

3. Pour the water from the pail over the seed and mix thoroughly.
 4. Spread out the seed to dry in a clean place out of the sunshine.
 5. The seed will dry in an hour and may be planted in the usual manner as soon as it is dry.
 6. Do not add water to the culture in the bottle until you are ready to plant your seed.
 7. Some untreated seed should be planted for comparison and it is well to plant this first.
 8. After the seedlings are one month old, look for nodules on the roots. During the season note number and size of nodules and vigor of plant growth from treated and untreated seed.
