We Paid \$100,000

for Liquozone, Yet We Give You a 50c. Bottle Free.

We paid \$100,000 for the American rights to Liquozone; the highest price ever paid for similar rights on any scientific discovery. We did this after testing the product for two years, through physicians and hospitals, in this country and others. We cured all kinds of germ diseases with it—thousands of the most difficult cases obtainable. We proved that in germ troubles it always accomplishes what medicine cannot do. Now we ask you to try it—try it at our expense. Test it as we did; see what it does. Then you will use it always, as we do, and as millions of others do. You will use it, not only to get well, but to keep well. And it will save nearly all of your sickness.

Kills Inside Germs.

Liquozone is not made by compounding drugs, nor is there alcohol in it. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. This process has, for more than 20 years, been the constant subject of scientific and chemical research.

The result is a liquid that described.

FLOUR IS DOWN.

BLACK SEA FLEET Took a Little Drop of Fifteen Cents Yesterday. Will Not Pass Through

The first cheerful piece of news heard for some time in the flour market was that given out yesterday of a cut of fifteen cents per barrel in all Manitoba grades. The jobbing price in St. John on high grade flour is now \$6.35 instead of \$6.50, which makes the retail price \$6.60 instead of \$6.75.

The reason for this cut in price is Great Britain Does Not Consider the not clearly explained, as the wheat market remains firm. But it is thought that it is simply a result of business competition, and this being the case there is no certainty that further reductions are being made. Several of the smaller Manitoba millers, whose flour is not considered as good as some other brands, have been securing more orders at the reduced rate than the larger mills thought they were entitled to, so the Ogilvie and Lake of the Woods mills, in order to meet this, re-ST. PETERSBURG, Dec. 6 .- Jap- duced their prices.

PRISONERS ESCAPED

Falls.

The Belangers Had Been Arrested For Robbing the Store of D. E.

Edwards at Fort Fairfield.

GRAND FALLS, N. B., Dec. 6 .- Two prisoners by the name of Belanger, who were confined in the lock-up here escaped from there some time late Sunday night or early yesterday morning The store of Delmer E. Edwards of Fort Fairfield, Maine, was enter between the hours of six and seven o'clock p. m. on Wednesday, the 30th ult., and about \$400 in cash and upwards of \$200 in checks stolen from the till. The theft was committed while Mr. Edwards was absent from the store and at home during the supper hour. Upon his return to the store he discovered that it had been entered during his absence and the till emptied of its contents. In making search he found that an entrance had been effected through a cellar window and that the thieves made their exit by the front doors of the store, having forced them open with some iron instrument which was subsequently ascertained to be a large chisel. Mr. Edwards immediately took a lantern and made a tour of the outside of his store and discovered footprints on the snow which led to the track of the C. P. railway, after which they could not be further traced. After proceeding a short distance along the railway track Mr. Edwards found a large chisel of peculiar shape and which was subsequently learned to belong to the proprietor of the grist mill at the Fort, and which was lost or missing therefrom some considerable time before and while the Belangers were working in the mill. Mr. Edwards upon examination found that the chisel fitted exactly in the im-

pression in the store doors where they had been pried open by the burglars. The next morning after the burglary was committed Mr. Edwards called upon the proprietor of the grist mill, who upon the production of the chise found, declared the same was his property and the one which was lost or missing from his mill for some time previous. Mr. Edwards then believing that the Belangers were the parties who burglarized his store, left the mill and went towards another part of the town with the intention of taking steps to arrest them, and it was while he was

Fort Fairfield. It may be here explained that the Belangers are brothers and have been living at the Fort in the vicinity of Mr. families.

On the morning of Thursday last, mill with the chisel in his hand, he passed both of the Belangers, who were held out no inducements to him to working nearby, and they saw him enter the mill with the chisel and return without it and go towards the business to make, the arrest he discovered that

the suspected parties had left the Fort. They arrived here shortly after six o'clock Thursday evening and were brought here by a man from the California Settlement. As soon as they reached here they were seen by Roy Kerton of the People's Bank of Halifax, from whom they inquired where they could purchase some clothes.

Mr. Kerton, having just heard of the

burglary at the Fort, suspected that the new arrivals were the guilty parties, and at once informed some of the townspeople of his suspections. The one approached me with any proposal parties were shadowed and after making purchases in J. L. White's furnishing store to the amount of about \$20 they shortly after put up at the Minto Hotel for the night. The authorities at Fort Fairfield were at once notified and instructions were received to put a guard around the building and that officers from the other side of the line would start at once for Grand Falls. A guard was placed around the hotel until the arrival of the officers from the Fort, when in company with the duce the withdrawal of the liberal town officers, the Belangers were arrested in their bedroom, searched, about \$225 taken from them and lodged in the lockup for safe keeping. Fred Kertson was then retained for the prosecution and Mr. Edwards communicated with. Upon his arrival here later in the day with Mr. Powers, a lawyer from the Fort, a consultation was held with Mr. Kertson as to what course to take. The prisoners having refused to surrender themselves voluntarily to the American officers it was pointed out to Mr. Edwards and his attorney that there were two courses open to them under the circumstances, to have them extradited or lay a complaint with the resources of that region, which against them for bringing stolen money into Canada. It was decided to take wealth and immense tracts of valuable | the latter course at the present time timber. named, who were not then on the track made their complaint and declared their intention of withdrawing. P. T Powers, promoter of the race, told Walthour and the others that they had no back on the track or not, take your

Early in the afternoon the five dissatisfied riders had not returned to the track.

The riders who quit the race remained about the garden and some of them so suddenly to stop riding. They asked a further conference with Powers. The request met with a refusal , and during the forenoon Powers issued a statement, in which he claimed that the Vanderstuyft-Stohl and Root-Dorlon at 3 o'clock this afternoon. teams won their lap fairly and that the withdrawal of the five teams was

NEW YORK, Dec. 7.-Walthour, as spokesman for the suspended riders, gave out their version of the trouble resulting in their withdrawal. He

plaint against them, and none of us

have. It is entirely against the unjust scoring of Stohl and Vanderstuvft that we are fighting. As a matter of fact, they should be a lap behind us instead of one ahead. It was this way: "When Dorlon and Root had gained their lap both Stohl and Vanderstuyft were off the track making changes. I carried the bunch along in an effort to catch the leaders, Dorlon and Root, and in doing so hit up such a fast pace that I succeeded in lapping all of the teams except three. Those were the Bedell Brothers, Butler and Moran and Dorlon and Root. We rode along after that more slowly, knowing that we had lapped the others, and what was our surprise when the score was posted to find Stohl and Vanderstuyft posted a lap ahead. Then came our protest, and you know the result." Denial was made by the management

this afternoon that there had been any error in the scorers' box, as claimed by the riders who left the track. Harry Pollak appeared on the track late in the afternoon with "Nat" Butler and asked that the story be denied that Butler had been assaulted. The rider bore no marks.

FOR RAILWAY CONSTRUCTION Senate Decided to Vote on Philippine Civil Government Bill.

ONE BOX OF DOAN'S KIDNEY **PILLS** CURED DROPSY.

Dropsy is not a disease in itself, as many people believe, but is an evidence of very severe kidney trouble. Dropsy is caused by watery particles oozing through the walls of the arteries when they are distended by unusual pressure, which can only be caused by obstructions in the kidneys. The symptoms of Dropsy are puffiness under the eyes, swelling of the feet and ankles, urine changed in character and appearance, smothering feeling from exertion or excitement. The only rational method of treating this disease is to reach the kidneys and restore them to a healthy condition.

The most successful remedy for this purpose is Doan's Kidney Pills. Read what Miss Agnes Creelman, Upper Smithville, N.S., says of them :- "I caught a cold, which settled in my kidneys, and turned to dropsy. My face, limbs, and feet became bloated, and if I pressed my impression that would last fully a minute before the flesh regained its natural color. I was advised to try Doan's Kidney Pills, and found by their use that I was cured
