FRENCH WORK.

Extracts from Report on French Work.

During the past year your Committee has endeavored to carry out the wishes of the Woman's Missionary Society as to the school at Actonvale, Que. We have had as many as twenty-six pupils, the full number which the house can accommodate, and others were refused on that account. The work of the school was very encouraging, for, judging by the closing exercises, the time had been improved to the utmost, and some of the young women really had a very creditable standing in the higher branches of study.

Their spiritual interests were well cared for by the pastor, Rev. Joseph Pinel, and by the teachers, Mrs. Roy and Miss Hall, whose faithful work cannot be too highly estimated, and through whose labors and prayers every soul in the house was converted during the year. Oh, that they all may stand fast in the Lord!
