

DEED TO LAW MEMORIALS HANDED OVER

Formal Presentation at Special Session of Council

RICHMOND, Jan. 13.—A formal presentation of the Bonar Law memorial was made to the municipality of Kent at a special session of the Council held last evening.

Dr. Murray MacLaren, C.M.G., M.P., of Saint John, one of the members of the committee in charge of the Bonar Law memorial, was present and made the official presentation of the deed to the municipality.

Dr. MacLaren reviewed the history of the cairn from its inception, quoting from the letter of Dr. Clarence Webster of Shediac, to The Telegraph-Journal suggesting the movement, and from that to its completion at the splendid dedication in the presence of the Lieutenant-Governor of the Province, the premier of the day and the former premier of the Dominion, the Rt. Hon. Arthur Meighen, and other leading statesmen, the unveiling having been performed by the son of the late Andrew Bonar Law, to whose illustrious memory the cairn was erected.

SUGGESTION OF DR. WEBSTER

In referring to the suggestion of Dr. Webster that a committee should be appointed consisting of Hon. E. J. Veniot, the present Postmaster General, the late A. B. Carson, of Rexton, and himself, Dr. MacLaren said that this suggestion had been carried out and that the committee were very grateful for the hearty co-operation of the New Brunswick people. He referred especially to the generosity of Richard O'Leary in offering the choice of a site for the memorial along a very pleasing front in Mr. Law's native village of Rexton.

REMEMBERS BONAR LAW

Dr. MacLaren spoke of his own early recollection of Bonar Law at school as that of a tall spare youth, very peevish. During the war he met this celebrated statesman at a banquet given by Lord Beaverbrook, in London, and Bonar Law remarked to him, "Your father, Dr. MacLaren, was our family physician," showing he had a distinct recollection of his native place.

Dr. MacLaren said that one feature of the unveiling that deeply impressed him was the presence of the school children in a body and he hoped it might become an annual affair for them to gather and sing patriotic songs as they had done on that occasion.

COUNCILLOR MITERNEY

Councillor Miterny spoke feelingly of the motive which prompted the people of New Brunswick to erect a memorial to the memory of a great and good man, distinguished for so many reasons and so much virtue. Enquiring into the principle by which we would discern the real character of the man he said the evidence produced indicated the cairn was erected to a man of world celebrity, rather than to record an incident of the past which merely touched the memories or pride of a neighborhood.

Fire Proves Fatal To New York Actor

NEW YORK, Jan. 13.—Arnold Daly, actor and theatrical manager, was burned to death in a fire in his apartment on the fourth floor at 28 West 51st street, today.

The fire, origin of which is not known, swept from the ground floor up the stairway, cutting off the only avenue of escape.

Mr. Daly was 51 years old. He sprang into prominence in New York as the producer of plays of George Bernard Shaw, making his first stage appearance in 1892 with Fanny Rice in "The Jolly Squire."

STOMACH TROUBLES ARE DUE TO ACIDITY

Tells of Pleasant Home Treatment to Bring Swift Relief.

So-called Stomach Troubles—Indigestion, dyspepsia, gas, sourness, etc., are in reality nine cases out of ten, evidence of "too much acid in the stomach," souring the food, causing the formation of gas and starting acid indigestion.

Gas distends the stomach and causes a full, oppressive, burning feeling known as heartburn, while the acid irritates and inflames the delicate stomach lining. Get rid of Gas and Acidity, and you get rid of Indigestion.

To stop or prevent the sourness and gas, to neutralize the stomach acid and keep the stomach sweet and free from indigestion, a teaspoonful of four tablets of Bismarck Magnesia should be taken in a little water after eating or whenever gas, sourness, pain or acidity is felt. This quickly sweetens the stomach, neutralizes the acidity, stops the acid, and is harmless and inexpensive to use.

Bismarck Magnesia powder or tablets only can be obtained from any drug store and its daily use enables it to do its work without the aid of artificial digestants.

World News In Short Metre

MALDEN, Mass. — Leverett D. Holden, city clerk, is 83 and he never catches the grippe. A reporter recently asked him how he always kept his health and he told the scribbler that every morning during the late fall and winter months he puts a teaspoonful of sulphur in each shoe. The sulphur works up through the system and wards off colds, Mr. Holden explained.

NEW YORK — Heart disease ranks first today among the causes of death, and if nothing is done to check the present situation it will claim as its victims one-fifth of the present population. These were the figures given recently by a physician who has examined thousands of people for a leading insurance company.

OLYMPIA, Wash. — French markets were well supplied with horse meat recently when a steamer from Portland carried a thousand tons of the fresh meat to Chebogue. The meat was turned out by Columbia river horse packing plant.

NEW HAVEN, Conn. — A collection of 18 letters written by Washington Irving was turned over to Yale University recently as a gift from the alumni. The letters date from 1828 to 1830, and make the Yale collection of Irvingiana one of the most valuable of its kind in the country.

LONDON — The talkers of the House of Commons have been distanced. Chancellor of the Exchequer Winston Churchill is the man. According to the Parliamentary Gazette, he spoke 882 columns (about 160,000 words) of the Official Report from the beginning of the session in February to adjournment in August.

LONDON — The British Museum library has been growing out of bounds. Containing about 4,000,000 books and increasing by 30,000 to 40,000 books a year, the decentralization of the library is deemed necessary. It is the policy of the British Museum to publish and preserve every book published in Great Britain.

PARIS — The day of the skirt is passing, according to Paul Poiret, fashion dictator. The Muse of the costume world predicts that in 80 years women will be wearing a new and hygienic costume with long, straight, masculine trousers which will be the vogue, he predicts.

NEW YORK — The little boy who promised to become a genius used to be weak physically. Now L. M. Terman, the psychologist, who has studied 1,000 especially bright children, declares that if the gifted child shows any variation from the normal physical it is usually toward better physical or nervous condition.

ST. LOUIS — Missouri is the greatest egg producing state in the country, according to Gov. Sear. More than 181 million eggs were laid in Missouri in 1925. The proceeds from the sale of the eggs amounted to more than \$47,000,000 and the income from the sale of chickens for table use to about \$22,000,000.

FRANKLIN, N. C. — "Fiddlin' Jim" Corbin dreamed of finding a buried treasure buried in an old mine near his home. Next morning he went out and found the mine in the exact spot his dream indicated. Mrs. Corbin vouches for the story.

CEDAR RAPIDS — For twelve years Alvin Volderberg suffered from headaches. The other day, when he blew his nose, he found a hair which was a soldier in the Philippines 12 years ago when he was killed by a horse. The surgeon who operated presumably left part of a needle in his head.

LONDON — Lord Lincolnshire is 83, but he still can sing. Recently in a speech before the House of Lords he pointed out at the voice of a Liberator by singing part of the song, "God give the land to the people." The discussion was over a bill to provide better cottages for rural workers and increase small holdings and allotments.

PHILADELPHIA — Capt. John Peterson, veteran Sandy Hook pilot, tells this one: Once while his pilot ship was cruising for about waiting for the port bow. Then tigers! Then giraffes and hippos! Captain Peterson saw it with his own eyes, and so did the rest of the pop-eyed crew. Next day Johnny read in the paper of a merry-go-round being washed away to sea by a storm on the Jersey coast.

ANGLICAN DISPUTE AVOIDED IN CANADA

Bishop of Montreal Doesn't Wish to Talk of British Matter

MONTREAL, Jan. 13.—The controversy which is reported to be going on at a session of the Bishops of the Church of England in Canada. For this reason His Lordship Bishop Farthing of Montreal did not wish to discuss the matter when interviewed today.

"If, as the papers say, the matter of a change in the prayer book is being discussed by the two Houses of Bishops in England, Canterbury and York, it would be inopportune on my part to make any comment," His Lordship said. "In any event, no changes made in England would have any effect in Canada as only those changes made by our own general synod can have any authority in our church here."

AS A PROBLEM in simple arithmetic, we have always wanted to know how much is—

A nominal sum?

A ridiculously low figure?

A silver offering?

Your own price?

An enormous profit?

FORD COMPANY GROWTH SHOWN BY TAX APPEAL

Former Owners Deny Right to Extra Levy for Taxes

DETROIT, Jan. 14.—Contending that the Government in 1919 set an appraisal value of \$190,000,000 on the total Ford Motor Company stock of \$2,400,34 a share, and cannot now legally change the valuation, defense attorneys in the tax suit against former Ford stockholders have presented the record, documentary evidence bearing on the transactions which led to the valuation.

How \$28,000, which comprised the cash capital of the Ford Motor Company at its organization in 1909, grew to \$27,627,708 in surplus 16 years later, has been read into the records. It was the hearing on an appeal by nine former minority stockholders of the Ford Company from an additional assessment against their 1919 incomes totalling some \$800,000.

STORY OF FORD GROWTH OUTLINED

The story of the growth of the Ford Industries was told by Joseph W. Davies, former chairman of the Federal Trade Commission, representing the defense of the late John F. and Horace E. Dodge. The seven other applicants, including James Cousens (R.) Senator from Michigan, from whom the Government seeks an additional \$9,000,000 in taxes, agreed to let Mr. Davies' statement stand as their opening argument.

The struggle Mr. Ford made to reinvest the constantly growing profits of the company in the expansion plans was told by Mr. Davies, who also explained the rebellion of the Dodge brothers against this policy, a rebellion that resulted in a split in equity demanding a distribution of dividends of a surplus of \$22,000,000. The suit brought a distribution of \$19,000,000 of the surplus and led to the decision of Henry Ford to buy out all minority stockholders. A threat by Henry Ford to start a new factory of his own in 1919 after losing the Dodge brothers suit, forced them to sell out to Mr. Ford, Mr. Davies declared.

The whole matter, according to a statement by Mr. Davies is to get into the record the number of times the Internal Revenue Department recognized the valuation of \$190,000,000 set by Daniel C. Roper, then commissioner. It occurs that the histories of the transactions 58 times, he said.

FIGURE SET PRIOR TO 1919

This figure was set before the sale of the stock to Henry Ford in 1919 and had it not been agreed to by the sale would not have gone through, the defense attorneys declared. In support of their assertion they prepared for evidence a portion of the history of the tax transactions of the Dodge Brothers, Horace H. and John F.

Prior to the sale of the stock to Mr. Ford, according to the document, the Michigan Surplus and the Michigan Dodge Brothers, representing the minority stockholders. The Dodge share was \$8,978, but the Government collected \$388,634.39 as its share. The amount was paid under protest, the Government in a special hearing affirming the correctness of the accounting and the legality of the action.

With this lesson fresh in their thoughts the stockholders refused to sell to Mr. Ford in 1919, the document declared, until assured of the value the Government intended to place on the stock for taxation, this objection it was declared, brought about the appraisal by Mr. Roper, then commissioner, and the subsequent fixing of the \$190,000,000 valuation, which the shareholders are now attempting to uphold.

ORIGINAL FORD SHAREHOLDERS

The original Ford Motor Company stockholders and their investments in 1909 follow: Ford, Henry, 255 shares for his patents, machinery, etc.; Malcomson, Alcey V., 255 shares for his half interest with Ford in same machinery, etc.; Gray, John S., banker, 105 shares, \$10,500 cash.

Dodge, John F., 806 shares, giving him note at three months for \$5,000; Dodge, Horace E., 60 shares, giving him note at four months for \$5,000; Strelow, Albert E., 50 shares, sold to J. Cousens in 1907 with 31 shares of Ford Motor of Canada for \$25,000; Fry, Vernon C., 50 shares, paying \$5,000 cash and \$20,000 in note; Bennett, Charles H., 50 shares, giving note for \$5,000.

Rackham, Horace E., 50 shares, \$5,000 cash and \$1,400 note; Anderson, John W., 50 shares, \$5,000 cash, which he borrowed; Cousens, James, 25 shares, giving \$1,000 cash and \$1,400 note; Woodbury, Charles J., 10 shares, giving \$1,000 note.

Mr. Strelow's stock and 15 shares, bought from Mr. Bennett and Mr. Fry for \$17,600, passed to Mr. Cousens. Mr. Ford bought out Mr. Malcomson, who had started on the rival Aero Car Company, in 1905, for \$200,000 and later bought in the shares of Mr. Strelow.

Let Nature stop chronic constipation

Here's sensible relief for you

If your stomach is weak, your bowels are not getting their share of food and you are suffering from constipation, it is not your fault. It is the fault of the stomach and bowels. Get them into normal condition with Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is a gentle, safe, and effective remedy for all cases of constipation. It will not only relieve constipation but remedy the cause—a weak stomach. Get them at your druggist's, or send 25c to Chamberlain Medicine Co., Ltd., Toronto, Canada.

JOINT MEETING ON INDUSTRY NOW PLANNED

Would Talk Over Proposals to Equalize Wages

LONDON, Jan. 13.—While the industries of Great Britain are lamenting the worst trade year ever experienced, the Federation of British Industries is planning some far-reaching schemes for the development of international co-operation in industry throughout Europe.

The latest step in this direction is the projected conference between the British and French industrial magnates, who have summoned an important gathering which will meet in London, Jan. 18.

At the close of his recital Dr. H. F. Munro, superintendent of education in Nova Scotia, paid the poet a high tribute as one performing a "great work for Canada."

"The thing that surprises me most about Wilson MacDonald," declared Dr. Munro, "is his profundity of thought. I knew he was a great lyric poet, an interpreter of beauty and nature, but I did not before realize the strength and depth of his work."

Woodall and 68 shares held by Mr. Bennett and Mr. Fry.

The total capitalization was 1,000 shares of \$100 each. The total actual cash paid in \$28,000. On the basis of \$12,500 paid by Mr. Ford in 1919 for all the minority stock, which had been increased by a stock dividend of 1,900 per cent, the original \$100 shares had risen in value to \$230,000 each and had received in cash dividends up to 1919 an even larger sum per share.

Toronto Poet In Halifax Recital

HALIFAX, N. S., Jan. 13.—Wilson MacDonald of Toronto, author of several volumes of poetry, opened a Maritime lecture and recital tour here tonight before a large audience.
