

VALCARTIER CAMP

Resounds once more to the Bugle Calls of Canada's Thousands in Training for Victory

TO the scores of newly enlisted battalions, impatient to get into the fight, this move to central military camps is more than welcome. The thousands of men under canvas at Valcartier, with plenty of open country around, can train under conditions far more nearly approaching actual warfare than have been possible at the home town barracks.

A few weeks work here, and our hearts and hopes will go with them as they sail for the Motherland, to do their gallant part in smashing the attempted tyranny of ruthless might and "kultur".

From Port Hope, Ont. to Charlottetown, P. E. I., come the thousands of stalwart soldiers now training hard at Valcartier. The infinite variety of their skill in the occupations of peace makes them a most resourceful and efficient body of fighting men.

Whole units are going overseas equipped privately with Gillette Safety Razors. Has your boy or your pal at Valcartier got his yet? If he has, then send him a generous supply of Gillette blades.

Officers and men returning to Canada from the front unite in endorsing the Gillette Safety Razor as a convenience, a comfort, and practically a necessity to the men on active service.

BRITISH GOVT WILL LET FOOD THROUGH TO NON-COMBATANTS

London, July 26.—The British government, it is learned today, will consent to the plan for rationing the civilian population in the areas occupied by German and Austrian armies, under supervision of a neutral commission appointed by President Wilson if the Central Powers will consent not to remove native food supplies. Details of the plan will be given Ambassador Page in a letter from the foreign office this week.

THE POLICE COURT.
In the police court yesterday morning Fred O'Keefe was sent up for trial on a charge of breaking and entering Steeves' grocery store, Union street, on the night of July 6. Inspector Wickham's testimony concluded the evidence and O'Keefe, when asked by the court if he had anything to say, replied: "I have nothing to say."
Two prisoners were remanded on drunkenness charges.

GENERAL GWATKIN GOING BACK TO ENGLAND.
Special to The Standard.
Ottawa, July 26.—The report that General Gwatkin, chief of general staff, will resign his appointment and return to England, is not yet confirmed. There have been rumors of this for some time and he may do so later on. However, his resignation is not expected immediately.

SHACKLETON NOW IN THE ICE FIELDS

Buenos Aires, July 26.—According to a message received here today Lieut. Sir Ernest Shackleton, the British Antarctic explorer, has reached the ice field in his effort to rescue the twenty-two men left on Elephant Island and last April, when his expedition returned from the south polar zone. The relief party left Punta Arenas on board the schooner Amma, which was to be towed as far south as possible by a Chilean government steamer, after which it was the intention of the

explorer to continue his search for his marooned companions.

BIG NEW COMPANY TO BRING BOOM TO NEWFOUNDLAND

\$15,000,000 Corporation To Work Limestone Deposits.

NEW YORK CAPITAL LARGELY INTERESTED

Sir William Reid has Succeeded in Financing Huge Industry to Manufacture Fertilizer Product.

Montreal, July 26.—Sir Wm. Reid, president of the Reid Newfoundland Railway and allied companies, returned to St. John's a few days ago, after a visit to New York in the past year promoting the financing of a corporation for Newfoundland which, if successful, will mean a tremendous industrial impetus for the ancient colony.

Two or three months ago the project was completed of a proposed \$15,000,000 cyanamid corporation, a hope is entertained that the necessary capital will be procured from American sources to proceed with the erection of the plant. Some days ago reports were current in St. John that the necessary capital was secured but this cannot be confirmed at present.

Cyanamid is a patented fertilizer product for the manufacture of which the chief raw material is limestone. There are also valuable by-products which can be utilized in the manufacture of products such as calcium carbide and ammonia.

Another primary essential is abundance of cheap water power, and in both as regards the raw material and the power, the Reid interests, the fortunate owners of almost limited supplies capable of development in the same locality.
