

over the valley of the cove be brought on the north side of the valley; you will then be above the shoal, and may haul into the cove with safety. There is a narrow bank, which stretches quite across the bay, from the south point of the cove, to a point on the opposite shore, whereon is from 27 to 45 fathoms.

La Hune Harbour, wherein is only room for the admittance of small vessels open to the westerly winds, lies half a league to the westward of *Cape La Hune*, before which is an island close under the shore. The passage into the harbour is on the N. W. side of the island; there is no danger in going in, and you must anchor close up to the head in 10 fathoms water. This harbour is well situated for a fishery, there being good fishing ground about it, and other conveniences, such as a large beach, quite across from the head of the harbour to *La Hune Bay*, which is eight hundred feet, exposed to an open air, which is a great advantage for drying of fish.

Between *Cape La Hune* and *Little River*, the land is tolerable high, and the shore forms a bay, wherein lie several small islands and rocks above water, the outermost of which lies north 3 leagues from the *Penguin Islands*; near these rocks, and within them are sunken rocks, and foul ground: The passage is very safe between the rocks and the *Penguin Islands*.

W. by S. 4 leagues from *Cape La Hune*, is the entrance of *Little River*, which may be known by the land near it, which forms a very conspicuous point on the coast, and tolerable high; the river is about 100 fathoms broad at the entrance, and 10 fathoms deep, and affords good anchorage, a little way up it in 10, 8 and 7 fathoms water; its banks are tolerable high, and clothed with wood.

S. $\frac{1}{2}$ E. 2 leagues from the entrance of *Little River*, N. W. $\frac{1}{2}$ N. 2 $\frac{1}{2}$ leagues from the *Penguin Islands*, and E. S. E. $\frac{1}{2}$ E. 3 $\frac{1}{2}$ leagues from the isles of *Ramea*, lie the *Little River Rocks*, which are just above water, and of a very small circuit, with very deep water all round them.

The isles of *Ramea*, which are of various extent both for height and circuit, lay N. W. $\frac{1}{2}$ N. near 6 leagues from the *Penguin Islands*, and 1 league from the main; they extend E. and W. 5 miles, and N. and S. 2 miles; there are several rocks and breakers about them; but more on the S. side than the N. the easternmost island, which is the largest, is very high and hilly; and the westernmost, called *Columbe*, is a remarkable high round island, of a small circuit, near to which are some rocky islands, and sunken rocks.

The harbour of *Ramea*, (which is a small commodious harbour for fishing vessels) is formed by the islands, which lie between *Great Ramea* and *Columbe*, the entrance from the westward (which is the broadest) lies E. from *Columbe*, give the S. point of the entrance a small birth (off which are some rocks above water) and steer N. E. into the harbour, keeping in the middle of the channel, which is more than a cable's length broad in the narrowest part, and anchor in *Ship Cove*, which is the second on the N. W. side in 5 fathoms, clear ground, and sheltered from all winds. To sail into it from the eastward, keep the north side of *Great Ramea* on board until you are at the west end thereof, then steer S. W. into the harbour, keeping in the middle of the channel, wherein is 3 fathoms at low water, and anchor as above directed. In this harbour, and about these islands, are several convenient places for erecting of stages, and drying of fish, and seem well situated for that purpose.

S. E. $\frac{1}{2}$ S. 4 miles from *Ramea*, are 2 rocks above water, close to each other, called *Ramea Rocks*: S. W. 1 league from these rocks is a small fishing bank, whereon is 6 fathoms water; it lies with the rocks above mentioned, on with the W. entrance of *Little River*, bearing N. E. and *Ramea Columbe* on with a high saddle hill, (called *Richard's Head*) on the main within the isles of *Burges*, bearing nearly N. W. Nearly in the middle between *Ramea* and the *Penguin Islands*, 2 leagues from the land, is a fishing bank, whereon is from 50 to
