The Woodstock Journal.

Whatsoever thy hand findeth to do, do it with thy Might.

WOODSOCK, N. B., THURSDAY, SEPTEMBER 20, 1860.

NUMBER 11.

VOLUME 7.

OUR OWN ADVERTISEMENT.

The Woodstock Journal is a large eight-page weekly, devoted to the advancement of the industrial, commercial, and moral interests of New Brunswick. The primary object at which it aims is, in the present circumstances of our Province—

1. The promotion of immigration, and the settlement of the wild lands.
2. The opening of the country, and the facilitation of intercourse by the improvement of the means of internal communication.
3. An increase in the Representation in the House of Assembly.
4. A system of Free Education for all—schools of all grades, from the Parish school to the Provincial College, being open to all without money and without price, and being supported by Direct Taxation.

While the Journal labors for these primary objects it does not neglect many others. It labors to introduce into the arena of politics a generous, sound and manly tone of discussion—to promote sympathy, good feeling and harmony among all classes, creeds, conditions and parties—to establish a system of frank yet genial criticism and their words and deeds—to encourage a free play of thought and speech—to develop in our people a sentiment of manly self reliance—and to inculcate the principles of the New Brunswick.

The Woodstock Journal is published every Thursday morning at Woodstock, N. B., for Wm. Edgar, Proprietor.

Single copies, one and three quarters each.
Clubs of six, one dollar and a half each.
Clubs of ten, one dollar and a half each.

Residence, at S. C. Winslow's second house below the Free Christian Baptist Meeting House.
Woodstock, May 9th, 1860.

N. R. KIMBALL,
SURGEON DENTIST.
may be found at his office in Dr. Smith's new building.
Woodstock, May 17,

THE PRINCE OF WALES, IN THE UNITED STATES.—The Montreal correspondent of the New York Herald gives the following as the programme determined for the tour of the Prince of Wales in the United States:
"The Prince will reach New York on the 11th of October and remain until the 14th. He goes from Hamilton, Canada West, to Chicago, where he will stay one day; then across the prairies to St. Louis, where he will stay one day. Returning he will stay two half days at Baltimore, two days at Washington, and one day at Philadelphia. Details of the journey are arranged almost to the hour."
The ball in New York will be given on the night of October 12. The reason why the proposed dinner was changed to a ball are that the Prince, being a young man, cannot make a speech, and it is not etiquette for any one to speak for him. Of course dinners nothing without a speech. Besides more persons can be accommodated at a ball than dinner. The Prince enjoys dancing very much and loves music.

Leaving New York the Prince goes to Boston where he stays two days, as he desires to inspect Cambridge College. He then goes to Portland, where the fleet awaits him, and sails for England. The reason why his stay in New York will be so short is that he wants to see all the country. His time is limited, and he has already had his leave of absence extended from Oxford whether he must return to resume his studies. He will stop no where on his way back. The reason why he does not embark at New York is because Portland has a better harbor, and the officers are afraid of desertions from the crew. Forty desertions have already taken place. It is probably designed to recompense Portland for her loss by the Great Eastern, and to respond to the kindness of the Mayor, who came specially to invite the Prince there.

The torchlight procession will be accepted from Mayor Wood.
Of course, any dinner by the British residents is out of the question. The Prince is very anxious to see the city and wishes he could remain longer. He will accept no invitations from private individuals, under any circumstances whatever. It was not settled where he will stay, but probably at one of the large hotels, as he prefers paying his own bills. He wants no special trains or displays, but desires to see American life as it is.

COST OF THE GREAT EASTERN.—The original cost of the Great Eastern was \$4,500,000. She stands charged to the present owners at \$4,500,000. Of this amount \$2,000,000 is preferred stock. The holders of this stock will doubtless soon own the ship, and they are likely to find her an elephant which they cannot manage, and which will be a great bill of costs. A New York letter writer says she can never pay except in the government transport service or in the slave trade. He says nothing short of a cargo of ten thousand negroes from Africa would prove a profitable speculation for a ship, costing three hundred tons of coal a day, and requiring five hundred men to work her.

WHO IS TO BLAME.—We would direct the attention of the Post Office authorities to the following extract from the Quebec Morning Chronicle:
"Our New Brunswick exchanges, as a general rule, come to us in a shape unfit to be opened being perfectly saturated with water. The fault lies not with the Canadian Departments but the author should be brought under the notice of the New Brunswick authorities. If Merchants' letters arrive in a similar condition they must be entirely unreadable."

A handsome bound copy of Mr. Munroe's history of the Lower Provinces of British America was sent by the author to the Lieutenant Governor for presentation to the Prince of Wales. Mr. Munroe received the following reply:
"His Excellency the Lieutenant Governor informs Mr. Munroe, 'That His Royal Highness the Prince of Wales was pleased to accept the copy of the work on the Lower Provinces, prepared by you for presentation, and to express his thanks for it.'"

VICTORIA.—In the year 1851 the Province of Victoria (Australia) possessed a population of only 77,345 persons; it now numbers considerably more than 500,000, and contains 211 post towns.

The Supreme Court of Mississippi has affirmed the validity of the law making it penal for retailers to sell liquor to a drunken man, and declares that the owner of the establishment is responsible for the acts of his barkeeper on his behalf.

Rumour has that the British Consul has secured the whole of the Clarendon Hotel at Saratoga for the accommodation of Lord Renfrew, who will make a brief stay there on his way to Washington.

THE GREAT EASTERN left New York on Thursday last, on her return voyage to Milford Haven, by the way of Halifax, after a stay of fifty days in American waters. She took about 100 passengers, all first class. There were few persons at the dock, and not much more interest was manifested in the movements of this monster ship than is usual at the departure of any of the ocean steamers on their regular trips.—She took no specie and but little freight.

GRASSHOPPERS IMPENDING RAILROAD TRAVEL.—The Springfield (Mass.) Republican says: "Trains over the Rutland and Washington railroad are considerably impeded in their passage by the myriads of grasshoppers that lodge on the railroad track, crushed beneath the giant wheels of the engine. The track is so slippery and greasy by the crushed mass that it is almost impossible for any roadway to be made on the up grades."

Kossuth's prolonged stay in Paris has not been without meaning. The certain grant of a liberal constitution and a separate government to Hungary has been the talk of the Bourse recently. A deeply laid and almost extensive conspiracy beginning in the old palace of Buca, has just been discovered, and was to have burst on the occasion of St. Stephen's Hungarian celebration towards the end of August. The Emperor of Austria, acting under the advice of the Regent of Prussia, has made known his intention of according Hungary in independence on the 15th, his national day. This wise conduct will not only save fire, bullet, rope and sword, but Hungary itself for a little while longer to the Hapsburgs.

An interesting discovery, namely, the existence of native diamonds, has been made in Australia. The stone was discovered in the black sand of the Ovens district by an Irish miner. Rubies and other gems of very small size had previously been found in the same deposit.

The London Court Circular says: "The joke going round is that on the day of the Volunteer Review the Emperor of the French was seen under a tree in Hyde Park, dressed in shooting jacket and wide awake, and with his cigar in his mouth.—Stranger things have happened, Charles Edward had an interview in London with George III and the Great Napoleon, it is said once ran over to have a quiet chat with Pitt."

THE GIRLS MAINTAINING THEIR RIGHTS.—The Worcester Spy says that girls in Oshana are disposed to maintain their leap year privileges as long as they can, and instance their firm adhesion to their rights by taking the lords of creation out on huckleberry excursion last Thursday and on the arrival home treating them to a supper spread in the Town Hall. Of course the girls paid the bills and did the handsome thing generally.

ANOTHER CHALLENGE TO HEENAN.—Mr. Joel View, a Georgia planter who, some weeks since, offered to bet \$10,000 that one of his negroes could make Heenan, the Hitrite, cry penny in a 24 foot ring, has come out with another challenge in which he offers to bet the same amount (\$10,000) that he can whip the Champion.

Kidnappers are at work at Chicago, their usual operations to get the negroes stupid or drugged liquor, or put them asleep with chloroform, and then take them off to some obscure railroad station and ship them for St. Louis. Several such attempts have recently frustrated.

Mr. Rorer is about to retire upon a princely fortune.

EMPEROR
SUMMER ARRANGEMENTS
