

Place.	Name of Bank.	Manager or Agent.
Strathroy.....	Canadian Bank of Commerce....	J. S. Small.
Thorold.....	Canadian Bank of Commerce....	W. J. Robertson.
	Quebec Bank.....	D. B. Crombie.
Tilsonburg.....	Merchants' Bank of Canada.....	R. W. Cresswell.
Toronto.....	Bank of British N. America.....	Samuel Taylor.
	Bank of Montreal.....	G. W. Yarker.
	Bank of Toronto.....	—, Cashier.
	Canadian Bank of Commerce..	W. N. Anderson, Gen. Manager.
		J. S. Lockie, L. Manager.
	City Bank of Montreal.....	W. Hamilton.
	Dominion Bank.....	R. H. Bethune, Cashier.
	Dominion Bank, Queen Street Branch.....	Jas. Price.
	Federal Bank.....	H. S. Strathy, Cashier.
	Imperial Bank Canada.....	D. R. Wilkes, Cashier.
	Merchants' Bank of Canada....	Arch. Cameron.
	Molsons Bank.....	George Hamilton.
	Ontario Bank.....	A. Fisher.
	Quebec Bank.....	Jas. L. Scarth.
	Royal Canadian Bank.....	Thos. McCracken, Cashier.
	St. Lawrence Bank.....	J. L. Brodie, Cashier.
Trenton.....	Canadian Bank of Commerce....	P. H. Fauquier.
Uxbridge.....	Dominion Bank.....	W. H. Holland.
Walkerton.....	Merchants' Bank of Canada.....	Alex. Sproat.
Waterloo.....	Eastern Townships Bank.....	Wm. G. Parmelee.
	Merchants' Bank of Canada.....	D. M. Harman.
Welland.....	Molsons Bank.....	J. McGlashan.
Whitby.....	Dominion Bank.....	H. B. Taylor.
	Ontario Bank.....	T. Dow.
Windsor.....	Canadian Bank of Commerce.....	B. E. Walker.
	Merchants' Bank of Canada....	H. R. Morton.
	Molsons Bank.....	C. D. Grasett.
Wingham.....	St. Lawrence Bank.....	W. Hayward.
Woodstock.....	Canadian Bank of Commerce....	W. A. Sampson.
	Royal Canadian Bank.....	Thos. McDonald.
Yorkville.....	Federal Bank.....	J. R. Montgomery.

BUCKWHEAT FOR ORCHARDS.—For some reason, buckwheat, which is not much of a crop is found to be just the thing for growing in orchards. The dense shade afforded by the plant keeps the ground light and friable, and this tendency is further increased by ploughing under the green buckwheat at least once a year. If the orchard is old, it is as well not to try to grow the grain, but keep a succession of growths through the year to be turned under when in blossom. Buckwheat is usually cheap, and needs only half a bushel per acre for seed. If allowed to ripen a crop occasionally, what is accidentally scattered will furnish sufficient seeding. This is the cheapest mode of keeping large orchards in good condition, as the grand requisite is to keep the soil, especially the surface soil, loose. Clover injures the growth of young trees, and it takes two years to get a crop ready to plough under. A new advantage of buckwheat is, that when rightly managed, it becomes an aid in fighting the codling moth. If the trees are kept smooth and no chance for a lodgment of the worm on the trunk, many will hide in the stalks of buckwheat. Ploughing the ground just before winter sets in, destroys the enemy, as it winters in the pupa state, and cannot live in contact with moist earth. Where all the loose stuff, weeds, and rubbish are ploughed under, just before freezing, thousands of the codling moth are destroyed, thus greatly lessening the evil the following season. This has been practically tested by apple-growers of the Grand Traverse (Mich.) region, who find buckwheat the best crop to keep their orchards in good condition.—*Cor. New York Times.*

Worries eat the life away. They gnaw wrinkles into the face, and bring gray hairs on the head, and half the time they are not only absolutely needless, but absurd. Why, in the name of all that is sensible, can we not wait until the draught of sorrow is forced to our lips, and not sup needlessly at the cup of gall and wormwood?
