## "The Blue Bird"

The central figure in the big Maeterlinck spectacle, "The Blue Bird," an Artcraft picture which will be shown at the Primrose theatre next Tuesday, evening June 24th, is Tula Belle, the child prodigy of the screen, whose wonderful work is well known to the patrons of motion picture houses. Though Tula is but eight years old she has been playing in pictures for several years, and has taken important roles. She is a daring youngster, and in one picture rode a horse which leaped from a cliff into the water, a distance of thirty five feet. She can swim like a mermaid and is an accomplished dancer.

## A Happy Surprise

(Annapolis Spectator)  
A happy surprise to the Lombard family was the return of Jack on Monday when he walked in on them at noon without any notice that he had left England. It was seven years since Mr. Lombard had seen his son, Jack having enlisted at Lethbridge, Alberta, where he had been in Bank employ for some time, although his mother and sister had a glimpse of him in St. John on his way to the front. Lombard junior is a fine fit man now and will take a holiday home here for the summer although he passed through all the fighting without a scratch.

Monday evening a large crowd witnessed the most interesting game played this season in Bridgetown when the Annapolis seniors defeated the Bridgetown seniors one run in a game of eight innings, with a score of 18 to 15. All the home team requires is practice on a good field which they hope to obtain in the very near future.

## Placing the Buoys

C. G. S. Laurentian, Capt. MacLean, was in Digby on the 10th and 11th, placing the buoys on Annapolis Basin. Mr. Kelly, of the St. John Marine Agency, who was on board, made an inspection of the light houses. Mr. W. A. Chute, Rear River's commodore, was pilot. He is thoroughly acquainted with the Annapolis Basin and its tributaries, having cruised these waters for 50 years. Capt. MacLean has with him a capable staff of officers and an efficient crew, who place the buoys both carefully and rapidly.

The Queens County Exhibition will be held at Caledonia on Thursday and Friday, September 25th and 26th, 1919.

## Red Star Washes Quickly

This machine washes quickly, for it runs at a high speed. The gentiest push on the handle will send the fly wheel spinning, and the gentiest pressure keeps it spinning at this rapid rate until the washing is done. The clothes are swirled through the hot suds at three times the rate they can be washed by hand. In a few minutes the dirtiest garments are snowy clean. The hard work of washing the clothes is abolished. The Red Star Washer is a blessing to any housekeeper.

Call at the store to see this washer or have us send one up.

We can supply these Washers with Water Motors

## The Quickaction

Chemical Fire Extinguisher

THE GREATEST "SAFETY FIRST" INVENTION OF THE AGE

The Quickaction Chemical Fire Extinguisher is the result of years of study, and while being the product of a master inventor's mind, is so simple to operate that a child can use it. This new scientific method fights fire in a manner that water has never been able to do. It's method is altogether different and much more effective. The Quickaction, which is charged with a powerful chemical, does its work by chemical action entirely. By air pressure applied through a single stroke of the powerful force pump a strong, swift stream aimed directly at the fire goes straight to the base of the flame. Chemical action then gets in its deadly work of extinguishing the blaze by choking off the supply of oxygen from the surrounding air. Life cannot exist without oxygen; neither can fire burn.

The Powerful Chemical used is Safe, Harmless, Positive. Having secured the agency for this wonderful invention described above, I am prepared to take orders immediately. Goods delivered from two to three weeks after order is taken. The price of the Extinguisher is \$1.50. My plan is to accept 75 cents, or half of the total price, with order, and the balance on delivery of Extinguisher. In this way we both give some security. Those ordering by mail must enclose \$1.00 with order to help pay postage, etc., and remaining 50 cents on delivery.

Hoping the public will see the wisdom of having one of more of these wonderful Chemical Fire Extinguishers in their homes, shops, offices, etc., I will be expecting a fair share of your patronage. Sample shown on request.
