

The Board has sanctioned the omission from this year's Report of the Rules and Regulations of the various Funds, which are ordered to be printed in a separate pamphlet. It is suggested that the Constitutions and Canons and the Acts of the Legislature of the Synod be included in the same book. This will be a matter of economy. In the place of this printing, the Board this year includes in the report short summaries of work done in the various parishes, which it is hoped will prove both interesting and helpful reading. The parochial statistics are fuller this year than ever before, though not quite perfect yet.

The Society of the Treasury of God, now fully constituted, has at present 64 members, all pledged to give of their income a proportionate part, and to give it at short and regular intervals. The spread of this principle throughout the Diocese will prove its financial salvation.

After the visit of a deputation of the Board to his parish a year ago, the Rev. E. H. Hall, of Tangier, induced his people to adopt a scheme which involved the abolishing of all special collections, the giving of the largest sum possible for them in the weekly or monthly offertory, and the setting apart of the money by the Vestry to various objects as their importance seemed to demand. By this arrangement he has effected the following improvements, as exhibited by his returns for 1890 and 1891.

1890		1891.	
B. H. M.	125 77	109 83	B. H. M.
W. & O.	4 71	8 02	W. & O.
King's Coll.	6 42	25 59	K. C.
Dom. M.	12 52	19 42	Dom. M.
For. M.	11 13	23 40	For. M.
Jews.	1 34	11 34	Jews.
Bishop.	18 00	20 00	Bishop.
See House.	9 00	11 00	See House.
	\$191 89		\$228 60

Thus he has raised the whole contribution from his Parish 30 per cent.; his own stipend, being first on the list of claims, is secure; and his people, feeling that by the giving of a certain proportion of their income, and giving it at short intervals, they are fulfilling their Christian duty and setting an example of the true method of supporting the Church, are gaining for themselves though to a certain extent unconsciously, a great increase of spiritual power. The Board is happy to report that a similar scheme is now in operation at Truro, under Archdeacon Kaulbach; at Amherst under Rural Dean Harris, in Yarmouth under the vigilant and energetic oversight of Rev. Dr. Cartwright. And there is every indication that the movement will grow.

In conclusion the Board would give utterance to its conviction that the only way to secure by this or any other means a due amount from the possessions of our people, is to uplift them spiritually. Nothing will do this but a fresh outpouring of the Grace of God upon the Diocese at large. There must be more earnest and fervent prayer for guidance and enlightenment, more steady and persistent and laborious work, less trust in expedients and more waiting upon God.
