A Former Torontonian Suing th American Tobacco Trust for

Infringing His Patent. Mr. William Henry Haworth of 375 Fifth-street, New York, an old Toronto boy, and a former Upper Canada College boy as well, will be a pretty rich man if he is successful in his suit now pending in the United States Court against the Tobacco Trust. He is suing this wealthy corporation for infringing on his patented cigar case, which the cigar and cigarette manufacturers of the United States are compelled to use in shipping their wares, as the transportation companies will not receive for forwarding unless packed in patented cases, owing to the exterior of the case being provided with a detective device preventing theft, or if entered detection is immediate and thier placed. One hundred thousand cases are shipped daily and his royalty is 12 cents per case. So that the life of the patent would pile up over \$60,000,000 in 17 years. Mr. Hawoith was a former fellow pupil of Mr. Walter S. Kneeland of 375 Jarvis-street. boy as well, will be a pretty rich man if

Plumbing Was Missing.

Policeman Robert Armstrong yesterday noticed a cart containing some lead pipe standing outside of the vacant building at the northeast corner of George and Kingstreets. He went inside, and several boys ran away. Only one of the youngsters was captured. He is Thomas Taylor of 46 Annette-avenue. The basement of the building was found to be stripped of the plumbing.

Crown and Bridge Work

Known as "teeth without plates" - when properly constructed and applied is a monument to the advance of modern dentistry as a science and as an art. Lost or useless teeth may be replaced with artifical ones. and the substitutes anchored as firmly in the mouth for all functions as are the natural teeth. It supplies the greatest comfort. It makes the plate unnecessary. It gives the most natural appearance and efficiency. It is thoroughly durable-satisfactorypleasing. We will gladly tell you about the advantages of this method and about the cost of the best work.

The road has never paid expenses, but, as the City Street Railway Company is building a spur line to connect with it, the road should soon, be on a paying basis.
