PUBLISHER'S DESK

The man or woman too prejudiced to try Vita-Ore because it is an advertised treatment is like one who cheats at solitaire. He injures no one but himself. Read about it on last page.

Poultry and Farm Building Plans

One of the best free books of the season is that offered by F. W. Bird & Son, East Walpole, Mass., manufacturers of Paroid Roofing. They will send to all those interested a book of complete plans for poultry and farm buildings, free of any charge, except a 2-cent stamp to cover postage.

The object of this book is to attract attention to Paroid, the old reliable ready roofing and siding that has come into such general use throughout the country by farmers and poultry raisers. The manufacturers are justly proud of the fact that Paroid is extensively used by the United States Government on some of its experiment station buildings, stables, barracks and warehouses. Transportation companies are using it also because of its economy, durability and its being proof against sparks and cinders. These features appeal strongly to farmers, too, and in addition the fact that it contains no tar and will not taint rain water. Besides it is a very simple matter to lay it as it comes in rolls, and each roll contains a complete roofing kit.

Trying to cure disease or conquer a pain without help of medicine is the same as trying to swing a strong torrent when a stout bridge is close by. Vita-Ore is the bridge between the shores of ill health and good health. Read about it on last page.
