AT MOOSEPATH PARK.

The Annual Fair Yesterday was a Success.

The annual fair of the St. John Agricultural Society was held yesterday at Moosepath park. There was a large attendance of exhibitors and spectators and the exhibits themselves were very creditable. Something like 200 cattle of various breeds and all known ages were shown. There were 80 Ayreshires, 35 of the animals being milch cows. Of the 50 Jerseys some 25 were milch cows, and the proportion was about the same with the grade cattle. There was a good horse exhibit. Sheep and swine were present in large numbers. Poultry, turkeys, ducks and geese were not greatly in evidence, but the specimens shown were good. The display of roots and vegetables was smaller than on

some former occasions. Many fine potatoes were to be seen in the hall under the grand stand.

The farmers' horse race was watched with interest, and there was hot work, although no records were damaged. The summary follows:

Lady Mac, b. m., Thos. Hayes.....1 1 1
Sorel Jim, c. g., J. Fred Stevens.....2 2 2
Beatrice, b. m., J. C. Hatheway.....3 4 3
Maud C., ch. m., Thos. Clark.....4 3 4
Time—3:02, 3:08, 3:02.

The first prize was a blanket and the second a whip.
Dr. T. F. Johnston was the starter and S. T. Golding, H. McMonagle and H. J. Fleming judges and timers.

The hundred yards dash open to all farmers was an amusing event. Lawrence Donovan got first prize, a pair of rubber boots, and James Moreland second, a hat. B. V. Millidge was third, but there was no prize for him.

ENGLISH LABOR UNIONS

Compared With Those in America
—Co-Operative Societies
Doing Good.

CHICAGO, Sept. 25.—After four months spent in the investigation of labor unions and their effects on production in England, Prof. John H. Gray, of North Western University, has returned to Evanston. While he returned to give out the specific results of his mission until his complete report had been placed in the hands of the United States commissioner of labor, Carroll D. Wright, he admitted that surprising new light would be thrown on the subject by the statistics gathered abroad.

"English labor organizations are much stronger than our own," said Prof. Gray last night. "The members much better and there is less internal strife to defeat the aim of the union. As a result these bodies are able to accomplish much more than their prototypes in this country. The laboring men in England, as distinct from his organization, on the other hand, is worse off than in this country. This is partly due to his own shortcomings, for he is not as capable as the American workman. Co-operative societies are doing great work in England for the toilers. That they are a wonderful success is indisputable."

ROOSEVELT SCORES.

His Attitude on the Trusts Heads Off a Big Combine.

CHICAGO, Sept. 24.—The combination of the great packing houses which has been under consideration and process of actual formation, for the last six months, has been abandoned, at least for the present, says the Tribune. The decision not to complete the combination is due in a large degree to the attitude of the national administration towards trusts as outlined by Pres. Roosevelt in his recent speech, and to the possibility that in the event of a consolidation congress might remove the tariff on cattle. It was learned last night that final negotiations with the firms known as the Big Four packing houses in Chicago had been held, at which it was agreed to end all negotiations at once. This was followed by an order issued from the office of Swift & Co., that the firm's employees should immediately discontinue the inventory of property and stock, which had been ordered, and started for the purpose of tabulating a report of the financial condition of the company which was to have been used as a basis for the division of shares in the combine.

RIOTOUS STUDENTS.

One Jailed and Others Likely to Follow Him.

BERKELEY, Calif., Sept. 25.—As a result of a riotous diversion by students of the University of California, one of their number, Winfield Reed, of Santa Barbara, Calif., is in jail on a charge of felony, and others are likely to be incarcerated.

During a big rally to the football team, about 500 students took possession of a local train, put out the lights, turned on the hand brake and demolished the entire furnishings. Reed was detected in the act of putting on the hand brake and was arrested. The students rushed to his rescue and a desperate fight ensued, but he was placed in jail. The students tried to storm the place, but were repulsed. President Wheeler, of the university, said that he saw no reason why the law should not take its course in Reed's case, as his offense was serious. Other arrests are probable.

GOODSPEED

Will Come Up For Trial at the Next Session of Court.

Charged With Being an Accessory in the Murder Case and Burglary—Mr. Mullin Will Be Heard Tomorrow.

Fred W. Goodspeed will not be tried before the court. He will answer to the charge of being an accessory after the murder of William Doherty, and of burglary, at the next session of the court in this city the third Tuesday in November. His Honor Judge Hanington sitting.

The prisoner was not brought into court this morning as Mr. Shorty after ten o'clock Judge Landry asked Mr. McKeown what the next case was. "The King v. Fred Goodspeed," said the crown officer.

S. E. Morrell, who is acting for the prisoner, rose and said that in view of the fact that an appeal was taken to reserve the Higgins case and the uncertainty of the result, and because it was his intention to bring witnesses in from outside, he would make application for the trial to go over until the next court. Goodspeed was indicted as an accessory after the fact and if the case should be appealed, it might make a material difference.

"It would appear to me," said Judge Landry, "that the presentment of evidence would be very short work, unless the crown officer decided to go all over the case again in order to prove to a new jury that there was a principal in the crime."

Mr. McKeown expressed the opinion that the case would not be without its difficulties. The counsel for Higgins can be heard before the supreme court as to an appeal. While personally Mr. McKeown did not see where any grounds for appeal could be found, it was impossible to say what view the court which would sit in November might take. It would, perhaps, not be well to go on with the trial of Goodspeed while this appeal was hanging.

"Further," continued Mr. McKeown, "on Goodspeed's own evidence, he has committed a burglary, and for this the crown will put him on trial. For this he has not yet been indicted and no bill has been found. To bring this matter before the grand jury would cause some delay. The best course appears to be for the crown to assent to Mr. Morrell's application that the case go over until the next sitting."

Judge Landry agreed that a little delay of that kind might clear matters up.

Mr. Morrell—I would like all the indictments against the prisoner to be tried at the same time."

"The trial of Fred Goodspeed is postponed until the next session at the request of his counsel," said his honor.

The special panel of jurymen called to try the criminal cases was then dismissed. His honor said that tomorrow morning he would hear Mr. Mullin's argument in regard to the Higgins case, and the non-jury case of Murphy v. Kelly would also be taken up and disposed of. The other cases on the docket were dismissed and the court adjourned until tomorrow at ten.

A RAID IN CHICAGO.

Matrimonial and Turf Commission Agencies Rounded Up.

CHICAGO, Sept. 25.—Five matrimonial agencies and two "Turf Commission" offices have been visited by a detail of detectives from Chief O'Neill's office. Both commission bureaus were looted of their contents, and three men were placed under arrest. Three other men and one woman, for whom the police had warrants, evaded arrest. Detective C. R. Woodbridge, who was in charge of the raid, believes there is a matrimonial and gambling "trust" controlled by the same men and operating many branches under various names. In some cases corporate names have been assumed and the literature issued states that these concerns are incorporated.

The "Turf commission" offices were those of the Armstrong Baldwin Co. and the Douglas-Daly Company. The matrimonial agencies visited were the Bell Advertising Agency, C. L. Wells, alias C. L. Weller, Unity Publishing Co., Loretto Publishing Co., and J. S. Main.

The literature of the "Turf Commission" was similar, and the letters found in the various matrimonial offices also were so similar as to suggest a common author, and the same photographs of handsome women and prosperous appearing men were found in use in the several agencies.

WITH DYNAMITE.

Blew Up a Hotel and Then Committed Suicide.

WASHINGTON, Sept. 25.—The Gold Eagle Hotel, on the corner of New Jersey Ave. and D. street was dynamited early this morning. It is alleged, by Frank McKee, one of the guests, who subsequently committed suicide. Between twenty and thirty guests were thrown from their beds by the explosion, but only the proprietor, Louis Brandt, and his wife, were injured, the latter seriously. The roof of the building was blown off and the falling wreckage crashed through to the basement, leaving the structure as if wrecked by a tornado. Every pane of glass in the building and the adjoining structure was broken. The explosion called out the fire department. The affair is involved in some mystery. The proprietor gave a banquet last night in honor of his wife, who had just returned from Germany, and McKee was a guest. During the evening McKee quarrelled with the former's attorney, Mrs. Brandt, and McKee left the hotel with threats of revenge. He returned about four o'clock and is said to have exploded the dynamite in the room above that occupied by Brandt and his wife, subsequently shooting himself in the head. McKee was about 28 years of age and it is said was in fairly good circumstances. He came here several years ago from Philadelphia.
