

Amatite

INSTEAD OF SHINGLES

In the last few years the price of lumber has more than doubled in cost. Before the increase the price was higher than the average farmer could pay. The use of shingles, therefore, has been growing less and less, and the progressive farmer has been using Amatite instead.

What is Amatite? It is the mineral surfaced roofing that costs less and wears longer than the "Paint-me every-two-years-or-leak" kind.

It's waterproof, weather-proof, stormproof. It's the one with a real mineral surface.

BARRETT MANUFACTURING CO., New York, Chicago, Cleveland, Allegheny, Kansas City, St. Louis, Boston, Minneapolis, Philadelphia, New Orleans, Cincinnati, London (Eng.)
PATERSON MANUFACTURING CO., Limited, Canadian Agents, Toronto and Montreal.

that makes painting and coating entirely unnecessary. Any one can lay it by simply following the directions which go with every roll. We send along enough nails and cement for laps to complete the job.

FREE SAMPLE

To any one interested we will send, upon request, a Sample and illustrated Booklet telling all about Amatite. We want you to see how good this roofing really is. Write to-day and keep up with the times.

A Remarkable Invention FOR THE CULTURE OF HAIR.

THE EVANS VACUUM CAP is a practical invention constructed on scientific and hygienic principles, by the simple means of which a free and normal circulation is restored throughout the scalp. The minute blood vessels are gently stimulated to activity, thus allowing the food supply which can only be derived from the blood, to be carried to the hair roots, the effects of which are quickly seen in a healthy, vigorous growth of hair. There is no rubbing, and as no drugs or chemicals of whatsoever kind are employed, there is nothing to cause irritation. It is only necessary to wear the Cap three or four minutes daily.

60 DAYS' FREE TRIAL! The Company's Guarantee.

An EVANS VACUUM CAP will be sent you for sixty days' free trial. If you do not see a gradual development of a new growth of hair, and are not convinced that the Cap will completely restore your hair, you are at liberty to return the Cap, with no expense whatever to yourself. It is requested, as an evidence of good faith, that the price of the Cap be deposited with the Chancery Lane Safe Deposit Company of London, the largest financial and business institution of the kind in the world, who will issue a receipt guaranteeing that the money will be returned in full, on demand, without questions or comment, at any time during the trial period.

The eminent Dr. I. N. LOVE, in his address to the Medical Board on the subject of Alopecia (loss of hair) stated that if a means could be devised to bring nutrition to the hair follicles (hair roots), without resorting to any irritating process, the problem of hair growth would be solved. Later on, when the EVANS VACUUM CAP was submitted to him for inspection, he remarked that the Cap would fulfill and confirm in practice the observations he had previously made before the Medical Board.

Dr. W. MOORE, referring to the invention, says that the principle upon which the Evans Vacuum Cap is founded is absolutely correct and indisputable.

An illustrated and descriptive book of the Evans Vacuum Cap will be sent, post free, on application.

THE SECRETARY, EVANS VACUUM CAP CO., LTD.,
REGENT HOUSE, Regent St., London, Eng.

QUESTIONS AND ANSWERS. Miscellaneous.

RAILWAY FREIGHT CHARGES.

I shipped a car of sixteen head of registered Shorthorns from T— to W—. The ——— Railway received them at the reduced fare (one-half) for registered stock, and agreed to deliver them at W—. I paid the freight to W— at the ——— Railway freight office in L—. The connecting railway refused to move this car over their line until I paid the balance of the full car rate to them over both lines. This, after I had paid the freight the ——— R. asked for the whole distance. The ——— R. took the shipping vouchers for the sixteen head. Now, can I recover the extra money other railway received?

Ontario.

Ans.—We think so.

FEEDING VALUE OF MOLASSES

Kindly let me know the value of molasses in feeding growing calves, or in fitting cattle for the shows. In what proportions would you mix molasses, corn, oats, bran and oil cake, or is there anything better?

OLD SUBSCRIBER.

Ans.—Molasses is a purely fattening food, but it tends to improve the coat and to give the animal a general thrifty appearance. When animals learn to eat it, they generally become very fond of it, and will eat more of other food in consequence. Unless the growing calves are being fitted for show, I do not think it would pay to feed molasses. Plenty of whole milk, combined with a ration made up of about equal parts by weight of corn, oats and bran, with a very small proportion of oil cake added, will be found satisfactory for these growing calves. As to the oil cake, a very small amount should be used at first, say a small handful at a feed twice a day. As the calves become accustomed to it, the quantity may be increased, but I do not think it would be wise to exceed one or two pounds of oil cake per day with calves under twelve months old—the younger the calves, the smaller the amount. The same meal ration will answer very well for cattle that are being fitted for show, but the proportion of oil cake should be increased, though I doubt the wisdom of feeding more than from three to four pounds of oil cake per day to an animal. As to the molasses, it should be used somewhat sparingly, as it is a somewhat expensive food, but I do not think a quart of molasses a day would do an animal any harm, provided it is thought advisable to feed so much as this. For reasons of economy, however, I think it would be better to feed a smaller proportion, and possibly just as good results would be obtained. G. E. DAY.

TRADE TOPIC.

AN IMPROVED GASOLINE ENGINE. Those who consider that gasoline engines are the ideal farm power, as well as many who have been dubious concerning them, are sure to be interested in the "New-Way" model. A member of "The Farmer's Advocate" staff had the privilege recently of inspecting one of this make running in a shop in London, Ont., where a local agency is being established by general agent, E. S. Cooper, and was impressed with its compactness, its lightness combined with strength, its simplicity, and evident smoothness of running, and its air-cooling device instead of the accustomed water tank. This is claimed to be the first engine to cool its cylinder by means of air. The plan is very simple. A revolving fan on one side forces a current of air through a perforated iron casing, enclosing the cylinder, and we are assured that in the hottest weather the cylinder is kept quite cool. One advantage of doing away with the water tank is a great saving in weight, an important point in a portable farm power. The 6-7 h.p. twin cylinder New-Way weighs only 700 pounds. Another point is that the two opposed cylinders give constant speed and quick recovery under a load. On another page will be found an advertisement of this engine, which is handled in Canada by the New-Way Motor Co., Brighton, Ont. Write for free illustrated booklet; you will be certainly interested.

An Infallible Cure

For Sprains, Ringbone, Splint, Curb, Sweeney, Lameness and Soft Bunches, Kendall's Spavin Cure has no equal.

MONTREAL, P.Q., Sept. 12, '06. "I have the care of a number of horses and have used your remedies, which always proved infallible." D. Baillergon. Be prepared—keep Kendall's always in the stable. Our book "Treatise on the Horse" free from dealers or

Put Good Grazers on Your Grass!

The **HEREFORDS** are the range cattle par excellence. They grow near the ground. They make flesh rapidly and easily, and they will make money for you. Over 100 head of breeding stock of the most approved strains on hand at low prices.

A. S. HUNTER, DURHAM, ONTARIO.

Sunnyside Herefords

Present offering: 10 bulls, serviceable ages; 4 of them over 2 years; big, strong, happy fellows; ready for heavy service or rough usage on the ranch; also breeding cows at prices that will move them. Must make room for this year's crop of calves. Come and see them, or write and tell me what you want.

ARTHUR F. O'NEIL, Maple Grove, Ont., Middlesex Co.

Broxwood Herefords

Cows, heifers and calves

For Sale.

R. J. PENHALL, Naber, Ont.

FOREST VIEW FARM HEREFORDS

Four bulls from 8 to 18 months old; prize-winners and from prizewinning stock. Several heifers bred on the same lines; choice individuals for sale. JOHN A. COVERLOUGH, Forest Stn. and P.O.

HEREFORDS—We are now offering a few thick, smooth young bulls and a number of females—a low-down, even, beefy lot. If in want of something extra good, correspond with us. We can please you. J. A. LOYBING, Coldwater P.O. and St.

Fairview Herd Holsteins

Home of Pontiac Rag Apple, the cow that sold a few days ago for \$8,000. Highest price ever paid for an A. R. O. cow. I have her sire, Pontiac Korndyke, the greatest living sire of the breed, and also over 40 of his daughters, sisters to the one that brought the top price, and they are all good ones. Also bull calves by the best sires in the States. Write me, or come and look the herd over. Only seven miles from Prescott, Ont. E. H. DOLLAR, Heuvelton, St. Lawrence County, N. Y.

Saskatchewan

Wheat land. Easy terms.
\$10.00 to \$25.00 per acre.
Money making. City property.

The Minton Mansell Co., SASKATOON.

Messrs. R. Reid & Co., Hintonburg, Ont., near Ottawa, write: "Am offering for sale two grand six-year-old imported Clydesdale stallions, good foal-getters, having travelled on same route for three years, and taken well with the public; also a fine Hackney stallion, five years old. These horses have all been winners wherever shown."
