Steer's opodeldoc.—Castile soap, three pounds; high wines, three gallons; camphor, twelve ounces; oil of rosemary, three ounces; oil of origanum, six ounces; aqua ammonia, two pounds. Let it stand in a well stopped vessel, exposed to moderate heat a day or two. This is made solid or liquid in increasing or lessening the quantity of soap.

Perpetual ink for inscriptions on tomb stones, marble &c.—Melt three quarts of pitch, and mix it with one quart of lamp-black. Fill the letters with this ink in a melted state—it will endure as long as the stone itself.

1838.—NOVEMBER begins on Thursday; hath 30 days.
