

Canadian Embassy

Ambassade au Canada

STOCKHOLM, November 20, 1991.

Dear Madame,

I have the honour to refer to the "Agreement between the Government of Canada and the Government of Sweden Concerning the Uses of Nuclear Material, Equipment, Facilities and Information Transferred Between Canada and Sweden" signed on September 27, 1977 as amended (hereinafter referred to as "the Agreement").

2. Article III (1) of the Agreement provides in part that "Equipment, material, nuclear material and facilities referred to in Annex A to the present Agreement shall be transferred beyond the jurisdiction of a Party only with the prior written consent of the appropriate governmental authority of the other Party". In order to facilitate the application of this provision, I have the honour to propose that:

- a) in the case of natural uranium, depleted uranium, other source material, uranium enriched to less than 20% in the isotope U-235 and heavy water, Canada hereby provides its consent to the future transfer of such items by Sweden beyond its jurisdiction to third parties provided that:
 - i) such third parties have been identified as acceptable by Canada in writing from time to time;
 - ii) Sweden, for each such transfer, inform the third party that the material and nuclear material transferred is subject to the provisions of a nuclear cooperation agreement between Sweden and Canada;
 - iii) Sweden make subject to the Agreement, upon receipt, material and nuclear material transferred to Sweden from a third party identified pursuant to i) above when the third party informs Sweden that the material and nuclear material is subject to a nuclear cooperation agreement between the third Party and Canada; and

Mrs. Margaretha af Ugglas,
Minister for Foreign Affairs,
STOCKHOLM.
