton under one managethem to a syndicate of American capitalists. It is, of course, well known that all the coal | rested. mines in Nova Scotia are the property of the province. These mines are merely rented or leased to the companies operating them,

Ametically in the companies of the province of the companies of Amsterdam. She was owned by Captain George A. Lovitt of Yarmouth; launched in amount of coal actually sold. It is from hull and freight. this source that the province derives a por-—As ad accident occurred at Freeport tion of its annual revenue, amounting in round numbers to about \$150,000 per year. It will therefore be seen that anything which affects the interests of our coal mines is of vital importance to the people of this produced. The second of the sec but also from the additional labor and capi- crop are estimated to be below the average. tal which will be employed. On the other hand, if the American capitalists who, rumor all lines of Winter Goods, at J. W. Beckhand, it the American capitalists who, rumor says, are about to acquire the mines, should deem it to their interests to limit the output or even close them, then the result would be most disastrous in every way to the people of this province. Both these results are

in the United States will lead to the remova of the duty from coal and raw ores over there mines in order to supply this demand. It is a fact, that in consequence of the duty on coal and crude ores, many of the iron industrial of the United States. Very modest indeed.—Canadian. tries of Massachusetts have either closed down entirely or removed south to the iron and coal districts of Pennsylvania and Tennesee, a fact which entered largely into the democratic canvass in New England at the late election. Governor Russel, in his speeches, complained bitterly of these inspectors, complained bitterly of these inspectors, which was found aroused the other occupants, who extinguished the flames. dustries being "sacrificed to the greed of extinguished the flames.

also interested in the coal mines of Pennsylvania, and that these men are seeking to gain control of our mines in order to be in a position to prevent competition from these provinces, should the duty be removed by the democratic congress. The mines of Pennsylvania are controlled by a ring which, by combining, has forced the price of coal in the United States to an exorbitant figure. also interested in the coal mines of Pennsylin the United States to an exorbitant figure.

Our mines were once owned by a foreign monopoly, say the opponents of the government, and a vast amount of trouble and expense was necessary to get possession of them for the province. Why hand them over again to a second monopoly worse than the first. If the duty is removed in the American market and a largely increased

Until the precise terms of the new deal Until the precise terms of the new deal are made known, and it is seen what safe-guards are thrown around the transfer, any criticism of it would be but mere matters of stantial ink, the other with ink that fades conjecture. We shall await with interest

vince. If then, the proposed measure will have the effect of developing our mines and largely increasing the output, it will prove of great benefit, not only in the largely increased revenue it will give the province, where the deficiency in the supply of raw material. Both the cane and the beet root

being predicted by the press, according as the papers discussing the question support able mare on Wednesday last. In turning the corner of Parade and Carleton streets. r oppose the local government.

Papers friendly to the administration relaiming that the recent presidential election in the United States will lead to the removal in the United States will lead to the removal in the United States will lead to the removal in the defort to prevent her from coming in contact with the fence, she fell backward and broke her back. She was afterwards chloroform-

and the increased demand for both these products in consequence of this removal is leading American capitalists to invest in our

Pennsylvania." With free coal and iron ores, it is claimed that these industries would be again operated, the raw material being taken from this province.

On the other side, it is being said by papers opposed to the government, that the Americans interested in the new deal are also interested in the coal mines of Pennsyl-

ance is requested. American market and a largely increased demand arises over there for our coal, this demand can be supplied by our mines working under present arrangements just as well as if handed over to American companies, say these papers. These are the two sides of the story as we glean them from the press of both parties. We give the arguments on both sides, and the reader can take his choice of the side he prefers to believe.

THE LOYALISTS.—James Hannay, Esq., an associate editor of the St. John Telegraph, has commenced a series of articles on the Loyalists, in the Weekly Telegraph. This series will probably include many chapters, and may run through a whole year. Mr. Hannay is always a fluent writer, and especially when handling historical subjects, his style is graceful and classical in a marked degree. This work will, no doubt, prove to be a valuable contribution to Canadian literature.

stantial link, the other with link that fades away in a day or two. The sharper writes his agreement, contract or whatever he may have chosen with the ink that will not last. In a few days he has a slip of paper with nothing on but a signature, over which he can write a note and easily turn it into cash. The fountain pen swindler is dangerous.

some of those Western towns! On Sunday, the 8th inst., just as the parish priest in an Indiana village was preaching an eloquent sermon from the subject of "Peace on earth, good will to men," a long-standing feud between two prominent families broke out into a free and easy fight right in church. Clubs, slung-shots, knives and revolvers were freely used, and after a half-hour's fight the net result was:

store the day preceding the burglary.

Of his immense stock of Carpets, imported direct for the spring trade, he has this week received 20 pieces of Brussels and Valvets. els and Velvets. The balance in Tapestries Wools, Unions and Hemps, are daily expected.

Maritime Sunday-school Musical Convention A Sunday-school Musical Convention will be held in Lawrencetown, Annapolis County, May 24th, 1893. The convention will include members and representatives of Sabbath-schools in the Maritime Provinces. Some of the leading Sabbath-school workers and superintendents will be especially invit-

ed to be present. dt to be present.

The purpose of the convention principally, is to improve the music in the home, the Sabbath and day schools. In addition to this it is hoped that a good representation of the workers and speakers interested in Sabbath-school work may be able to attend this meeting. It is expected that on this occasion from 2,000 to 5,000 children will unite their voices in songs of praise and mite their voices in songs of praise and

thanksgiving.

The music will be under the direction of Prof. N. H. Phinney, who proposes to train any children who join the organization. It s his intention to engage some musical in-structors to assist him in training the chil-fren, and he hopes to visit each school per-sonally before the general meeting takes

place.

A building will be built especially to accommodate the vast audience that will doubtless be present.

Cheap excursion rates will be secured on railways, and account Tables. railways and steamers. Early morning trains will carry the children and parents to the convention, and evening trains will carry many of them to their homes the same day.

Tea-meetings will be held by the various churches near the rail. rches near the central grou the people may be assured of an abundance of provisions. The music used on the occasion will be simple and selected, chiefly from the combined Gospel Hymns.

This convention is somewhat unique in its conception, and contains the promise of much good in the sphere of music.

one-prior, and contains the promise of much good in the sphere of music.

It is hoped that Prof. Phinney and his co-adjutors will receive the sympathy and support of all those who are in sympathy with improving the musical talents of children. dren.
