# AMHERST MAN SHOOT HIMSELF IN OTTAWA

## Ill Health Made Charles T. Moffatt Despondent and He Ended His Life With a Bullet

Ottawa, Nov. 22.—The janitor of the Carleton chambers, hearing a pistol shot in the basement of the building at noon today, ran to his room and there, stretched on a camp bed, found the lifeless body of Charles T. Moffatt, clerk in the law office of Gemmill & May, upstairs.  
A forty-four calibre Colt revolver lying on the floor and a ghastly wound in the young man's head told the tale of suicide. Moffatt, who had been suffering from senility recently, had evidently been in his office during the forenoon and descended to the janitor's quarters, put an end to his life in a fit of despondency.  
He was in good financial circumstances.

## WEAK BLADDER AND KIDNEYS

Relieved by the Simple Home-made Mixture Which Anyone Can Prepare by Shaking These Three Ingredients in a Bottle.

The great majority of men and women at the age of 30 years begin to feel the first signs of advancing age in some form of kidney trouble and bladder weakness. They are entirely free from that torturous disease, rheumatism, which is not a disease in itself, but a symptom of deranged function of the kidneys, which have become clogged and sluggish, failing in their duty of filtering and straining the poisonous waste matter, uric acid, etc., from the blood, permitting it to remain and decompose, settling about the joints and muscles, causing intense pain and suffering.  
The bladder, however, causes the old folks the most annoyance, especially at night and early morning.  
Hundreds of readers who suffer will find the following, which is known as the Dandelion mixture, the most harmless and effective treatment to clean the system of rheumatic poisons, remove irritation of the bladder and relieve urinary difficulties of the old people. It is a true vitalizing tonic to the entire kidney and urinary structure, reinvigorating the entire system.  
The Dandelion mixture consists of the following simple prescription, the ingredients of which can be obtained from any good pharmacy at small cost: Compound Kargon, one ounce; Fluid Extract Dandelion, one half ounce; Compound Syrup Sassaaparilla, three ounces. Shake well in a bottle and take in teaspoonful doses after each meal and upon going to bed, also drink plenty of water.  
This prescription, though simple, is always effective in the diseases of the kidneys and bladder and rheumatism.

Ordinary dress.

# CARNEGIE FAVORS A TARIFF REDUCTION

He Declares Infant Industries of United States Can Now Take Care of Themselves — Increase Tax on Luxuries and Reduce It on Necessities.

ANDREW CARNEGIE.

New York, Nov. 22.—A notable article from Andrew Carnegie, dealing with the tariff, will appear in the forthcoming December number of the Century Magazine, in which the iron master takes the position that "infant industries" no longer need protection; that the steel and other industries have now grown beyond the need of tariff protection; that duties on luxuries used by the rich should be maintained, but that those on manufactured articles should be reduced greatly, or abolished entirely when no longer needed.  
Mr. Carnegie's article is entitled, "My Experience With and Views Upon the Tariff." He reviews the tariff movements down to the present. Dingley law, and says that conditions have changed so greatly in the interval that the tariff should now be viewed from a new standpoint. He assumes that a decided majority of American voters are agreed:  
"First—That it is advisable for new countries to encourage capital by protective duties, when seen to be necessary to develop industries.  
"Second—That after full and exhaustive trials, if success be not finally attained, such protection should cease, except as noted hereunder.  
"Third—That should the experiment succeed, protection becomes unnecessary and should steadily, but gradually, be abolished, provided that the home supply of any article absolutely necessary for the national safety shall not hereby be endangered."  
Protection Not Needed.  
Further on, Mr. Carnegie says: "We have already become by far the greatest of all manufacturing nations. Our 'infant industries' of the past have reached maturity, and, speaking generally, are now quite able to protect themselves."  
"While the tariff as a whole even to day has ceased to be primarily a measure of protection, it has become of vast importance from the standpoint of revenue and it is to this feature I speak the special attention of readers of all parties, for duties upon imports, not for protection, but for needed revenue, should not become a party question. Reasonable men of all parties may be expected to approve this plan of obtaining revenue.  
After giving tables showing that the bulk of tariff duties are collected on luxuries, used by the rich, Mr. Carnegie says:  
"Thus does the American tariff, in happy contrast to others, almost exempt the poor and heavily tax the rich, just as it should; for it is they who have the ability to pay as required by the 'economic law.'"  
Mr. Carnegie says of further tariff legislation:

## STEEL NEEDS NO PESTERING NOW.

"The writer has co-operated in making several reductions as steel manufacturers become able to bear reductions. Today they need no protection, unless perhaps in some cases where the home supply is not produced cheaper here than anywhere else, notwithstanding the higher wages per ton.  
"The day has passed when any foreign country can seriously affect our steel manufacturers, tariff or otherwise. The public has become the home of steel and this is the age of steel. The writer speaks only of the ordinary articles and not of special being able to stand without protection. He hopes there are today pioneers in several new regions of steel, but they are temporary. The committee should welcome such special cases."  
Mr. Carnegie says that several other features of the tariff should be carefully looked into, more particularly illuminating ones, thread and cutlery.  
Further on he says:  
"There is no occasion for haste or for any revolutionary step in coming tariff legislation. It is better to go a little too slow than to go too fast. In the writer's opinion, the revision of the tariff could today safely and advantageously be made a radical one upon the lines suggested, but if congress, in deference to the timid manufacturer, whom we have always with us, thinks it prudent not to touch his dreams unduly and only halves present duties on some articles, and abolishes them entirely upon others—always provided it guards zealously the present duties upon the luxuries of the rich for revenue—the writer will be thankful and philosophic as usual, the step in the right direction will be taken, and he knows the final step must come before long, the sooner the better."

# THE TEMPLE FAIR WAS A GREAT SUCCESS

It Closed Saturday Night—Dr. Daniel Wins Popularity Contest at Exmouth St. Y. M. A. Fair.

Temple Fair was brought to a close in the new Temple of Honor hall, North end, on Saturday evening. The sale of fancy and useful articles had been so successful throughout the week that with the exception of a few articles everything had been disposed of. The remnants were auctioned by John Salmon, and some spirited bidding was the result.  
Dr. H. B. Nae, W. J. Forbes and three members of the managing committee will today count the ballots in the voting competition for the most popular motor-man and conductor. Results in the bean fair, cent jar, weight of the stove, weight of the cake and ool naming competitions will be made known tomorrow.  
On Saturday afternoon the two door prizes for the children were won by Anna Morell, 240 Bridge street, who received a gold ring, and George Bailey, 76 Kennedy street, who was awarded a pair of skates. In the evening the door prize, a load of coal, went to Mrs. John Black, of Durham street. Mrs. J. McCormick,

# MONCTON GIRL IS A VICTIM OF POISON

Miss Gertie McLellan Drank Wood Alcohol With Suicidal Intent and Lived But Short Time.

Moncton, Nov. 22.—Gertie McLellan, aged seventeen, daughter of Alexander McLellan, of the I. C. R., died quite suddenly in convulsions this afternoon after an illness lasting only a few hours. She took ill this morning and gradually sank until 2.30 this afternoon, when death ensued.  
It appears the young girl was a victim of wood alcohol poisoning. She was of a weak mind and had previously threatened to do away with herself by taking wood alcohol. Friday last, according to her story, she drank a quantity of wood alcohol, and this morning the poison began to take effect. She took violently ill and although three doctors were called and everything possible done to save her life, she died in convulsions about 2.30 this afternoon.  
Before becoming unconscious deceased informed the doctors what she had done and expressed regret for her action.  
Coroner Harris was notified, viewed the body and pronounced it a case of suicide, an inquest not being necessary.  
At a meeting of the I. C. R. clerks and unorganized employees of the I. C. R. held this afternoon, it was decided to secede from the International Brotherhood of Railway Employees and unite with the Canadian Brotherhood of Railway Employees. A. H. Mosher, grand president of the C. B. of R. E., was present and with others addressed the meeting.

## AMERICAN FLEET AND THE CHOLERA

Fear of the Disease May Prevent Men From Landing at Manila.

Manila, Nov. 22.—The question of allowing the men from the Atlantic battleship fleet to come ashore on account of the cholera situation in Manila is still undecided. There has been an exchange of telegrams between Governor Smith and Secretary of War Wright.  
The decision of the Washington authorities, it is believed, hinges on the special report made to the secretary of war by Commissioner Dean C. Worcester, giving a history of the cholera in the Philippines. The report is said to include strong criticism of the municipality for failing to clean up and drain certain portions of the city and outlying districts.  
In response to the request of the secretary of war for a report on the present condition, Commissioner Worcester declared that the epidemic was still under control, but that there is no danger whatever now in permitting the men of the fleet to land.  
Governor Smith has written to Rear-Admiral Sperry proposing that a part of the programme originally planned by the city for the entertainment of the fleet be now carried out.  
There has been but one case of cholera and two suspects in Manila during the past four days.

## STOP THAT HEADACHE

Foolish to Suffer when a Simple Remedy Will Prevent and Cure.

Ever stop to think what caused your headaches? Probably not. Then look to the bowels and stomach and you'll find plenty of cause. Chances are you'll find constipation, liver is sluggish, stomach overburdened with half-digested food.  
No wonder you are dull, tired, restless day and night.  
You need the cleansing influence of Dr. Hamilton's Pills which cure your condition in short order.  
Being composed of natural vegetable emollients, Dr. Hamilton's Pills possess great power, yet they are harmless. They act on all organs connected with the stomach, liver and bowels. In consequence food is properly digested, the blood is pure and nourishing, the body is kept strong and resists disease.  
Headaches never known to those who use Dr. Hamilton's Pills, and this fact is vouched for by the Asst. Mgr. of the Poultry Success Magazine of Springfield, O., Mr. J. H. Callahan, who writes: "No better medicine than Dr. Hamilton's Pills. We use them regularly and know of marvelous cures that resulted everything else. They cleanse the whole system, act as a tonic on the blood, relieve indigestion, help the stomach, and make you feel strong and well. For headache, constipation and stomach disorders I am confident that the one prescription is Dr. Hamilton's Pills.  
You can rely on Dr. Hamilton's Pills with implicit confidence, their effect is wonderful. Sold by all dealers. Price 25c per box, five boxes for \$1.00, by mail from N. O. Pollock & Co., Kingston, Ont., and

## THE DIAMOND JUBILEE OF ST. DAVID'S CHURCH

The diamond jubilee of St. David's Presbyterian church will be held next month, commencing on Dec. 6, and continuing the whole of the following week. On Sunday, the 13th, the beautiful new individual communion set presented to the church by R. B. Paterson will be used for the first time. The set arrived last week from the maker in Birmingham (Eng.), and has been much admired by those who have seen it.  
The services on Sunday, Dec. 6, will be conducted by Rev. Dr. John Pringle, formerly of the Yukon. On Monday night the choir, assisted by some of the best talent in the city, will sing Sullivan's oratorio, The Prodigal Son. Tuesday night there will be a congregational reunion, preparations for which are being made by the wives of the elders and trustees. On Wednesday, Thursday and Friday nights there will be services for the deepening of spiritual life and preparatory to the communion service on the 13th.  
Rev. A. A. Graham, of St. David's church, will leave today for Toronto. He is a member of the general assembly committee on evangelism and will attend a meeting of that committee in Toronto on Wednesday. T. H. Somerville is also a member. The other representative from this presbytery is Rev. D. McDermid, of Moncton.

# A STEINWAY BARGAIN

We imported a few months ago for a customer one of the famous Vertegrand Upright Steinways in mahogany case, but owing to certain financial reverses this customer could not pay for the instrument. This piano was just used five months and would cost about \$800 to import. We will sell it if applied for quick for \$575. Anyone wishing a Steinway piano should embrace this opportunity at once as we guarantee the piano is as good as the day it came from the factory, and was only carefully used five months.
