Fig. 13. SINKING.

Advantages of Patent Flattened Strand Ropes.

1. Greater wearing surface, therefore longer life of rope and less wear upon pulleys.
2. Greater strength, thereby admitting of smaller ropes being used for existing loads, or of increased loads without increase in size of rope.
3. Spliced easily and more effectively.
4. Less tendency to twist and stretch in working.

Fig. 13 for Sinking & Fig. 11b for Cranes, &c., are non-twisting.

LOCKED COIL ROPES.

Indispensable for deep shafts.  
Stronger than any other rope of same size.  
Entirely free from twist.  
Smooth surface reduces wear to a min.  
Duration far ahead of any other construction.
