Higher Ferry Fare Held Up In Council

Resolution Calling For Investigation Into Ferry Matters Referred to Committee For Consideration—No Paving Under Local Improvements Act

At the meeting of the common council yesterday afternoon, when the matter of an increase in the fare for transient passengers of the ferry came up, Commissioner Jones presented a resolution, as follows:

Whereas the commissioner of harbors and ferries has deemed it necessary to increase the fares on a certain class of patrons of the ferry, by reason of an annual deficit in the branch of the department; and

Whereas, the said ferry should be considered a public highway and the most modern method in its management and control as are consistent with the conditions; and

Whereas, it is of vital importance to the side property owners and residents there, as well as to the ratepayers generally, that adequate facilities should be provided consistent with the reasonable demands of all concerned; and

Whereas, our citizens have by a large majority expressed their desire for the construction of a bridge across the harbor; be it therefore

Resolved, that the common council appoint a committee of three of its members with power to hold a public inquiry forthwith, under oath, if such committee should think it necessary, to so hold it for the purpose of reporting to the council as a whole as to the advisability of further continuing the present system under which the ferry is operated and managed, and generally to investigate the method adopted in the upkeep, operation, management and control of same, and to inquire into any and all transactions heretofore and at present in connection with such upkeep, operation, management and control; such committee to be empowered to hear voluntary witnesses as well as to summon all necessary witnesses; and further, to inquire into and take evidence in respect to the cost of construction, by whom such cost should be borne, and on what basis, and as to the immediate need of a bridge across the harbor, and further

Resolved, that until such committee

Dangerous Antiseptics And Germicides Are Unnecessary

A dependable antiseptic has come to be considered a necessity in most homes. Especially is this true since Absorbine, Jr., has had such a wide introduction, because this liniment is not only a powerful antiseptic and germicide but it is absolutely safe to use and to have around the house. It is not poisonous and it cannot do harm even if the children do get hold of it. That is a big point to consider.

Absorbine, Jr., is concentrated and is therefore economical. It retains its germicidal properties even when diluted one part Absorbine, Jr., to 100 parts water—and its antiseptic properties, one part Absorbine, Jr., to 200 parts of water. The antiseptic and germicidal properties have been repeatedly tested and proven in many prominent chemical laboratories. Detailed laboratory reports will be sent upon request.

Absorbine, Jr., combines safety with efficiency. \$1.25 a bottle at most drug stores or postpaid.

reports as above required the rates which were in force on Jan. 1 of the present year shall remain in force.

Mr. Jones said he was casting no reflection upon the commissioner or the ferry superintendent, but his course was merely to satisfy public criticism.

The various commissioners said they were not prepared to second or discuss the motion of Mr. Fisher, and the mayor believed it was one deserving of much consideration. On motion of Mr. Fisher the resolution was referred to committee for consideration.

Mayor Hayes presided, and all the commissioners were present. The report of the committee of the whole was taken up section by section. Robert Roberts' Sons were awarded the contract for clearing the ferry approaches, West Side, and driving the piles required, \$16,569.20 for sheathing, and \$4 per pile. His worship was asked to petition the provincial government for \$300,000 of the housing fund. Instructions were given to issue a deed to James Joseph Goldie, of the Lodge House, and not belonging to the city in Lancaster, after the usual conditions were fulfilled.

The Lordly house, in Lancaster, was released to George S. McPherson for \$20,000. The next, at the present rental of \$150. The commissioner of public works was authorized to increase the pay of paving, crusher and temporary foremen, they having been excluded in general increases in the department last year. The estimates for water construction in East St. John were increased from \$60,000 to \$85,000. Mr. Fisher was given authority to act in connection with the petition of the Royal Garage, Waterloo street, for permission to erect a gasoline station in front of the place.

The Proposed Ferry Increase.

The one section on which the council disagreed was the recommendation that the ferry rate to transients be five cents. Mr. Jones said that his investigation found that the current fare was unpopular. Mr. Fisher was opposed to the move and criticized Mr. Bullock for bringing such an important matter so suddenly before the board without notice.

Mr. Fisher was inclined to feel that the move was not a wise one. Following these remarks Mr. Bullock set forth how he proposed by the increase to reduce the annual deficit by \$10,000. Most of the transient trade was from strangers, and he did not wish the city should suffer a loss in furnishing them with accommodation. He also went into detail regarding the increase in the cost of the ferry.

The original motion was lost, but another motion was immediately made by Mr. Fisher that the question be sent back to committee. No second was called for, however.

Paving. The petition from the residents of Prince William street, protesting against the paving of the street under the local improvement plan, was referred to Mr. Fisher.

Mr. Bullock was anxious to know whether the protests regarding proposed paving work were fully in order. Mr. Fisher replied that he was fully convinced he could not proceed with paving work under the local improvement plan.

On the recommendation of Mr. Bullock a renewal lease was ordered issued to the administrator of the late J. Wesley Stevens' estate for lots 8 and 9 on the school lot, Lancaster, for seven years from May 1 at the present rentals, \$19 and \$22.50 per acre respectively.

J. A. Barry notified the council that on behalf of Mrs. Thomas Treacart, injured in the recent ferry accident, he was making claim for damages.

George Carwill asked what step had been taken in reference to his appeal for permission to erect a garage in Cliff street. Mr. Thornton, to whom the matter was originally referred, said he was not in a position yet to make a report.

The council received from the city council of Hamilton, Ontario, a copy of a petition which is being sent to the governor-general, asking that the manufacture, sale and importation of oleomargarine be allowed to continue. On motion of Mr. Bullock it was decided to adopt the petition and forward it as requested.

The election of Robert Cunningham as captain of No. 2 Salvage Corps and William M. Brown as a member, was approved by the council.

A letter was received from Walter Irving and Frank Lord protesting that Mr. Belyea had erected a weir on property in the harbor which was not sold at the annual auction of fishing rights and that he was interfering with their catches.

Mr. Bullock characterized the claim of Messrs. Irving and Lord as justifiable. He said that J. F. Belyea had leased the lot from the city for \$5 per year for seven years for the purpose of building a wharf or something in connection with a sardine plant. He had now erected a weir on it and consequently was getting for \$5 what those near him were paying \$1,700 or \$1,800 for. Mr. Bullock said he took the matter up with the city solicitor and it is to be aired in court. The contention of Mr. Belyea, he said, was that he had leased the property and was entitled to use it for any purpose he desired.

The commissioner asked that his course be approved. This the council did.

Tired, Nervous Women What You Need is Vinol

The reason we recommend Vinol so strongly for such conditions is because it is a non-secret remedy which contains Beef and Cod Liver Peptones, Iron and Manganese Peptonates and Glycerophosphates, the very elements needed to build up a run-down system and replace weakness with strength.

HERE IS PROOF
Glasgow, Jct. Ky. "I was suffering from a nervous breakdown—loss of flesh and poor appetite so I could hardly drag around and do the work for my family. My doctor prescribed Vinol. It not only gave me a wonderful appetite, I sleep well, have gained in weight and have gained in weight."—Mrs. S. M. Gray.

For all run-down, nervous, anemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.

By all means, girls, prepare a lemon lotion to keep your skin flexible and young looking. You will soon realize that true loveliness does not mean the powdery-look or waxen colorlessness of some hot-house flower, but is typified by the velvety softness of your skin, free from the bloated or heavy lumpy feeling that seems to follow most everything you will find that, provided you take a little balsamic magnesia immediately after a meal, you can eat almost anything and enjoy it without any danger of pain or discomfort to follow and moreover the continued use of the balsamic magnesia cannot injure the stomach in any way so long as there are any symptoms of acid indigestion.

Lovely White Skin!
Strain lemon juice well before mixing and massage face, neck, arms, hands.

At the cost of a small jar of ordinary cold cream, you can get a full quart of the most wonderful beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of water. The lemon juice should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan, and is the ideal skin softener, smoothen and beautifier.

Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quart of this very fragrant lotion and massage it daily into the face, neck, arms and hands. It should naturally help to whiten, soften, freshen and bring out the roses and hidden beauty of any skin. It is simply marvelous to smoothen rough, red hands.
