THE HYPODERMATIC TABLET AS AN EMERGENCY AGENT

If there is one class of therapeutic agents which more than another should be chosen with discretion and judgment, the hypodermatic tablet represents that class. When he administers a preparation hypodermically the physician wants prompt action and he wants to be certain that he is going to get it. To have that assurance he must use a tablet that is active, that has definite strength, that dissolves promptly and wholly. Cheap tablets, poorly made tablets, tablets concerning which there is the slightest doubt as to medicinal quality, may well be left alone. And there is no need to err in the matter of selection. Hypodermatic tablets of the better sort are easily obtainable. Perhaps the brand which comes readily to mind is the brand which is exploited so extensively to physicians under the familiar caption of "Five Seconds by the Watch." The makers, it is hardly necessary to add, are Messrs. Parke, Davis & Co., who guarantee their hypodermatic tablet unequivocally as to purity, solubility, activity and stability.

Practitioners in and around Regina or in the Province of Saskatchewan, may obtain any of Mulford's serums from W. M. Van Valkenburg, Limited, Regina. In an emergency use the phone or wire. This firm have just received a large stock of this serum, and the arrangement will be a great convenience to many.
