VERY HEAVY LOSS IN TORONTO FIRE

Blaze at Harris Abattoir Plant Extinguished This Morning

Toronto, April 16.—With half a million dollars worth of packing house food-stuffs destroyed or seriously damaged, and another quarter million of destruction among plant and buildings, a fire which burned fiercely at the Harris abattoir plant here last night, was finally got under control and practically extinguished this morning. Several hundred men and women were temporarily thrown out of employment by the fire, but some of the buildings of the plant were saved, and will be in operation again immediately.

The police are investigating reports that mysterious explosions preceded the outbreak of the fire, which apparently started in the St. Ann's Laundry.

Seven men convicted of liquor swindles in New York State, are alleged to have victimized liquor dealers to the tune of \$500,000.

Had Bronchitis FOR THREE YEARS COULD GET NO RELIEF

Bronchitis is generally the result of a cold caused by exposure to wet and inclement weather. It begins with a tightness across the chest, difficulty in breathing, and a wheezing sound comes from the lungs. There is also a raising of phlegm from the lungs, especially in the morning. This is at first white, but later becomes of a greenish or yellowish color, and is occasionally streaked with blood.

On the first sign of bronchitis you should check it immediately by using Dr. Wood's Norway Pine Syrup, and thereby prevent it becoming chronic and perhaps turning into some serious lung trouble.

Mr. Theodore P. Boers, Upper Main River, N. B., writes: "I was troubled with bronchitis for three years and could get no relief. I was always worse when I got wet. I tried lots of different medicines, but none did me good until a friend told me to try Dr. Wood's Norway Pine Syrup. I got three bottles and before I had them half used I was better."

"My mother is now using it for asthma. It is a great medicine and we never want to be without it."

Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper, three pine trees the trade mark; price 25c. and 50c.; manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

RATTLING GOOD BILL AT GEM ENJOYED

Verdi Trio Sing Way to Hearts of All — Other Excellent Vaudeville and Big Picture

One of the most enjoyable vaudeville acts presented here in a long time is that of the Verdi Trio, woman and two men, who are singing and playing their way into the hearts of all Gem patrons this week. The woman has a rich soprano voice, heard to advantage in such numbers as "The Last Rose of Summer." One of the men, a baritone, sings with excellent taste and in good voice and the other a tenor, is blessed with a surpassingly pleasing voice and sings artistically. The men include popular airs as well as operatic gems in solo and trio and accompanied by mandolin and guitar. The stage picture is very pretty and an element of comedy rounds out the act. It has been scoring a big hit.

Wilbur and Dolls provide another good turn. The man is an exceptionally good ventriloquist and his act is different from any ever seen here. He plays a policeman and is brimful of comedy. The close of his act is a striking surprise. Ben Dorhan, in an excellent comedy monologue, has been pleasing the Gem audiences. He has a good style, is an excellent story teller and has a good variety.

Gerfield and Smith are a chipper pair, man and woman, in a sprightly double act full of bright quips. The picture is "Man's Woman," in which that sterling actress, Ethel Clayton, is starred. It has to do with a wife who was pampered and petted and whose household was ruled by her husband's maiden aunt. But she asserts herself and as she does so makes a very bright picture story. It is of five reels.

The Gem will carry this programme until including Thursday night, with all changed on Friday afternoon.

Six Machine Guns Fired By Single Operator

To increase the deadliness of the machine gun, an American inventor has come to the fore with an apparatus that enables from two to six of the weapons to be handled by one operator and two assistants. The rifles can be fired separately, in groups, or simultaneously, as conditions dictate. They are mounted in a rack and controlled by different devices that regulate their respective elevations, ranges, and rates of fire. With the contrivance it is possible for one gunner to sweep six targets of varying ranges at the same time, or concentrate the whole fury of the battery upon one of them. The mechanism is shown in detail in the April Popular Mechanics Magazine.

GALLANT WORK OF FIFTY-FIFTH

West Lancashire Territorials
Won Glory at Giverny

BELITTLED BY GERMANS

Enemy Order Described Them as
Second Class Troops but Found
Out Mistake in Series of Attacks

London, April 15.—(By Reuter's Ottawa Agency)—The following official supplementary despatch has been received from Reuter's correspondent at general headquarters, anent the work of the 55th Division at Giverny, April 9 to 14:

"On the morning of the German attack on April 9 the 55th West Lancashire Division of Territorials was holding a front of about 600 yards, extending from La Bassee Canal to just south of Richebourg-Laveue, where the line joined that held by the Portuguese."

"The enemy's attack on a portion of this front was delivered by all three battalions of the fourth Ersatz division, which was well up to strength. A captured divisional order issued by the general staff of this German division, dated April 6, shows that the objectives were the ground and British positions in the triangle formed by Giverny, Festubert and Gerre."

"The following passages in the captured order are of special interest: 'In the attack our three regiments will be opposed by at the most six companies in front and at the most two reserve battalions in Festubert and Giverny. One battalion in divisional reserve is south of La Bassee Canal in Lepreol. It will be prevented by our powerful artillery fire from taking part in the fighting for Festubert and Giverny. These troops are elements of the English 55th Division, which, after being engaged on the Somme, suffered heavy losses in Flanders and at Cambrai and is described by prisoners of March 1918, as a division fit to hold a quiet sector that is below average quality.'"

"The order was distributed among all officers and under officers of the fourth Ersatz division down to the platoon commanders, presumably with a view to encourage the troops prior to their attack and in the belief that the opposition would not be very serious. If this was his expectation the enemy was most signally disappointed. Throughout the early part of the morning of April 9 the 55th division beat off all attacks in the forward zone and maintained the line intact. Later, when the German infantry had broken through the Portuguese positions on its left, the division formed a defensive flank, facing northeast on the line of Giverny-Festubert to the neighborhood of Letouquet. This line it maintained practically unchanged until relief, through six days of almost continual fighting, beating off repeated German attacks with the heaviest enemy losses and taking nearly 1,000 prisoners."

"During the first day of the attack the enemy forced his way into Giverny and Festubert. Both lines were soon afterwards regained by the 55th division as a result of a highly successful counter-attack in which several hundred Germans were captured. All further attempts of the enemy to regain the positions broke down before the resolute defence of the 55th. Though he succeeded on the 11th in entering a post north of Festubert, he was thrown out again by a counter-attack on the night of the 12th and the 55th improved its position in this

Is Proud of Her Fine Little Girls

WHY MADAME PEPIN IS GRATEFUL TO DODD'S KIDNEY PILLS.

Quebec Lady Tells How Her Children Were Cured of Childhood Weakness and Made Strong and Well.

St. Honore, Chicoutimi Co., Que., April 12.—(Special).—"I have two fine little girls, thanks to Dodd's Kidney Pills, and I can't tell how grateful I am."

It was out of a full heart that Madame Pierre Pepin, a well-known resident of this place, uttered these words. "I have given Dodd's Kidney Pills to my two little girls," she added, "and now they sleep well and do not wet the bed. They are perfectly cured."

Whether or not kidney disease is hereditary, the fact remains that many children suffer from weak kidneys that are unable to do their full work of straining all the impurities out of the blood. The result is that many parents wish their children, when they really need it, a remedy for their kidneys. Dodd's Kidney Pills have been used in Canada for over twenty-five years as a kidney remedy. If you don't know of the great work they are doing, ask your neighbors.

Alkali in Shampoos Bad for the Hair

If you want to keep your hair looking its best, be careful what you wash it with. Don't use prepared shampoos or anything else that contains too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary mulled coconut oil (which is pure and greaseless), and is better than anything else you can use. One or two spoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mulled coconut oil at any pharmacy; it's very cheap, and a few ounces will supply every member of the family for months.

Dandruff Soon Ruins the Hair

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't. It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to destroy it, then you destroy it entirely. To do this get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

To Quickly Remove Ugly Hairs From Face

(Beauty Notes.) Beauty-destroying hairs are soon banished from the skin with the aid of a delicate paste, made by mixing some water with a little plain powdered delatone. This is spread upon the hairy surface for 2 or 3 minutes, then rubbed off and the skin washed to remove the remaining delatone. This simple treatment banishes every trace of hair and leaves the skin without a blemish. Caution should be used to be certain that it is delatone you buy.

neighborhood, capturing a German post and taking several prisoners.

"Next afternoon, the enemy bombarded the whole front held by the division between Gerre and the Levee Canal. Subsequently he attacked in force and was once more repulsed with heavy loss

by the most gallant and successful defence of the division which he had been pleased to describe as second class troops."

Poultry Pays Him.

Bowmanville, Ont., April 16.—Farmers in Durham county are raising more poultry than ever before, and at the same time going more into dairying, as Toronto affords an excellent market for the product of both lines of farm industry. Records are common of how poultry

pays well the farmer who breeds the more profitable kinds. The latest to claim attention is this: W. J. Stark of Starkville, Clarke township, sold a crate of twelve hens for Toronto Easter market at an average of \$2.50 each bird. They were from a flock of 125, which laid 1,450 dozen eggs in ten months last year. Mr. Stark's financial returns from the eggs and poultry sold last year netted him \$876.72.

Lord Aberdeen—"The American troops are men to be proud of. They show by their features and bearing a determination to cope with duty in its every phase, which portends well for the glory of their country and for the success of its cause."
