London, June 9-Special despatches from Petrograd express the belief that the Russian successes against the Austrians are far more mportant than appears from the official announcements.

armies are on the eve of a general retreat, and that Lemberg is in great strategic danger." On the same authority it is asserted that "a strategic breach, 100 miles wide, has been blown in the Austrian front, involving the armies of General Count Von Bothmer and General Von Boehm-Ermolli, and part of that of Archduke Joseph Ferdinand." According to other despatches, the Russian success is largely due to the unprecedented use of artillery, surpassing in intensity any previous efforts on either side on the east front. The retreat of many Austrian trench detachments was completely cut off by a cur-tain of shrapnel, through which it was impossible for any living thing to pass, and the Austrians were thus compelled to surrender en mazze.

This estimate of German losses is somewhat larger than that made in the latest official British announcement, is-sued on Sunday. At that time the ad-miralty gave the German losses, not all authenticated, as two battleships, two dreadnought battle cruisers, four light cruisers, nine destroyers and one sub-marine.

It has been reported previously that the Hindenburg was destroyed, but this was denied officially from Berlin. STIRRING STORIES OF GREAT BATTLE.

London Press Affirms Step. London, June 9—The editorials in the morning papers are largely taken up by the situation in Greece. The leaders unanimously express belief that the En-tente at last has decided to take strong measures with the anomalous situation in Greece, and the belief is general that Greece will be compelled to capitulate in a short time. Although it is not known what de-mands have been made upon Greece, the Daily Telegraph and other morning pa-pers express the hope that it is nothing short of the demobilization of the Greet army. The Post says: "Greece is confronted with a serious cmergency. It is in the power of the Allies to close the sea against her, and her many rich island possessions may become endangered."
