CHILDREN'S CORNER

THE WANDERING CYCLONE. A Cyclone went a-wandering, And squandering, and pondering,

He sent the tiles a-scattering, And clattering, and battering, He sent the roofs a-shattering

Through Hindustan he whirled about, And swirled about, and hurled about, Till, sudden, as he twirled about

The Cyclone stopped and scowled at it, And then he stood and growled at it, And then he roared and howled at it,

The Banyan rustled mockingly, And waved its branches rockingly, "Alas!" it answered, "shockingly

The raging Cyclone tore away, And shored away, and swore away, At every dash he bore away

The trailing branches stooped at him, And swooped at him, and scooped at him, The rambling rootlets looped at him,

The tangling twiglets tore his face, The creepers dangled o'er his face, He could not see before his face,

The baffled Cyclone sighed away, And tried away, and cried away, "Oh, let me mount and ride away

The Banyan rustled cheerfully, And winked and chuckled legerly, "O friend," it said, "how fearfully

The wretched Cyclone slunk away, And shrunk away, and sunk away, At length in a splunk away

The morning wind brought word of him (I grant you 'twas absurd of him) That he was cold and dead.

St. Nicholas. Laura E. Richards in the November

LEAVING HOME. Some time ago a bright, active boy of seventeen left his father's home in Connecticut

He began to look for work that he might obtain money to meet his actual needs, but he soon found that the great western city was already crowded with young men and boys

His father was informed of the sad occurrence and, in accordance with his desire, the body of the boy was sent back to the Connecticut home.

"I want to know if you can tell me where I can get work to do?" are words we hear every day from sad-eyed, penniless young men

Now, boys, I touch this subject carefully, for I know that, like many another matter, it has two sides, and that one who looks at it as he is likely to after listening to a story

There may come a time in a boy's life when just the thing he ought to do would be to leave home and look out for himself

It is possible that Bayard Taylor would never have won the honor which crowned his life had he not, a young man of nineteen, dared to leave his Pennsylvania home and attempt a trip to and through Europe

But look at Bayard Taylor, his ability to take care of himself, his genius, his development in the commonplace paths of his early life, and then examine your own nature and capabilities

We find that a great many of these young men who express a willingness to do anything, I don't care what, have never fitted themselves to do well at any one thing

If you have a good home, stay there and fit yourself for something you are sure you will want to do after a while when thrown upon your own resources.

It circumstances throw you out of your home yet in your boyhood go out into the world with some higher purpose than a mere thirst for adventure and a desire to be free from home restraint

PAINE DISAPPEAR BEFORE IT—No one need suffer pain when they have available Dr. Thomas' Electric Oil. If not in the house when required it can be procured at the nearest store

WORRY OVER LITTLE THINGS

Feelings of Languor and Despondency the First Symptoms of Nervous Exhaustion—Reconstruct the Wasted Nerve Tissue by Using DR. CHASE'S NERVE FOOD

When you become restless, and peevish, worry over little things, and are afflicted with dyspepsia, which cannot be attributed to error in diet

The first necessity is rest from work and worry, and as much fresh air as possible. Then the system must be built up and the wasted nerve force restored by the use of Dr. Chase's Nerve Food.

Mrs. N. W. Williams, 212 Gerrard street east, Toronto, says: "I was very nervous, could not sleep or rest, and had severe attacks of nervous headache.

Dr. Chase's Nerve Food may not cure you in a week or even a month, but it is bound to benefit you, and will naturally and certainly restore vigor to the body and nerves.

And a Day is Given for the Discussion of Coercion in Ireland. London, Oct. 28. — An impassioned condemnation of British rule in Ireland was again heard last night from the Nationalist section of the House of Commons.

But look at Bayard Taylor, his ability to take care of himself, his genius, his development in the commonplace paths of his early life, and then examine your own nature and capabilities
