THE LOCAL MARKET

The season for plums is about finished, and the market for peaches is rapidly nearing a close, the season having been somewhat earlier than usual. Very few Elbertas are coming in now, and one of the latest varieties, the Smock, a peach of somewhat poorer quality, is being offered.

Although there is a very large crop of grapes, owing to large quantities being sold for wine, they still sell at 50@60c a basket.

# Beer or the Boy?

TALF a million boys of Ontario have never tasted liquor. The province has been under prohibition for three years and they have had little or no opportunity to acquire the taste or to yield to the temptation. How much better would it be for the safety of the future of these boys upon whom the future of this province depends, if they never acquired the taste for liquor-if the temptation to acquire the dangerous habit of "booze" were never thrust upon them?

Owing to the wording of the Referendum ballot, many parents may not realize that the Beer proposed is intoxicating, more than twice as strong as the beer allowed at the present time under the Ontario Temperance Act, and over five times as strong as the limit allowed for beer defined as non-intoxicating in Great Britain and the United States.

## 2.51% Alcohol by Weight Means 5.46% Proof Spirits

The Beer of the Ballot is 5.46% Beer. The Ballot says "2.51% alcohol by weight." But that means 5.46% proof spirits, and the Ontario Temperance Act allows only 2.50% proof spirits. The Beer of the Ballot is 118% stronger.

Three glasses of 5.46% beer equals in alcoholic content one ordinary glass of whiskey. Men and boys get drunk on beer. The young fellow when he takes his first drink takes beer. Beer creates the taste for alcohol. It develops drunk-

A beer drunkard is a lower piece of human degradation than a whiskey drunkard. He is dull, coarse, brutal, bloated, sodden, and very susceptible to disease.

Beer makes its habitual user stupid, mentally heavy and physically clumsy. It undermines his constitution, softens his muscles, clogs his circulation, slacks

Most beers contain other poisons beside alcohol-lupulin, for example, which destroys the kidneys and shakes the nervous system and is the secret of those crimes of brutal stupidity often laid at the doors of beer drunkards.

The Beer of the Ballot is too strong for your boy or anybody's boy.

What would you not sacrifice for the welfare of your son-time-money-comfort-sleep! Is it too much to ask you to sacrifice 5.46% beer—in the home, in the bar - anywhere within this province of

To every question on the Referendum Ballot we ask you to vote-

# "No!—Four Times—"No!

No Repeal—No 5.46% Beer in Government Shops—No 5.46% in Open Bars—No Government Whiskey Shops for Beverage Purposes

Every mother and father in Ontario should vote to retain the Ontario Temperance Act in sacred trust for Ontario's growing boys. Be sure you mark an X after each question and place it under the heading "NO."

duestion of immigration of undesirables be more strictly enforced, as they had come to know in the past few years that a large element of the foreign population required very close surveillance.

On the question of police benefit fund

On the question of police benefit fund, he believes that municipalities should pay annual sums in order that such fund be placed upon a solid foundation. He suggested that one-half of the police fines obtained through the enforcement of the liquor act be used to carry on the benefit fund.

He thought there ought be be changes in the system of county police forces, and the pay by fees should be abolished. In concluding the president urged upon all the chiefs to consider the duties and responsibilities of their officers. He urged a spirit of loyalty one to another, and to assist the men under them in every manner possible.

This afternoon the chiefs enjoyed a visit to the P. Burns ranch.

### **BOARD OF RAILWAY COMMISSIONERS HEAR** LIST OF PROTESTS

Judgment Was Reserved in All Cases Heard.

Ottawa, Sept. 17.—The board of railway commissioners for Canada yesterday began their regular traffic sittings to be held throughout the season at the central station building, the first and third Tuesday of each month. Hon. F. B. Carvell, recently appointed to the chairmanship, presided for the first time. After the session he declared himself as entirely satisfied with the proceedings and stated that if the work continued to be as interesting as it was yesterday he would like it very much.

The complaint of the Dominion Millers' Association, represented by C. B. Watt and the Canadian Manufacturers' Association, represented by J. E. Walsh and S. B. Brown, against the new milling in transit rules filed by the railways and which became effective September 1, 1919, were heard. Mr. Watt and the other representatives of the government, was not printed through public funds.

The Times, while admitting it to be unthinkable that the premier and his advisers should circulate election literature, "for that is what it comes to." at the public expense, says it is much more likely they sent out the publication in millions, clearly foreseeing that the charge of having produced it at the public expense would be made. They now appear before the public beating the real-ways and which became effective September 1, 1919, were heard. Mr. Watt ways and which became effective September 1, 1919, were heard. Mr. Watt and the other representatives of the milling interests contended that the new rules would be a great hardship to the small miller, as the carrying out by him would necessitate a regular book-keeping system to which he has hither to not been accustomed, and which would entail a further great expense on his part. Judgment was reserved. Mr. Marshall, T. Marshall of the Toronto Board of Trade was also present in connection with this case.

The C. P. R., the G. T. R. and the C. N. R. were required to justify their present published freight rates on fresh fruits in carloads from Eastern Canada to Winnipeg, Portage La Prairie and Brandon, Manitoba. G. U. MacIntosh,

Forest, Ont., acting on behalf of the Intario Fruit Growers' Association ontario Tulti dividis asked for time to present more evidence. This was granted and in the meantime judgment was reserved.

### BRITISH ELECTION LITERATURE IS NOT CHARGED TO PUBLIC
