SHORT BUT LIVELY STOCK MARKET ON SATURDAY

Realizing for Profits and Pressure from Shorts Accounted for the Uneven Tone of Day's Trade.

New York, Nov. 1.—Realizing for profits and pressure from shorts accounted for the uneven tone of today's short but lively stock market session after a firm to strong opening.

The selling was ascribed in part to possible and adverse eventualities over the week-end, especially in the industrial situation. This naturally invited the cashing of profits already on hand.

Steels and Equipments monopolized the movement. Republic and Lackawanna scoring new records. Marked strength was also shown by Sloss, Sheffield, Gulf States and Superior steels. That group as a whole made extreme advances of three to four points, but in several cases, notably Republic, all or a large part of the gain was cancelled at the close.

Pressed steel car, railway steel springs, Pullman and Chicago Pneumatic tool were conspicuous among equipments, such recent favorites as American and Baldwin Locomotive reflecting pressure.

Heavyness was shown by motors and their specialties, oil and tobacco also developing reactionary tendencies with shipplings, the latter having opened with a demonstration of strength.

Various miscellaneous specialties which figured actively during the early week were dull with rails and metals. Industrial alcohol was a striking exception, holding the greater part of its six point gain. Sales amounted to 750,000 shares.

Trading in bonds was fairly large, but irregularity was created by the heaviness of local traction issues. Liberty bonds eased slightly and later nationals were steady. Total sales, per value, aggregated \$7,675,000. Old United States bonds were unchanged on call during the week.

MARKET OPENED STRONG DESPITE COAL STRIKE

(McDougall and Cowans.)

New York, Nov. 1.—The market opened strong in the face of the coal miners strike and a good many substantial gains were made on initial tradings. The steel stocks again showed considerable strength but made no such movements as they did yesterday afternoon. Shipping stocks showed a tendency to work higher because of the return of more men to the docks.

A selling movement set in around the end of the first hour which hit some of the speculative leaders rather hard, but the pressure did not last long and when it eased up prices came back with considerable vigor.

The market was firm in the late trading with strong spots among the specialties. News of the extent of the coal strike was fragmentary, but it appeared that there had been a fairly general response to the call for the unionized districts. Sales 765,500.

Quebec's New Leader.
News from the sister province indicates that the door of opportunity—the portal to achievement—opens for this stalwart and able French-Canadian. The mantle which has fallen upon Mr. Lapointe is the mantle of honor only if it be the mantle of service. Ontario is anxious to know better Quebec's new leader. Ontario will benefit by the acquaintance. And so will Ernest Lapointe.

Hose as modern as the Cord Tire

Go back to the days before Goodyear undertook to produce better hose, and you will find that rubber hose was built in much the same way that most hose is to-day.

An old-fashioned product. Good enough for those times, perhaps, but inadequate to meet modern standards of efficiency.

Goodyear opened a new era in the industry. Goodyear disregarded tradition. Goodyear's engineers started from the ground up to build hose of modern efficiency to meet modern needs.

The inevitable result of such methods was the development of better materials and improved hose construction.

Old ideas and old methods were forgotten. Goodyear Hose was built as if hose had never been built before. Modern industry's hose needs was the standard built to.

Is it any wonder, then, that the quality of Goodyear Industrial Hose dominates as does the quality of Goodyear Cord Tires?

Is it any wonder that Goodyear Hose gives longer, more satisfactory service and costs less in the end?

Goodyear builds a particular hose for every industrial purpose—water, steam, pneumatic tool, air drill, railway, fire, suction, and so on.

Let a man trained by Goodyear study your hose problem. Phone, wire or write the nearest branch.

ST. JOHN'S Saturday's Game Was Another T

Neither Team Was Victorious in the Contest Between John High and the Rotary Collegiate—Mud V

Wallowing in mud ankle deep, St. John High School and the Rotary Collegiate played a hammer-tongs game of football on the St. John's grounds Saturday afternoon, neither side scoring a point in the first half.

The game was one of the closest that has been played on the grounds this season, which is sufficient proof as each competition of the series has been as keen as the most enthusiastic could desire.

For the St. John High School following were in the line-up: Bill McKunken, Williams, Atkinson, J. son, Dalton, Jennings, forwards; inson, Tansey, Williams, quarters; Knight, Fraser, Gossell (capt), Hulsebosch, halves; Turner, backs.

In the Rotary Collegiate line there were Black, McPhail, Pett, Stevens, Gibson, Crer, Tucks, wards; Crease (captain), Teed, L. las, Skinner, halves; Taylor, Kite, McCready, quarters; Nash, full-backs. Mr. Cooper officiated as referee. his usual capable manner, and the game the teams "took in" show at the Imperial Theatre, later enjoyed refreshments at B restaurant.

Assist Directors Of The New Ho

Leading Citizens Organized Themselves Into An Auxiliary Association to Assist the Directors of Protestant Orphan's Home in Work undertaken.

Yesterday afternoon a number of the leading citizens met in the Imperial Theatre rooms, where they organized themselves into an auxiliary association to assist the directors of the Protestant Orphan's Home in work undertaken by that institution to establish a larger orphanage capable of housing the Protestant orphans of the whole province in a big building, or group of buildings.

Dr. Thomas Walker presided, there were also present W. S. P. T. H. Beasbrooks, Judge Forbe, King Kelley, F. A. Kinneer, I. Hipwell, Clifford Price, Joseph dock, William Watson, William derson, D. S. Sheppard, C. T. J. Robert Willis, R. C. Thomas, Mercer, O. Duffy, Dr. Heine, W. M. Campbell, R. W. Wigmore, Stanley E. Elkin, M. P., J. Cecil M. ell, T. H. Carver, W. H. Golding, Ledford, H. C. Rankine, C. W. and Joseph Likely.

These gentlemen represented citizens generally, as well as the fraternal societies of the and a resolution was introduced the commencement, organizing a meeting into an auxiliary as stated.

The resolution was moved by Liam Campbell and seconded by King Kelley. In seconding the motion, Mr. Kelley commended work that has been done by the auxiliary in securing for more than three score years and bespoke hearty co-operation of the Protestant people of New Brunswick in forcing the auxiliary plan for increasing the facilities for the care of the countless and otherwise dependent orphan children.

In the election of officers, followed Stanley E. Elkin, M. P., elected president, with William Campbell, vice-president, and W. H. Golding, secretary. An executive representative of the different fraternal organizations in the city, elected and comprises the following: T. H. Carter, R. Willis, C. T. Jones, Dr. T. Walker, Isaac Mercer, William derson, L. E. Rolston, Joseph A. dock, F. A. Kinneer and F. F. P.

During the meeting President T. Estabrooks, of the Protestant Orphan Home directorate, explained in detail the plans regarding the new building in West St. John, formerly the Martello Hotel, and full credit to Messrs. Wigmore Elkin for securing the building such reasonable terms.

He stated that a budget of \$1 had been appropriated for the renovation of the original building, British street, and in the new wing in West St. John for the period of the coming year, basing occupation at 85 children—an increase of 40 over the present number. Martello Hotel property has been donated for over one hundred and at the close of the general meeting, President Elkin called a session of the new officers and active, when plans for the future were discussed.
