

ACTED LIKE IRISH, NOT LIKE AMERICANS

New York Evening Papers Rebuke Mob Which Insulted British Flag.

New York, Nov. 26.—Several New York evening papers comment somewhat bitterly on yesterday's disorders after the MacSwiney memorial mass at St. Patrick's Cathedral, when a mob of 5,000 "Irish sympathizers," seeing a British flag displayed in a window of the Union Club, attacked the building and carried on a desperate battle until a horde of policemen drove them away. All the windows on the lower floor of the club building were wrecked, and there were many injuries from flying missiles.

"The demonstration yesterday is a naive assumption that New York is a part of Ireland," says The Globe. "Nothing could do more injustice to Ireland or win more friends for Lloyd George than this absurd attempt to dictate to American opinion and conduct."

"The mob," says The Evening Post, "may have been composed of American citizens, but they did not act as if they were Americans. They acted as if they were Irishmen."

"Irish sympathizers who act as Irish sympathizers acted yesterday forget where they are. This is not Ireland. It is not England. It is the United States. Anybody who is not naturalized and who proposes to proceed as if New York were Dublin or any other foreign city, abuses our hospitality, and anybody who is naturalized or was born here and who takes a similar course, gives the lie to his Americanism."

FAIR PROSPECT OF BIG POWER DEAL

(Continued From Page 1.)

them all if the price is right; and if they have not power to go into generating and distributing energy and running radials they will get it from the legislature.

But The World can get no assurance as to price or to the real purchasers, or whether the other will be taken up. Hinges on Chippewa Scheme.

A good deal depends on the likelihood of the Chippewa power scheme being ready with energy next August. Sir Adam is assured that his commission will be ready. But he may not want to take any risks. It might be dangerous. But any deal turns mainly on the price named and the terms. Most of the parties are disposed to try their best to get a clean-up, notably Mr. Davidson and Sir William Mackenzie. The Montreal stockholders in the companies have apparently agreed to something.

The next turn will come when Sir Adam Beck's letter is read at the city hall. It may not advise anything—leave it to the city.

The Ontario government has not been brought into the negotiations. One of the dangers of taking no action next week may be to throw all the fat into the fire and start a new war between the Toronto Railway and the city over the franchise.

Hamilton's Situation. A somewhat similar situation is developing in and about Hamilton, where the Gibbon interests control the local street car franchise, three radials, a light and power franchise, a general utility franchise, and a water supply franchise. It is even more difficult than here. The Dominion Power Co. (the controlling concern) is now offering a new flotation. Sir Adam Beck has not yet been brought into the Hamilton situation.

B'WELL? IT MAKES PEOPLE FEEL WELL

B'Well is a medicine that assists nature in its work. It contains the concentrated extracts of these herbs tone up the stomach, regulate the liver, act on the kidneys, and it contains a powerful and effective destroyer that is sure death to worms, and can be used with perfect safety.

B'Well is not a tapeworm exterminator, and is not recommended for that trouble. B'Well is restoring thousands of people to health. I am not going to enumerate the different diseases and complaints that people have been relieved of from the use of B'Well as it would take up too much space. I can simply say that restlessness and disease cannot remain if you take this medicine for a time, and it will surely make you feel fine.

It does not contain poison in any form or narcotics that only irritate the system, but the different roots and herbs that regulate the system. It stimulates the stomach, liver and kidneys into healthy action, helps digestion and keeps the bowels regular, expels all gases from the system, and takes away the feeling around the heart, and fearful feeling from the head, depressed spirits and melancholy simply vanish, and a cheerful spirit takes their place. B'Well is a blessing to those that feel life is a burden, to them that are downhearted and unhappy from disease. B'Well carries the poison out of the system through the natural channels of health, and as the poison is carried out of the system, nature restores herself, and a cheerful spirit follows, as there is nothing like good health to make a person cheerful and happy. People treated for Epilepsy, Fits have been restored by its use. Don't ask me if it cures this, that and the other diseases. It is different from most medicines advertised as cures, and I am not advertising this remedy as such, but simply advertising it as a medicine that has and will regulate the system, carry the poison out of the blood, and common sense must surely tell you the value of it. Men and women who have been nervous wrecks, with hollow cheeks and sunken brows, have become plump, healthy and cheerful from its use, and I can only say what it has done for others. It will surely do for you. Yours truly, B'Well.

Manor, Saak, August 2, 1920.
