

EIGHT

THE STAR, ST. JOHN, N. B. TUESDAY, JUNE 11, 1907

A CUSTOMER'S REASONABLE WISH IS THIS STORE'S PLEASURE.

F. A. Dykeman & Co

That Window Full of Dollar Shirt Waists

is creating a furore in the waist trade. Customers say that they cannot find anything near as good in many of the other stores at less than \$1.50. They are both long and short sleeved, buttoned in front and in back, trimmed with lace, insertion and embroidery, also some with Swiss embroidered fronts and lots of tucking. The sizes run from 32 to 44.

We Have an Important Announcement For You.

We were the successful tenderers for the E. W. Patterson stock of Dry Goods and this stock will be placed on sale by us either at the store where it now is, or at our own store, just as soon as we can get it in shape. It has been bought at a price that will enable us to sell it at one-half what the goods are worth.

THE WEATHER.

Forecast—Fresh to strong northeast and north winds; cloudy to fair; continued cool today and Wednesday. Synopsi—The relative distribution of pressure remains unchanged, but the disturbance centered south of Sable Island has increased in energy. The weather is warm in the western provinces and decidedly cool from Ontario to the Maritime Provinces. To Banks, strong northeast and north winds; to American ports, fresh northerly winds. Sable Island, Northwest, 32 miles, cloudy. Point Lepreaux, northeast, 29 miles at 11 a. m. Highest temperature during last 24 hours, 53. Lowest temperature during last 24 hours, 42. Temperature at noon, 53.

LOCAL NEWS.

The body of the late Michael Gillen was this morning taken to Charlottetown, P. E. I., for interment.

The Marathons and Portlands will meet on the Victoria grounds this evening in a game of the Amateur League series.

The police have reported that Thomas Dunlop's house of Union street is in a filthy condition. This is the second time that such a report has been made.

Housecleaning is on in full swing at City Hall. Today women are employed in the mayor's office at washing and cleaning. The carpet has been taken up and will be cleared.

Miss Josephine Rogers of the west side, who is training at the Chipman Memorial Hospital, St. Stephen, arrived home yesterday to spend her vacation.

A young man named Walsh was in court this morning charged with driving a horse through the ranks of the Boys' Brigade a few evenings ago. As Col. Buchanan did not wish to press the charge Walsh was allowed to go.

John Redfern, who was injured while at work on the new Royal Bank building yesterday is resting easily today and no serious results are now anticipated. He will be able to resume work in about a week.

The funeral of the late Mrs. Eliza Vincent took place at 2.30 o'clock this afternoon from her late residence, Richmond street. Rev. Mr. Comben officiated and interment was in Fernhill.

All N. C. O's and men of No. 7 C. A. S. C. who have not signed the service roll are requested to do so this evening or Wednesday evening, as it is important that the names of all members be on the roll by the time stated, as the list must be forwarded to headquarters.

About 5.30 o'clock this morning an alarm was sounded from box 123, Main street, North End. Chief Kerr and the department responded promptly, and were not in the best of humor when they learned that Michael Durick had pulled the hook and gave as a reason for doing so that his horse was cast in the stall. Durick has been reported by the police by Chief Kerr and Wellington H. Dunham for ringing in a false alarm.

SENDING THE CORRECT TIME TO SHIPS AT SEA

Apparatus Designed in St. John for Use in Connection With Wireless is Now in Operation.

The following notice to mariners has been issued by the department of marine and fisheries at Ottawa:—The Meteorological Service of the Dominion of Canada is now sending time signals from the observatory at St. John by telegraph to the wireless station at Campobon where special apparatus has been installed to automatically transmit the signal to ships at sea within the zone of that station. Time signals will be sent each week day morning as follows:—Beginning at 5h. 58m., a. m. Atlantic time, dots are made and second up to and including 5h. 58m. 57s., then a pause of two seconds, followed by a dot at 5h. 58m.; then another pause of two seconds for 1/2 sec.; the clock then makes dots each second up to and including 5h. 59m. 56s.; a pause is then made, followed by a dot at 5h. a. m. Atlantic or standard time of the 60th meridian west longitude, equivalent to 2h. p. m. Greenwich mean time.

The electrical apparatus to repeat the clock signals from land to wireless was devised at the observatory here and tested at the Partridge Island wireless station before its installation at Campobon. These time signals are transmitted automatically from the primary mean time clock at the observatory here by Western Union land line through Halifax to Campobon, thence by wireless over that part of the Atlantic within the wireless zone. Ships at sea equipped with the wireless apparatus will thus be able to obtain the exact time for comparison of chronometers and to determine their longitude without a doubt.

NOT SO VERY MUCH COLDER THAN LAST JUNE

Temperature for the Past Ten Days Only One Degree Lower Than Last Year—Warmer Weather Coming.

The weather continues to remain cold and many citizens have been heard to remark that this has been the coldest June weather for many years. They may be right but on looking up last year's record it is found that the spring was equally backward and the first few days in June were nearly as cold as they have been this year. The following is a table showing the temperatures for the first ten days of June for 1906 and 1907:

	June, 1906.			June, 1907.		
	Max.	Min.	Rain.	Max.	Min.	Rain.
1	62	46	0.02	56	38	0.01
2	67	46	0.01	60	42	0.01
3	60	48	1.29	60	48	0.01
4	60	49	0.01	65	40	0.01
5	68	49	0.01	62	48	0.01
6	68	48	0.24	66	48	0.25
7	66	44	0.01	62	50	0.01
8	55	47	0.01	60	46	0.02
9	51	46	0.01	52	48	0.10
10	54	47	0.01	56	44	0.01

The mean temperature for the first ten days of June, 1906, was 53.6 and for the first ten days of June of this year 52.5.

The first thunderstorm of the season came on June 3rd last year. Thunder was heard here on Saturday last, but the storm did not pass over this section of the country.

The lowest temperature this morning was 42. The wind is now blowing from the north-east and warmer weather will probably follow.

The spring has been equally backward in British Columbia, Manitoba and Saskatchewan. The weather was quite warm in British Columbia during the first of May and an early spring was looked for. But during the past few weeks cold weather has prevailed in that district and the crops there promise to be backward. Nova Scotia and Prince Edward Island have also received their shares of an unusually cold spring and with a snowstorm reported in New York it looks as if the backwardness of the summer is almost universal.

NOT ANXIOUS TO INVEST IN A NEWSPAPER VENTURE

Conservative Leaders are Timid About Subscribing to the Proposed New Publication.

It is said that members of the Conservative party will shortly establish a new newspaper in St. John. The Star hears that John McKane, the North Shore capitalist, is the principle supporter of the scheme and has contributed \$25,000 to the fund. A general subscription is now being taken throughout the province and in Upper Canada, and while a certain amount of success is being met, there is a tendency on the part of the majority to avoid a newspaper investment, so that, up till the present, only about \$15,000, in addition to Mr. McKane's contribution, has been received from other sources. The supporters of the paper desire to make the capital stock at least \$100,000, and have decided that no action towards organization will be taken until half of this amount has been subscribed.

A preliminary meeting will likely be held in about a month when the plans will be made. It has previously been stated that orders are already placed for the equipment of the office and that a building has been secured, but this is now contradicted, and it is announced that nothing will be done until after the organization meeting. There is no mention of any names for the position of manager or editor, and it is unlikely that those who have been most actively promoting the scheme will be personally connected with the management of the paper, if it should be established.

THE GLENCAIRN TO COMPETE IN NEXT SATURDAY'S RACE

Cup Won by William Ganong, Was Sent to St. John Yesterday—Lost a Finger in a Fight

MONCTON, N. B., June 11—William Ganong, manager of the American Hotel, forwarded yesterday to the chairman of the sailing committee of the St. John Royal Kennebec Yacht Club, the cup to be sailed for at St. John on Saturday next. Glencairn IV, owned and raced by Mr. Ganong, was the winner of the annual event last year and will sail to defend the cup again on Saturday. The trophy becomes the property of the one winning it twice, and Skipper Ganong's many friends here wish him success on Saturday.

During a fight in a restaurant last night George Warwick, one of the proprietors, had a finger cut off from a blow of a spade in the hands of Richard Dowd. A warrant for the latter's arrest has been issued.

BRIE A TOTAL LOSS ON THE CAPE BRETON COAST

LOUISBURG, C. B., June 11—At 12 o'clock yesterday the brig New Dominion was driven ashore in Gabarus Bay during the heavy easterly gale which prevailed, about two hundred yards from the Light House, and is a total loss. There were three men on board at the time of the accident, and they had a very narrow escape from death. The brig has a registered tonnage of 134, and is owned by John Weatherbie, of this town. There is no insurance on the ship and the loss will be a heavy one.

The old St. John ice house, on Leinster street, is no more. This landmark has been removed and men are now employed at clearing up the site prior to the building of a garage. The work of tearing down the ice house has been going on for some weeks and this morning the last wall fell.

THIEVES BROKE INTO THE FORT HOWE ARMORY

It was discovered by members of the North End division of the 2nd Regt. Canadian Artillery last evening that vandals had pried off the sashes on the drill shed on Fort Howe, broken panes of glass and entered the building, doing considerable damage, and upsetting the rifles and other stores. It is not yet known how much, if any of the stores, have been stolen, but it is thought the miscreants did not break in without intending to take something. Quartermaster George Estey, who has charge of the stores, etc., is very sure he had all the doors and windows securely fastened, in fact the broken glass and sashes indicate burglary. On inventory of the stores will doubtless be taken to make sure of theft, and Major L. W. Barker has placed the matter in the hands of the police.

Steamer Pors arrived this morning from North Sydney with 811 tons of Old Mines Sydney Coal for J. S. Gibbon and Co.

Teeth Extracted Without Pain, 15c.

We make the best \$5.00 set of teeth in this city. Gold filling from \$1.00; Silver and other filling from 50c; plates repaired from 50c.
