What Can You Do With It?

ALTHOUGH it may not be very much, only the difference between your income and disbursements, yet, if judiciously invested, it would amount to a considerable sum in a few years. By depositing a comparatively small amount annually with the

NORTH AMERICAN

for Endowment Insurance you would have a most judicious investment, with undoubted security, which would yield you an excellent return should you live until it matures. If not it would prove to be a very valuable asset for your family.

Write for particulars of actual results realized by holders of matured investment policies.
