

COME AND GET US

We know you're out there. All X hundred thousand of you.

You're SCIENCE DIMENSION readers, and you've got something we need. Letters.

Letters! To give us vital feedback on what you think we're doing right (and wrong). To compliment us or rake us over the coals. To let us know more than ever how to make the magazine of Canadian science **your** magazine.

So let's hear from you. It takes just twenty minutes and a postage stamp. You'll not only get an answer, you may even find yourself in print.

We're waiting for you. So come and get us!
