

"FROST & WOOD" BINDERS

MAKE HARVESTS PAY

Crops harvested with "FROST & WOOD" Binders cost least to reap and bind. No straw or grain wasted—all crop brought to the table. Reel arms pick up the down and tangled stuff in fine shape.

Wide Adjustment For Close Cutting

Wide range of cutter-bar adjustment enables the "FROST & WOOD" to reap very close. Force-feed Elevator with Relief Roller delivers grain to binder deck without any crowding or "threshing." Our accurate knotter and Eccentric sprocket-wheel drive insure compact, securely tied sheaves.

Roller Bearings Make Light-Draft

Roller bearings at every frictional point—axles, cross and crank shafts, elevator rollers, etc.—make the "FROST & WOOD" an extraordinary light-draft machine. With it you can cover more acreage in a single day than with any other binder we know of.

Our nearest agent will be glad to show you the "FROST & WOOD'S" superiority. Or learn more about it from our splendid booklet "Reliable Harvest Helpers." A copy sent free on request.
