Northern Ontario

The forest and mineral wealth of Northern Ontario has attracted many people from all parts of the civilized world.

One ninth of the world's reported output of silver in 1908 was taken from Ontario mines.

New discoveries of undoubted richness are being constantly reported from sections far distant from the far-famed Cobalt. Yet a more certain reward is insured to the settler who acquires for himself 160 acres of the rich agricultural lands now open for settlement and made accessible through the construction of railways and Colonization Roads.

The fertility of the soil is unsurpassed. The timber is in demand at a rising price. Mining, railway and Colonization Road construction, lumbering, etc., afford work in abundance to those who have not the means to remain on their farms continually. These also provide a market for farm produce at prices unequalled anywhere.

At the terminus of the T. & N. O. Cochrane, the terminus of the T. & N. O. Ry. on the G. I. P. Transcontinental Railway, now under construction, is in the same latitude as the southern part of Manitoba, and 800 miles nearer the seaboard.

That the experimental stage is past is clearly demonstrated. The country is rapidly filling up with settlers from many of the other Provinces, the United States and Europe.

VANCO CANADIAN MADE

Lime Sulphur Solution

shows on analysis a higher percentage of active sulphur in solution than other brands or the home-boiled article. It is therefore more certain to thoroughly destroy all parasites and fungi, including the San José Scale.

VANCO is a clean solution—free from useless sediment—all good. One barrel makes 12 for winter or 50 for summer spray.

\$5.00 per 100 lb. Toronto.

Lead Arsenate

kills 95% of codling moths where Paris Green at its best will not kill over 75%. It is a sure destroyer of all leaf-eating insects. Easy to spray as it settles slowly and does not clog the nozzle.

Sticks much better than Paris Green. Never burns or injures the foliage.

The majority of experts and authorities throughout Canada and the United States have adopted Lead Arsenate.

1 lb. to 1 1/2 lb. per lb., according to quantity.
