UIC—DATA ON JOBS AVAILABLE IN REGIONS

Question No. 2,095—Mr. Laprise:

1. Does the Unemployment Insurance Commission have daily data on the number and type of jobs available in a region and, if so, how does the Commission inform the concerned citizen?

2. What is the total cost of the labour market advisory service (a) for Canada (b) for each province?

Hon. Robert K. Andras (Minister of Manpower and Immigration): 1. Yes but these data are maintained by district office rather than region to enable the Commission's local offices to provide a more effective service to UIC claimants as distinct from the concerned citizen at large. This information is used for adjudication purposes and to assist claimants in meeting their obligation to seek and find work. However, in the filling of specific job vacancies, claimants are sent by the Unemployment Insurance Commission to Canada Manpower Centres which with their job banks and counselling services, have the responsibility of referring individuals to specific employers.

2. (a) For Canada: \$1,345,730.23. (b) For each province: Alberta, \$45,902.59; Manitoba, \$23,873.83; New Brunswick, \$65,764.13; Newfoundland, \$40,058.43; Nova Scotia, \$74,191.46; Ontario, \$414,976.26; British Columbia, \$195,895.68; Prince Edward Island, \$13,475.87; Quebec, \$427,107.91; Saskatchewan, \$44,484.07.
