THE BULLER HELIOGRAM

London, Nov. 5.—The Daily Express, on the authority of Mr. Miller Maguire, a famous military coach, gives what is alleged to be the authentic version of the heliograms sent by Gen. Buller to Gen. White during the siege of Ladysmith: "I have failed. Unable to try again without siege operations taking a month. Can you hold out so long? If not, I suggest you firing away as much ammunition as possible, and finally making the best terms. If you have another alternative to suggest I can remain where I am as long as you like." "Further despatches were exchanged," says the Daily Express, and learning that Sir George White was able to hold out, General Buller settled down to prepare to force the Tugela. Dr. Maguire, through whose hands nearly half the officers of the British army have passed for study, professes to have acquired the information without seeking for it some months ago.

ANGLOPHOBIA IN THE FRENCH CHAMBER

Paris, Nov. 5.—Prior to the debate in the Chamber of Deputies on the Turkish incident, M. Berry asked leave to interpellate the government regarding the measures it proposed to take in accord with other governments to call upon the British government to remove the women and children in the South Africa concentration camps to healthier districts. M. Deschamps, president of the Chamber, remarked that it would be difficult to interpellate the French gov-

CHECKED SOUTH.

When the first keen winds of winter begin to be felt in the North, many an invalid is hurried away by anxious friends to the kinder climate of the South. The cause is apparent

as you look at the hollow cheeks and listen to the rasping cough of the traveler.

Persons suffering with weak lungs, obstinate cough and severe hemorrhage even, have found the change of climate made unnecessary by the use of Dr. Pierce's Golden Medical Discovery. It strengthens weak lungs, cures obstinate coughs, and builds up the body with sound healthy flesh. It contains no alcohol, neither opium, cocaine nor other narcotic.

"I feel that I owe a debt of gratitude to a friend for recommending your medicine, as well as to you for preparing such grand remedies for chronic diseases especially, which the doctors failed to reach," writes I. B. Staples, Esq., of Barclay, Orange Co., Kans. "I desire to pass the good word along for the benefit of others who need your remedies. I am a railroad agent, and four years ago my work kept me in a warm room and stepping out frequently into the cold air gave me bronchitis, which became chronic and deep seated. Doctors failed to reach my case and advised me to try a higher air, but unfortunately for me, a friend also advised me to try Dr. Pierce's medicine. I commenced taking your 'Golden Medical Discovery,' and by the time I had taken the first bottle I was better, and after taking four bottles my cough was entirely gone. This was a year ago last winter, and again last winter I took about three bottles to prevent a return of the trouble. I have found no necessity for seeking another climate."

ernment for the actions of the British government. After a brief discussion, during which M. Milleroye was called to order for speaking of Mr. Chamberlain, the British Colonial Secretary, as a coward and an assassin, the Chamber decided to debate on M. Berry's interpellation at a later date.

HAND CAUGHT

A Young Man's Arm Amputated Near Staples on Saturday.

Comber, Nov. 4.—Jasper Dickinson, of Staples, a young man of 30 years, had his left arm taken off by a corn husker, while operating the machine at a near-by neighbor's on Saturday. He slipped, and the rollers caught his hand, and his arm was drawn in and horribly mangled. The machine was reversed, and the arm removed from its unfortunate position. The Comber doctors were summoned, and the arm was amputated near the shoulder.

BAD COLLISION

Engineer and Fireman Have a Narrow Escape—Engine, Tender and Baggage Car Derailed.

Leamington, Ont., Nov. 4.—A freight train on the L. E. & D. R. R. was pulling into the switch to let the east-bound express pass this evening about six o'clock, when two tenders which were attached to the rear end, broke loose, and remained on the main track, coming into collision with the express, with the result that both tenders were derailed, together with the engine and baggage car of the express. The engineer and fireman of the express jumped. Their escape from instant death is almost miraculous, as the baggage car and tender plunged into the engine. Traffic was delayed several hours.

TRAVELLER

Vancouver Man in the Maple City En Route for the Mother Country.

Thomas H. Bennett, of Victoria, Vancouver, is spending a few days in city. Mr. Bennett is an old Chatham resident, but for the last four years has been working in British Columbia. He has been all over the Northwest Territory, British Columbia, and as far north as Dawson City. He leaves taken with the climate in British Columbia and says there is plenty of work of every description. He leaves this afternoon for Shropshire, England, where he will attend a family reunion on the occasion of his mother's 87th birthday. He has three brothers and three sisters living, all of whom will be present at this happy event. Mr. Bennett intends to take a trip through Scotland, Ireland and England before returning to Canada.

He is looking in the best of health, his life in British Columbia having evidently agreed with him. It is also said that he has a goodly number of coins jingling in his pocket, the result of his four years' work.

MR. CHAMBERLAIN'S EXAMPLES.

Berlin, Nov.—Mr. Chamberlain's speech at Edinburgh, Oct. 26, in which he said the British could find precedence for anything they do in South Africa, in the examples in Poland, in the Caucasus, in Algeria, in Tonquin, in Bosnia, and in the Franco-German war of 1870. Official circles say the German government does not intend to notice Mr. Chamberlain's utterances. Lord Salisbury having repeatedly disclaimed responsibility for the Colonial Minister's expressions outside of parliament.

The second division of the Italian Mediterranean squadron has started for Tuley, with the object of countering the French naval demonstration.

Judge Prendergast, of Manitoba, has been offered and has accepted the position on the Supreme Court bench of the Territories rendered vacant by the death of Mr. Justice Rouleau.
