THE SEMI-WEEKLY SUN

ST. JOHN, N. E. JUNE 16, 1900.

MANITOBA FRANCHISE BILL. The liberal concervative government of Manitoba is redeeming its pledges. One of these was to repeal the iniquitous franchise law which had been enacted by the Greenway government. Under that law it was easy for unscrupulous men to tamper with the voters' lists and interfere with a free expression of the will of the people. The new government might have retained the old law, and utilized the partisan machinery devised by the liberals for its own purposes. might have cited the example of the Ottawa government as a justification for repudiating its pledges and adopting what it had formerly demounced. But Hugh John Macdonald and his colleagues have done neither of these things. The franchise act which they have introduced hands over the preparation of the lists to the municipal authorities and provides for a revision by judicial officers. ... It

orable light." It goes further and says: "There is not a tho man or woman in Nova cotia who will not think more of him for the information which the Herald and Star impart concerning his ac-tion. Mr. Fielding did just what might mite was used as a means of starti the jam, but it was not success The logs are now being hasked out ave been expected of him." Less than a dozen members of the steam power. ouse kept their seats on the occasio

eferred to. One of them, of course as Mr. Bourassa. All who rose and orned in slaging the national anthem are open to the censure of the Chronicle. We fancy there were some de-

cent-minded persons among them, and that there are such also in the country at large, who regard it as rather inent for a member of the government to keep his seat under such cir cumstances, Perhaps the Chrohicle is correct, however, in declaring that "Mr. Fielding did just what might have been expected of him." It is not so many years since he headed a se cession movement in Nova Scotia.

WHICH SHALL IT BE?

The Hon. Mr. Blair was in the city Hednesday. Hon. Mr. Emmerson and Hon. Mr. Tweedle were also on the scene. It may be assumed that matters relating to the supreme court udgeship and the proposed shuffle of portfolios in the provincial cabinet were under consideration. It is under stood that Mr. Blair is having some trouble with his friends. There are, trouble with his friends. There are, livorth lodge, Knights of Prihlas, had said to be two strong candidates for an excursion by boat and rail to Kentthe judgeship, Hon. Mr. Emmerson and Geo. F. Gregory, Q. C. If the former is appointed, the latter, who is able to wield an influence which Mr. Blair cannot well afford to despise, might be grounds yesterday afternoon and ever

troublesome. On the other hand, if Mr. Gregory is appointed, Hon. Mr. Tweedle loses his immediate chance for the premiership, which, after his recent famous interview and confession of faith, would be extremely sad. Of course the three statesmen are actuated purely by motives of patridtism, and all good citizens will wish them a happy release from their troubles. If they wait a few months the people will perhaps take the liberty of settling the question themselves. But the vacant judgeship, it is claimed, must be filled soon, and in that case the people can do nothing but stand

think there is a great deal more trou-

ble shead for the concert of powers

than merely reaching Pekin with 2.044

way to Pekin, several of the powers are arranging largely to reinforce their details at Tien Tsin. Germany purposes sending 1,200 men. Great Britain sent 600 from Hong Kong yes-terday and 400 will go Sunday. Italy has ordered 1,000 men to hold themselves in readiness. Russia, according

to a St. Petersburg despatch of Wednesday, has decided to bring her force at Tien Tsin up to 6,000. Thus the combined forces at Tien Tsin will probably soon be about 10,000 men. The explicit statement made yester day in the house of commons by: the

also provides that one man shall have but one vote. Heretcfore the custom; still in vogue in some other parts of Canada, of permitting a man to qualify in more than one constituency and vote in more than one, was maintained. Premier Macdonald regards this as objectionable, and his act provides a remedy. An educational clause in the act pro-

vides for the exclusion of certain residents as follows :---

All persons, not British subjects by birth, who, at the date of the passing of this act. were not upon the last revised list of voters to be used at elections of members to the legislative assembly of Manitoba, or who have not resided in the dominion of Canada for at least seven years preceding the date upon which any such election is hereafter held; unless such person is able to read "The Manitoba Act" in one of the following languages, that is to say, English, French, German, Swedish or Icelandic.

This clause has special reference to the Doukhobors and Galicians. Premier Macdonald's remarks on this section are thus reported by the Win. nineg Telegram :--

As to the educational elause, he had .no hesitation in saying that the main object of it was to shut out Galicians and Doukhobors, and he took the stand without bny hesitation. Personally he was of the opinion that it was of the utmost importance that those who were not here long enough to understand what free institutions were should not be permitted to vote until they did understand. Those who understood the nature and value of free institutions should not be interfered with by those brought up. not under constitutional government. In 7 years they would have picked up enough to erable them to intelligently understand our constitution.

CAPT. C. F. HARRISON.

The intelligence of the death of Captain Charles F. Harrison of the Second Canadian Contingent, was received in this sity, Wednesday, with universal regret. That death came to him through the tedious medium of enteric fever at Cape Town, instead of in the swift shock of battle, does not lessen the public appreciation of the sacrifice. He volunteered in the service of the Empire, as he had previously done in the service of Canada, and with a full consciousness of the dangers involved. We shall see his face no more, but memory will enshrine Charles F. Harrison among the heroic sons of Canada who gave up their lives in the cause of that larger liberty which is the pride and glory of the British Em-4. 11.40 pire.

MR. FIELDING'S ATTITUDE.

The Halifax Chronicle says that provinces by the sea. when the members of parliament sang God Save the Queen in response to Mr. Bourassa's speech they displayed bad form and bad feeling. Mr. Fielding, who kept his seat during the cheers and singing, appears, according ccionel." Tarte and Laurier would to the Chronicle, "in an extremely fav- | endorse the appointments.

Mr. Fisher, Mr. Fitzpatrick: Mr. Godbout Mr. Carroll. Mr. Erb. Mr. Belcourt. Mr. Brodeur. Mr. Campbell. Mr. Bourassa. One report says: "Archie Campbell, M. P

by and watch the battle.

for Kent, not only retained his seat, but also remained wearing his hat till the middle of the third verse of God Save the Queen ' Mr. Bourassa is a powerful leader or he could not dominate .. those cleven members n this extraordinary fashion.

The Moncton Transcript publishes an alleged interview with a Restigouche county gentleman, in which the opinion is expressed that if Hon. Mr., Blair, declines to run in that county, the liberals can elect either of two resident liberals who are named. No reference is made in this interview to Mr. Blair's attitude respecting the Gaspe railway contract. Perhaps it is just as well. The Restigouche gentleman is further alleged to have said he would not be surprised if Mr. James Robinson, M. P., were the next liberal candidate in Northumberland county. It is aston . ishing what a lot of news some of our valued grit contemporaries are getting this summer.

The Canadian Pacific fast express. the Imperial Limited, brings Toronto within minety-six hours of Vancouver. The fact illustrates the wonderful development of Canada. The country may now be crossed from the Atlantic to the Pacific in less than six days, and the journey made with a comfort approaching luxury. By the progressive statesmanship of Sir John Macdonald and those who labored with

him, Canada has been made great, and

its uttermost bounds brought into close

touch with each other.

The fact that over a score of young men from the maritime provinces graduated in medicine this week at McGill University directs attention to the strong hold this institution has gained upon the confidence and good will of the people. It is now becoming the fashion to patronize a Canadian rather than an American college. The splendil equipment of McGill gives it high rank among educational institutions, and it is yearly growing in favor with medical students from the

Col. Borden might reward the men who refused to rise in their seats in the commons when God Save the Queen was sung, with the title of "honorary

at Athol on June 22nd. Most of the articles found on the prisoner have been identified. Besides the revolver and cartridges, there were found on him a number of fuses for blasting purposes. On electing which court he would be tried before, he said: "I think I will be tried supreme this time." It is believed that he is the same man who about six years ago was sent to the penitentiary for five years for burglarizing the station nouse at Springhill. A disgraceful fact in connection with this man's imprisonment in the fail here is that he was confined handcuffed in the same cell occupied by an insane man, whose proper place is the insane asylum at Halifax. The breach in the other cell floor made by the recently escaped prisoners has not been repaired, thus leaving that cell of no use. The residence of Mr. and Mrs. M. D. Pride here was last evening the scene of a pretty hymenial event-the marriage of Miss Annie Black of Salt. Springs, daughter of Station Master J. W. Black, and Harry Black of Dunlap Bros. & Co., ltd. The nuptial knot was tied by Rev. J. L. Batty, about eighty guests being present at the ceremony. The bride, gowned in ivory white silk grenadine, with liberty silk and chiffon trimmings and carrying a bouquet of white roses, was given away by her father, Miss Trueman played the wedding march, and during the wedding repast she with Miss Trentolm rendered very appropriate music. The bridal presents were exceedingly handsome, and included an elegant

gold chain from the groom, an easy chair from the groom's Sunday school class and a chair from his fellow clerks of Dunlap Bros. & Co.

HON. MR. BLAIR AND THE EXHI-

BITIONS. Hon. A. G. Blair, minister of railways and canals, came in from Fredericton Wednesday morning. Messrs. Pottinger and McKenzie of the L C, R. came down from Moncton, to meet him. Mr. Elsir, interviewed in regard to special rates over the I. C. R. for exhibitors at the Halifax fair, said that on learning that the exhibition associations of the two cities had fixed upon the same dates for the holding of their respective exhibitions.

he had informed the parties that they must agree upon or arrange dates which would not conflict, as otherwise he would be compelled to cancel the order for the carrying of exhibits free. It would be impossible for the I. C. R. to arrange transportation to both exhibitions at the same time. The Sun's Halifax correspondent wired that night as follows: . The Talifax exhibition people were thrown into a state of some excitement today by a telegram from Hon. A. G. Blair, stating that if the date of the Halifax show was not fixed at a time either before or after the St. John exhibition that the arrangement for the transportation of exhibits to and from the akibition would have to be cancelled Attoricy General Longley, president of the Halifax Exhibition Association replied that the Halifax dates would be adhered to, irrespective of what might happen, and that Halifax would be satisfied cnly with whatever railway rates were given to St. John.

of boys, aged thirteen to fifteen. The implements are pencil, paper, and 'anagram' cards, letters of the alpha bet on squares of cardboard." Adapting his plan to the lessons of this quarter, "select proper names of a person, place, or event," as: Jesus, Christ, John, Jairus, Herod, Herodias, Capernaum, Hattin, Macherus, Galilee, Bethsaida, sower, leaven, mustard seed, Beatitudes. "Letters forming these fifteen names were furnished to boys, divided into two camps, in different rooms: They were required to decipher the name, write a short account of it and give chapter and verse. The use of Bibles and maps was encouraged. In an hour each side guessed all the motive Inspector Weir refused to give names. Camp O excelled Camp H in the fullness and accuracy of the written reports." "Still more successful was the following a month later with the same camps. Eleven incidents selected from the lessons, each designated by two catchwords, which would the prompt act of the British consular match each other but fit nothing else," as: sower-field (Lesson VIII.); Beatitudes-mountain (I.); John-prison (V.); Herodias-dance (XI.); Pharisee - forgiveness (VII.); leaven - meal (IX.); woe-come (VI.); etc. "Twentytwo words in duplicate sets were handed to the camps to be guessed, matched, and recorded without comment. The work proved too long for the allotted hour, but Camp H guessed eighteen and Camp O seventeen out of the twenty-two words. The contest as a whole was a tie. The exercise aroused an intense interest, called forth quick recollection and intelligent study.

THE BLACKBOARD REVIEW should be a part of the general review, including a moral teachings review. Let the scholars name the virtues, and duties, and promises inculcated in the

quarter's lessons. This may be arranged beforehand, and classes may agree on those which seem most important. And as each one is named and writetn on the blackboard let the school, or the quartette, sing some appropriate verse of a hymn which will deepen the impression. Then all can be repeated in concert.

1. Over what period of Christ's life dces this quarter's lessons extend? 2. What new thirgs in this period that we did not have in the last quarter? 3. What things do you find that show progress in his work of planting the gospel? 4. In what years of his ministry do the events belong 5. In what part of the country? 6. Name the principal places re ferred to. 7. Name the four miracles studied Name the three miracles studied.

Name the five parables studied. 3. 10. State five great truths learned 11. Give six great duties enforced.

WHARF COLLAPSED AT HALIFAX.

(Special to the Sun.) HALIFAX, June 15 .- Fifty feet of the end of Musgrave's wharf collapsed at 1 o'clock this morning under a weight of 200 tons of coal taken out of the raised steamer Maverick. No one injured.
