Think of The Cows

There is no work on the farm that pays better for thoughtful management. You may have had much experience in the feeding, breeding and management of a dairy. Your knowledge and experience would be worth much to others, and it must be true that others have knowledge and experience that can be worth much to you. If you are interested in your own success and desire to manage your cows so that they bring you the largest possible returns, make up your mind now to subscribe for Hoard's Dairyman. It puts you in touch with the most successful dairymen in the United States. What these practical men know and their experiences you will find in Hoard's Dairyman, and it makes a 30-page weekly that costs the reader but \$1.00 to January 1st, 1909. If taken in connection with Farming both papers can be secured to January 1st, 1909, at the low combination price of \$1.75.

Hoard's Dairyman is in every sense of the word a journal for the farmer who desires to make a profit from his cows. It handles this part of the farm work thoroughly, from the raising of the crops to the delivery of the product, milk or butter. A year's reading will convince you that you cannot afford to be without it. It is the leading dairy journal published in the English language.
