INSTALLS CULLUM LODGE OFFICERS

New York, Dec. 14.—From Fiftieth street and Broadway out to Long Island and moviedom will all agree with the news that Rudolph Valentino and the Famous Players-Lasky Corporation have patched up their differences.

The most famous of all the make-believe shies, according to a report that appeared to be quite authentic, will return to the Famous Players-Lasky fold early next February and in the 12 months following will be starred in two big pictures.

At the offices of the movie concern inquiries were told that confirmation or denial of the story "must come from Mr. Valentino." That gentleman is on the high seas, bound for Europe.

ITALY HOPES TO WIN THIRD PLACE

Commissioner Finzi Says They Have the Spirit and Determination.

Rome, Dec. 14.—(By the Associated Press).—Italy expects to take third place in the next Olympic games, according to Aldo Finzi, vice commissioner of aerobatics.

"We have got the spirit and the determination, stimulated by the enthusiasm of Premier Mussolini for Italy's success in the games," Signor Finzi continued. "The Italian government has voted almost a million lire for the preparation of our athletes, who are working hard to win third place. Naturally we do not expect to beat Americans; but we are ready for any others. We have a fine athletic spirit throughout the country and in the army. We expect to discover some fine material among the soldiers, who are now under skilled athletic instructors who are scouting for good Olympic material."

Throughout Italy there is keen competition among the athletes to win the trophy offered by Richard Washburn Child the American ambassador to the athletes of the city making the most points in the preliminary Olympic contests.

HALIFAX PORT BUSY

The stern competition among the great Atlantic shipping companies is proving of great benefit to Canada, says the Montreal Gazette. With the tightening of immigration restrictions in the United States, and the resulting diversion of much of the flow of third class travel to Canada, the big lines of the Atlantic hitherto unconnected with the Dominion are establishing direct services to Halifax. The first service of this nature was announced some time ago by the Scandinavian-American Line whose ships will run direct from Copenhagen to Halifax and thence to New York.

On the heels of the Scandinavians now have come both French and British. The French Line beginning with the November 22 departure of the liner La Roudonnais from Bordeaux, will make regular westbound calls at Halifax en route to New York. With La Roudonnais in this service will be La Roussillon. Both are cabin steamers. The third line to turn to Halifax is

the Royal Mail Steam Packet Company which in the spring will inaugurate a similar connection with the Dominion. The Ohio, a new steamer with three first sailing, leaving Southampton and Cherbourg for Halifax February 7. The Orduna and the Orbita, cabin steamers will operate over the same route. From Halifax they will go to New York, and thence back to Europe.
