

After carefully looking over these drawings and plates, we can safely say that no work on gynecology has ever been so beautifully illustrated, while the text seems to have forgotten nothing even down to the most minute detail. The author's large experience as a teacher, as a hospital surgeon and as a distinguished Fellow of the American Gynecological Society has qualified him for the duty of writing a valuable treatise, and he has availed himself of his qualifications to the fullest extent. We will take great pleasure in recommending this text-book to our students in gynecology.

### SANMETTO IN CYSTITIS, GONORRHOEA AND IRRITABLE PROSTATE.

I have been an extensive user of Sanmetto for a number of years, and can truthfully say that when the therapy of the pure santal and saw palmetto is indicated, I find Sanmetto a remedy par excellence. I have used it extensively in cystitis, chronic gonorrhœa and irritable prostate, and it has universally relieved, if not cured, my patients. As long as it maintains its present standard of purity I shall use it, for I deem it pure and ethical.

### HYPERTROPHIED PROSTATE WITH DIFFICULT MICTURITION.

For an old gentleman, seventy-four years of age, who was suffering from hypertrophied prostate with difficult micturition, I prescribed Sanmetto. The results were favourable, and after taking two bottles of Sanmetto he was so much improved as not to require the use of the catheter, which he had been compelled to use for several months previous, at least once in twenty-four hours. I have since prescribed Sanmetto in five similar cases with equally good results.

### SANMETTO IN CYSTITIS, URETHRITIS, PROSTATITIS AND GENERAL INFLAMMATION OF THE GENITO-URINARY TRACT.

I am an earnest friend of Sanmetto. It is a valuable and ethical preparation. From years of experience in its use I have learned to rely upon it in cases of cystitis, urethritis, prostatitis and general inflammation of the genito-urinary tract. In cases where its use is indicated its curative properties are most remarkable. I am satisfied if the profession will carefully discriminate in their cases they will always be well pleased with the results obtained from the exhibition of Sanmetto. I shall continue its use where indicated.
