may many generous hearts - to supply our urgent need. Time for us is very short but I cannot think we shall fail.

My appeal is supported by many representative and prominent people, but I may mention that the project has the approval and endorsement of Mr. Anthony Eden, Minister of Foreign Affairs.

The movement, as I have tried to indicate, is entirely non-party, non-sectarian, and is a simple attempt to combine the very best of all parties. I realise we are a little late in our appeal, and that many who would gladly have given generously are already committed to the General Guarantee Fund, but surely there is still time and a place for what I could conceive to be the very focal point of the Exhibition. At least the issue is now in the hands of those who are moved to answer this appeal.

Promises of donations and help may be sent to me (Lady Aberdeen, Gordon House, Aberdeen) to be at once transmitted to the Central Office, or they may be sent direct to the Hon. Secretary:

Miss L. A. Bunc, B.A.,
136 Wellington Street, Glasgow, C. 2.

The smallest promise of help will be of great value. Generous gifts will lift our burden.

I am,

Yours faithfully,

L. A. Bunc
