THE CITY OF VICTORIA

Parliament Bldg, Victoria

The charming city of Victoria, on Vancouver Island, the portal to the Pacific, the ocean gateway to the Orient, is one of the most favored spots in the world in beauty of situation, equability of climate and magnificence of scenery. Surrounded by water on three sides, the city is situated in a setting of low-lying wooded hills, in a foreground of the loftier ranges of the Island Cascades. Across the Georgian Straits, the Olympian range is distinctly visible the crowning glory of the scene being Mount Baker, which lifts its dazzling cone in solitary splendor, to a height of 11,000 feet.

Victoria is recognized as possessing one of the finest climates in the world. The winters are very mild and the summers cool. In May and June Victoria is especially enchanting with the gardens of roses, hedges of laurel, bushes of sweet briar. In the stately groves, the air is laden with the pungent odor of the pines.

The city is approached through a channel of wooded islands. On the left stretches the harbor, sheltering craft from all climes. Directly in front, behind a crescent-shaped embankment, the Empress hotel stands out from its surroundings of lawns and gardens. This stately C.P.R. hotel could not better have interpreted the character of the city.

Victoria is the new home-centre for hundreds of English folk, a reminder of the British Isles in Canada. Rockland avenue, with its lovely homes and enclosed gardens, is one of the most picturesque winding driveways in the city.

To the motorist, Victoria is the gateway to the land of pleasure, for Vancouver Island is entered by miles of excellent roads and pleasant scenes. There are many places of interest—the Dominion Experimental farm at Hazan Bay, the high explosives works at James Island; the big cement plant at Tod Inlet; the provincial prison farm; the naval station at Esquimalt; the cosmopolitan and meteorological observatories, and numerous mountains and lakes. The trip over the Mahabat Mountain is one of the most famous expeditions the tourist can embark upon.

Within easy access to the city are innumerable beaches. A pleasant memory picture is the view obtained from the yacht Clubhouse overlooking the bay.

Evangeline Immortalized in Bronze

(1) At the unveiling of the statue of Evangeline by Lady Burnham, when the Imperial Press Conference party visited Grand Pre, N.S.

(2) Some members of the party assembled around Evangeline's well.

Five continents were represented at the unveiling of the statue of Evangeline, Grand Pre, Nova Scotia. Nearly all those present belonged to the Imperial Press Conference party, and the unveiling ceremony was performed by Lady Burnham, who said:

"Evangeline is the beautiful conception of an American poet whose verses we learnt to read on both sides of the Atlantic when we were children. History has shed another light on the Acadian story. We see today that British policy was not as black as it was painted. Whatever may be the truth of this story, as a woman, and an English woman, I shall always regard it as one of the most painful episodes in our annals. Thank God those cruel old days lie behind us forever, and from the fate of Evangeline has sprung a great wave of sympathy which has been carried on the healing hand of time. It is a good omen that the beautiful sun, God's healing hand, should be resting upon us all today, who are here to do honor to that sweet woman. Under those rays in your wonderful land so full of beauty and promise the old hatred is dead. I have now the great honor and privilege of unveiling the statue of Evangeline."

The statue, which is of bronze, is the work of Henri Hebert from a model by his father the late Philippe Hebert, a descendant of the Acadians of whom Evangeline was one. It is a magnificent work of art, and was presented to the Park at Grand Pre by the Dominion Atlantic Railway, which is now part of the C. P. R.

Made in Canada

WE know the sale of the Chevrolet Light Delivery Wagon depends on the satisfaction it gives in actual service. We also know that its valve-in-head motor eliminates fuel waste and delivers fullest power, that its ample bearings cut friction to a minimum, that its perfect balance—strength without weight—insures stability and makes a maximum of power available for actual hauling.

These are only a few of the obvious reasons for Chevrolet ability, durability and economy.
